PREFATORY NOTE

UNRELATED portions of the diaries of George Washington have been published in the past, at different times and under various editorial plans; some of these publications are not now readily accessible and all of them, added together, comprise hardly one-sixth of the available record. It remained for the Mount Vernon Ladies' Association of the Union, with patriotic understanding and generosity to undertake the publication of every available diary in a complete and uniform edition.

On page xv is given the first complete list of all the diaries, from the earliest known to the one containing the last words written by Washington, and the diaries are there numbered for convenience of reference. These numbers are assigned arbitrarily to those diaries only whose one-time existence is fairly inferential, and it is to be hoped that some of those now missing have survived and will come to light in the future.

Certain of the diaries were given away by Bushrod Washington, who inherited his uncle's papers; thus, unfortunately, impairing the completeness of the record, but rendering the title of the present owners unassailable; other diaries, however, disappeared in ways decidedly questionable.

At present there are forty original diaries known to be in existence; thirty-six of these came into the possession of the Government when the Washington Papers were purchased from the family in 1834 and 1849, and are now, with those Papers, in the Library of Congress. Four diaries are known to be in private hands; two others (Numbers 3 and 4 of the List) exist only in printed form, and two more (Numbers 40 and 43), which were in exist-

PREFATORY NOTE

ence prior to the Civil War and were then published by Benson J. Lossing, have since disappeared.

It seems unlikely that the diary habit became confirmed until Washington was nearly forty years old, and it is altogether probable that his early diaries were kept only as records of special and unusual times, such as the trip to Barbadoes in 1751-52. The two diaries of the French and Indian War period were more in the nature of official reports than private diaries, and, during the term of Washington's command on the western frontier, after the Braddock expedition, his letter-book was kept in such form as to obviate the need of a diary record so far as his official activities were concerned. The inference is strong that no personal diaries were kept during the years 1755-59.

The consecutive diary record began apparently in 1760, but the entries were not regularly made until 1767, which year marks the beginning of the full daily record. From February 1, 1767, the record was faithfully kept until Washington's election as Commander-in-Chief of the Continental Armies in June, 1775. War activities compelled a discontinuance of the practice, and the attempt to resume, made in 1781, failed for the same reason. Washington returned to Mount Vernon the end of December, 1783, and did not, apparently, recommence his diary until his western journey in the fall of 1784. On his return from this trip there seems to have been another lapse and the regular diary record was not resumed until January 1, 1785. From this date the entries are regular until the Presidential duties interfered. There are now, however, so many gaps during the years 1789-99, gaps for which diaries more than likely existed, that it is difficult to conjecture the real situation. It seems probable, however, that diaries were regularly kept from 1789 to the end of Washington's life; though some months of the year 1797 have no entries,

PREFATORY NOTE

due probably, to the fatigue and strain of public life, then but recently closed.

The note-books in which the earlier diaries were kept lacked uniformity as to size and shape; the earliest known diary, that of the journey across the Blue Ridge Mountains in 1748, was recorded in a small, parchment-bound pocket-memorandum book, in which were entered also miscellaneous practice forms of letters, survey notes, and random juvenile rhyme. The year 1760 is recorded, in part, in a home-made memorandum book of unusual shape; but, beginning with the year 1759, the record was kept in the interleaved and uniform edition of the Virginia Almanack, published in Williamsburg, by Purdie & Dixon. The diary, discontinued in June, 1775, was renewed in 1781 in the blank memorandum books then in use in the Orderly Office at the headquarters of the Continental Army. These books somewhat resemble in shape, size, and binding the standard stenographer's note-book of to-day; the pages, however, were unruled. The size of this page pleased Washington better, apparently, than the smaller page of the old Virginia Almanack, for, after the war, he continued to use these books for his diaries until 1795, when he again had recourse to the interleaved almanacs of the day.

There is abundant evidence that Washington's method in keeping his diary was to make rough memoranda of the day's occurrences upon loose slips, or improvised note-books of a few leaves stitched together, and, later, sometimes some days later to copy out these rough notes into a permanent diary record. In this recopying the phraseology was frequently altered to what he thought better diction, or smoother reading; but oftentimes words were inadvertently omitted in the transcribing and transposition of dates and events occasionally occurs. Two of these rough preliminary records have survived (Numbers 34 and 44), but in the latter case the final clean copy is missing.

PREFATORY NOTE

Ruled paper was unknown in America during Washington's lifetime and his invariable regularity of line spacing was obtained by means of a heavily ruled guide-sheet (which he made himself) beneath his writing-paper; he followed this plan in copying out his diaries. This practice gives us evidence of his failing vision, as the diaries, after the Presidency, show frequent examples of his pen running off the outer edge of the small diary page, and whole words, written on the ruled guide-sheet beneath, escaped notice of not being on the diary page itself.

The value of the diaries as an historical record is such that it is greatly to be regretted that any of them should be missing, or unavailable. As a whole they constitute a most remarkable record of a remarkable man. The matter-of-fact, unemotional recital carries with it a personal flavor impossible to resist and its biographical value is inestimable. There are touches in the diaries that go far toward correcting the misapprehension, generally existent, that Washington lacked a sense of humor; while the homely record of day after day at Mount Vernon gives us a clearer concept of the real George Washington than can be obtained through the numerous Lives of him that have been published. It may be noted also that in the matter of spelling, a point so often dwelt upon, Washington's weakness lay in the simple words; oddly enough the difficult ones are usually spelled correctly.

A word is necessary as to the plan of this publication. The spelling and capitalization of the original is closely followed; superior letters which occur by the thousands have been brought down to the line; the ampersand, also of frequent occurrence, has been spelled out, except where it occurs in the monthly headings and in the *et cetera*, which Washington nearly always wrote as '&ca.' The

PREFATORY NOTE

monthly headings and daily dates have been made uniform, and the disconcerting hyphen, which Washington used so frequently, has been changed to comma, or semicolon as the sense demanded. All other punctuation has been scrupulously followed.

Throughout his entire life Washington kept a record of the weather as an aid, apparently, to his agricultural activities; with the daily record of several years readily available he possessed a rough-and-ready weather indicator of some value to his farm plans. This weather record he kept as a separate and distinct series of entries from the other daily diary memoranda and its exclusion from this publication has been a matter of long consideration. It was finally decided to omit it, as much because Washington himself considered it a thing apart from his regular diary record, as because it has no practical value to that record. Enough of it is included in the early years to show its general character, and where, toward the close of Washington's life, he combined this meteorological record with his regular diary entries, it is included in this publication whenever it seems to have bearing on or connection with the daily events, or its exclusion would cause an awkward reading.

In making acknowledgments and recording thanks for assistance of all kinds received during the progress of the work, the editor is happy to acknowledge, first of all, his obligations to the Mount Vernon Ladies' Association of the Union for their effectual coöperation and generous encouragement at all times. The Nation is already their debtor for their intelligent care and perfect management of Mount Vernon. Maintaining the home of Washington in such manner that the original atmosphere of the place is retained, almost as vividly as in Washington's lifetime,

is a triumph impossible of accomplishment except through high ideals and sympathetic understanding. There is now to be added to this the obligation created by the patriotic publication of these diaries; for, as it is impossible to realize George Washington without visiting Mount Vernon, so it is impossible to understand him without reading his diaries.

To Dr. Worthington C. Ford I am indebted, as always, for valuable aid and advice. Dr. Ford made a beginning in editing the diaries, but an unfortunate and unexpected illness forced him to relinquish the task. Such notes as he had prepared were generously turned over to me and are justly credited to him. The editor, better perhaps than any one, is fully aware that it is regrettable that the entire work could not have been carried to completion under his scholarly direction.

To Mr. Fairfax Harrison, of Virginia, I am doubly indebted for much valuable information respecting the people and places of the tide-water country and back counties of Virginia. He gave freely of his valuable time and great store of information, solely in the interests of historical accuracy, and the notes on Virginia and the Virginians are the richer for his extensive knowledge.

To Mr. John Gribbel, of Pennsylvania, sincere thanks are due for his prompt generosity in permitting the diary for 1797, which he owns, to be copied for this publication, and to Dr. J. Hall Pleasants, of Maryland, I am indebted for valuable information regarding Maryland and the Marylanders.

Most of the notes credited to the late Dr. Joseph Meridith Toner have been revised and rewritten in the light of the more exact information now available, and some explanation respecting these seems fitting. Dr. Toner was a Washington enthusiast who freely spent himself and his substance in accumulating data concerning the First

PREFATORY NOTE

American. His accumulations are large in quantity and include a vast number of transcripts, the originals of some of which are no longer available, if indeed they exist at all. Dr. Toner died before the present-day methods of historical criticism had been well developed, and he was, in addition, handicapped at times by a too worshipful enthusiasm; but no serious study of the available Washingtoniana can be made without the investigator becoming deeply impressed with the tremendous and valuable work done by Dr. Toner. The editor takes pleasure in paying tribute to the Doctor's industry and freely acknowledges his indebtedness for much lightening of drudgery and for many time-saving clues to be found in the indefatigable efforts of this sincere admirer of George Washington.

To acknowledge the cordial coöperation of Houghton Mifflin Company, throughout the entire course of publication, is but simple justice. Their appreciation of the character of the work has been complete, their expert craftsmanship ungrudging and tireless, and their critical editorial watchfulness has been highly helpful at all times.

Last, but by no means least, the editor takes pleasure in voicing for the Mount Vernon Ladies' Association of the Union and for himself, the acknowledgments due to Dr. Herbert Putnam, the Librarian of Congress, for the unrestricted use of the diaries in his custody, without which courtesy this publication would not have been possible.

NOTE ON THE ILLUSTRATIONS

THE frontispiece to Volume I is reproduced by permission from the original Stuart portrait in the possession of Mr. Walter Jennings, of New York. (See note to the diary entry for January 7, 1797.) The frontispieces to Volumes II and III are facsimiles of pages from the original diaries in the Library of Congress. The 1768 page shows the form of the diary record in the interleaved Virginia Almanacs, while the 1785 page illustrates the appearance of the diaries recorded in the blank note-books. The facsimile of the Youthful Survey of Hell Hole in Volume I is also from the original in the Library of Congress. The print of Mount Vernon reproduced for the frontispiece of Volume IV is from the engraving issued in 1798 by the erratic London publisher John Stockdale, and is one of the very few pictures of Mount Vernon published during Washington's lifetime.

THE COMPLETE LIST OF THE DIARIES OF GEORGE WASHINGTON

This being the first publication of a complete list of the diaries, they are numbered, arbitrarily, for convenience in reference. This consecutive numbering is applied to the diaries that exist, the diaries known to have existed, and the diaries reasonably conjectured to have existed all traces of which have now disappeared. These last are included on the chance and with the hope that some, at least, have survived and will come to light in the future.

1748

March 11—April 13

‘A Journal of my Journey over the Mountains began
Fryday the 11th of March 1747/8’

Original in Library of Congress

This is Washington's earliest known diary: it records his adventures on his first journey beyond the Blue Ridge at the age of sixteen.

Lord Fairfax had arrived in Virginia in the spring of 1747 with the intention of spending the remainder of his life on his Northern Neck proprietary. He went to stay with his cousin and agent, William Fairfax, at Belvoir on the Potomac, the neck of land lying immediately below Mount Vernon. Lawrence Washington had married William Fairfax's eldest daughter, Ann, in August, 1743, and in the resulting intimacy between Belvoir and Mount Vernon, Lawrence's young brother George was included. It was thus that George met Lord Fairfax at Belvoir in the summer of 1747 and was promised employment as a surveyor on the manors Lord Fairfax was planning to lay out beyond the Blue Ridge. It was on that duty that Washington set out in the spring of 1748.

His companion was George William Fairfax, eldest son of the Belvoir household, who was eight years Washington's senior and with whom thenceforth Washington maintained an uninterrupted friendship for nearly forty years. George William Fairfax had come to Virginia in the spring of 1746, after being educated in England, to take over his father's agency of the Northern Neck. Before setting out on this journey to initiate the young Washington into wilderness life, he had himself had a considerable experience in such adventures: he was one of the party engaged in the arduous survey of the Northern Neck back line in the summer of 1746, when he had carved his initials in a tree at the head spring of Potomac; and throughout 1747 had been engaged in similar work in the Shenandoah Valley. It was only a few months after this journey with Washington that he was married, at Williamsburg, while serving in the Assembly as the representative of that frontier community (Frederick), whither we here see him again bound.

The now meaningless survey measurements (*see* entry for April 4) are purposely omitted, but every name mentioned in the diary itself is included in the text given herewith.

MARCH

Fryday March 11th 1747/8.¹ Began my Journey in Company with George Fairfax,² Esqr., we travell'd this day 40 Miles³ to Mr. George Neavels⁴ in Prince William County

¹ Double date is due to the fact that England did not adopt the Gregorian Calendar, as did the Continent of Europe (Russia excepted) until 1752. The proper year date for this diary is 1748.

² George William Fairfax (1725-87) was the eldest son of the Honorable William Fairfax and his second wife Sarah Walker. He was born at Providence, Bahama Islands, January 2, 1724/5, and took up his permanent residence in America in 1746, at his father's estate, 'Belvoir.' Lord Fairfax, whom George William had visited at Leeds Castle, was favorably impressed, and to this visit seems to have been due the later appointment as proprietary agent for Lord Fairfax in America. George William became a Burgess for Frederick County, 1748/9, and married Sarah, eldest daughter of Colonel Wilson Cary, in December, 1748, who became, on the death of her father-in-law's third wife, Deborah Clarke, the mistress of 'Belvoir.' George William was again a burgess in 1752-55 for Frederick and in 1756-58 for Fairfax. He was colonel of Frederick militia in 1755-56 and seems to have been Collector of Royal Customs for the Eastern Shore before he was appointed to that office for the South Potomac. He became a member of the Council in 1767 and served as such until 1773, when he was called to England to look after the affairs of Towlston Manor, in Yorkshire, to which he had succeeded under a family entail. He inherited 'Belvoir' from his father and Shannondale, in Frederick and Piedmont, in Loudoun; but his affairs in England prevented his return to Virginia until the Revolutionary War cut off all opportunity of maintaining his Virginia relations. He was sympathetic toward the Colonial cause, and there are grounds for belief that, had he been in America at the time, he would have aligned himself with the Colonists. He died at Bath, England, April 3, 1787.

³ They had set out from Belvoir, crossed the Occoquan Ferry, and struck into the old road leading from the head of Quantico to the Prince William Court-House of the day on Cedar Run; whence they pushed on west to George Neavil's Ordinary.

ordinary at the junction of two important north and south interior highways, namely: (1) that which Washington was about to follow leading north from the falls of the Rappahannock at Falmouth, through the thoroughfare of Cedar Run to Ashby's Gap of the Blue Ridge, and (2) the older Indian trail originally known as the 'Shenandoah Hunting Path' and later as the 'Carolina road,' which led south from Williams Gap of the Blue Ridge, skirted the Bull Run Mountain on the east, and at Neavil's turned west to cross the Rappahannock at Norman's Ford above the great fork. Both these roads had been avenues by which, during the fifteen years prior to Washington's journey, pioneers had migrated from the tidewater to settle the upper Piedmont. Until 1759 this tavern was in Prince William. It was mentioned by Archdeacon Burnaby as well as by other literary eighteenth-century travelers in Virginia; and still stands in the village of Auburn in Fauquier County.

(For an elucidation of the confusion, by some of the commentators on this diary, of Neavil's and West's Ordinaries, and authority for the location of both, based upon local records, see *Fauquier Historical Society Bulletin*, 1, 66.)

¹ James Genn was, in 1748, the county surveyor of Prince William County, who lived on the Falmouth road some distance south of Neavil's. It was the rendezvous with him which determined the route via Neavil's. Genn was an experienced wilderness surveyor. In 1746 he had been engaged in the work of running the Northern Neck back line from the head spring of Conway (Rapidan) in the Blue Ridge to the head spring of Potomac in the Alleghanies, and in 1747 he had surveyed Lord Fairfax's South Branch and Greenway Court Manors. It was to subdivide the former into lots to be leased to tenants that the present expedition was on foot.

² They followed the trail through what became Fauquier, over the route subsequently adopted for the 'Winchester road,' and crossed the Blue Ridge at Ashby's Bent. This route was subsequently laid down by Dalrymple on the 1755 edition of the Fry and Jefferson map.

³ This was Captain John Ashby, who kept the original Shenandoah Ferry where the Winchester road still crosses that river. He was the eldest son of Thomas Ashby, for whom 'Ashby's Bent' of the Blue Ridge was named.

⁴ This was the future 'Greenway Court,' where Lord Fairfax was to establish his residence a year after Washington's journey. It had been laid out as a 'quarter' in the summer of 1747.

Monday 14th We sent our Baggage to Capt. Hites ¹ (near Frederick Town ²) went ourselves down ye River about 16 Miles to Capt. Isaac Penningtons (the Land exceeding Rich and Fertile all ye. way produces abundance of Grain Hemp Tobacco &ca.) in order to lay of some Lands on Cates Marsh and Long Marsh ³

Tuesday 15th We set out early with Intent to Run round ye sd. Land but being taken in a Rain and it Increasing very fast obliged us to return it clearing about one oClock and our time being too Precious to Loose we a second time ventur'd out and Worked hard till Night and then return'd to Penningtons we got our Supper and was lighted into a Room and I not being so good a Woodsman as ye rest of my Company striped myself very orderly and went in to ye Bed as they called it when to my Surprize I found it to be nothing but a Little Straw-Matted together without Sheets or any thing else but only one thread Bear blanket with double its Weight of Vermin such as Lice Fleas &c I was glad to get up (as soon as y. Light was carried from us) I put on my Cloths and Lay as my Companions. Had we not been very tired I am sure we should not have slep'd much that night I made a Promise not to Sleep so from that time forward chusing rather to sleep in y. open Air before a fire as will appear hereafter.

March y. 15th. Survey'd for George Fairfax Esqr. a Tract of Land lying on Cates Marsh and Long Marsh.⁴

¹ Jost Hite disputed the claim of Lord Fairfax to certain lands in the so-called Northern Neck of Virginia.

² 'Blazing' was the practice of marking trees with knife or hatchet by stripping off a long section of bark, ten inches or more, in length. A 'blazed trail' was a way through the woods, where no trace of path existed, the traveler finding his way from one scarred tree to another. Properly 'blazed,' the next cut ahead can be seen from each tree. An experienced woodsman can follow a 'blazed trail' made several years before. Wednesday ye. 13th of April 1748 Mr Fairfax got safe home and I myself safe to my Brothers ³ which concludes my Journal.

¹ Crossing the Blue Ridge at Williams (now Snickers') Gap, they followed the Shenandoah Hunting Path south to West's Ordinary at the head of the Bull Run Mountain, thence they struck southeast by a forest trail which ultimately became the Colchester road, and so reached Belvoir and Mount Vernon. As his diaries show, Washington was to pursue that same route many times in the future.

² West's Ordinary, kept successively for three generations by William, Charles, and Thomas West, and after the Revolution known as 'Lacy's,' is a landmark still standing at the head of the Bull Run Mountain near the modern village of Aldie, in what was Fairfax County in 1748, but ten years later became Loudoun. It is indicated by name on the 1755 edition of the Fry and Jefferson map, as well as on Thomas Jefferson's map of 1787. Many other travelers beside Washington have recorded their visits there.

[The Journey to Barbadoes]

Original in Library of Congress.

The Journal kept by Washington in 1751-52 when he escorted his half-brother, Lawrence, to the island of Barbadoes is the worst mutilated of all the surviving originals. Whole pages are missing, and, in many cases, what remains of a page is a mere sliver or scrap containing but a few letters or parts of words only. What follows is that portion that makes sense and conveys information. Dots . . . show the omitted portions which in every case are nothing but unrelated words or parts of sentences.

Major Lawrence Washington traveled to Barbadoes thinking it would benefit his health. He suffered from tuberculosis. George and Lawrence set out in a vessel from the Potomac River, September 28, 1751, and landed at Bridgetown, Barbadoes, November 3d. The first unmutated entry in this Journal is on what is now page 10 of the original manuscript, the entry for Friday, October 4, 1751.

¹ At this point an entire leaf is missing from the original. This missing leaf seems to have existed in 1834 as Jared Sparks, in his *Writings of George Washington* (Boston: 1834, vol. 2, p. 424), gives an entry for November 4th. The facts, as Sparks states them, are, doubtless, correct; but his well-known method of taking liberties with Washington's composition, of which his copy of the entry for November 5th and following days furnishes a good example, operates against the inclusion of the November 4th entry in this text. The portion included within brackets [] is taken from Toner's copy of the diary. It should be stated, however, that, according to the Sparks copy, George and Lawrence were welcomed by Major Gedney Clarke, who invited the brothers to breakfast and dinner. They went, George 'with some reluctance, as the smallpox was in his [Clarke's] family.' George afterwards visited the Clarkes several times and finally contracted the disease. It left the usual facial blemishes upon him, but the exact extent to which the marks were noticeable does not seem to be a matter of positive record.

² Dr. William Hilary. (Toner.)

³ This must have been Gedney Clarke (1711-c. 1764) of the Salem family (see Fitzgilbert Waters in *Essex Institute Historical Collections*, 1879, xvi, 24), who at the time of the Journal of 1751-52 was living as a merchant in Barbadoes, where he was a member of the Council. He was a brother of William Fairfax's third wife, and had been in Virginia on visits, certainly in 1741 and perhaps in 1743, when Lawrence Washington was married. It would be most natural that Lawrence should have carried a letter of introduction to him, if indeed they had not already met in Virginia.

[The Journey to the French Commandant.]

The original rough notes made by Washington on his journey, during the winter of 1753-54, to the French Commandant at Fort Le Bœuf (near what is now the town of Waterford, Pennsylvania), have not survived.

On reaching Williamsburg, Washington was surprised by a request from Governor Dinwiddie to write up his notes into a connected narrative that could be presented to the Virginia Legislature. This had to be done in a single day, and Washington was still further surprised when he learned that this hastily written narrative had been handed to the public printer for publication. This first printed edition (Williamsburg, 1754) is now so rare that but two copies are known to exist. The diary here printed is from that found in Worthington C. Ford's *Writings of Washington*, I, 11 *et seq.*, which was taken from an English reprint (London, 1754) of the Williamsburg copy. I have availed myself of Mr. Ford's careful comparison and critical labor.

The original Williamsburg edition was by William Hunter, 1754. The English edition was by T. Jeffery. A copy of each of these is in the Newberry Library, Chicago. The italics are those of the Williamsburg edition.

ADVERTISEMENT

As it was thought advisable by his Honour the Governor to have the following account of my Proceedings to and from the FRENCH on OHIO, committed to Print; I think I can do no less than apologize, in some Measure, for the numberless Imperfections of it.

There intervened but one Day between my Arrival in WILLIAMSBURG, and the Time for the Council's Meeting, for me to prepare and transcribe, from the rough Minutes I had taken of my Travels, this Journal; the writing of which only was sufficient to employ me closely the whole Time, consequently admitted of no Leisure to consult of a new and proper Form to offer it in, or to correct or amend the Diction of the old: Neither was I apprised, nor did in the least conceive, when I wrote this for his Honour's Perusal, that it ever would be published, or even have more than a cursory Reading; till I was informed, at the Meeting of the Present General Assembly, that it was already in the Press.

*There is nothing can recommend it to the Public, but this. Those Things which came under the Notice of my own Observation, I have been explicit and just in a Recital of: — Those which I have gathered from Report, I have been particularly cautious not to augment, but collected the Opinions of the several Intelligencers, and selected from the whole, the most probable and consistent Account.*¹

G. WASHINGTON.

¹ This 'Advertisement' was prepared by Washington after he learned that his narrative was being printed. It was published at the beginning of the original Williamsburg edition and is here given for its explanatory value.

[1753]

[OCTOBER]

Wednesday, 31st. I was commissioned and appointed by the Honourable *Robert Dinwiddie*, Esq; Governor, &c., of *Virginia*, to visit and deliver a letter ¹ to the Commandant of the *French* forces on the *Ohio*, and set out on the intended Journey the same day: The next I arrived at *Fredericksburg*, and engaged Mr. *Jacob Vanbraam*,² to be my *French* interpreter; and proceeded with him to *Alexandria*, where we provided Necessaries. From thence we went to *Winchester*, and got Baggage, Horses, &c; and from thence we pursued the new Road to *Wills-Creek*,³ where we arrived the 14th of *November*.

Here I engaged Mr. *Gist* ⁴ to pilot us and also hired four others as Servitors, *Barnaby Currin* and *John Mac-Quire*, Indian Traders, *Henry Steward*, and *William Jenkins*; and in company with those persons left the Inhabitants ⁵ the Day following.

¹ Under instructions from Lord Holderness, dated August 23, 1753, Governor Dinwiddie wrote, October 31, 1753, that 'The Lands upon the River Ohio in the Western Parts of the Colony of Virginia are so notoriously known to be the Property of the Crown of Great Britain, that it is a Matter of equal Concern and Surprize to me to hear that a Body of French Forces are erecting Fortresses and making Settlements upon that River within his Majesty's Dominions.' He therefore sent Major George Washington, one of the Adjutant-Generals of the Dominion to complain of this and to request the French to withdraw. The letter is printed in full in the Sabin reprint (H. O. Houghton & Co., New York, 1865) of the Jeffery edition of 1754, London.

² Van Braam was a Hollander. He taught Washington fencing and, later, was with him at Fort Necessity.

³ Up the Shenandoah Valley. Will's Creek is now Cumberland, Maryland.

⁴ Christopher Gist, Indian trader, employed by the Ohio Company. He is one of the best-known of the famous American frontiersmen.

⁵ Left the inhabitants; that is, passed beyond the settlements.

The excessive Rains and vast Quantity of Snow which had fallen, prevented our reaching Mr. *Frazier's*,¹ an Indian Trader, at the Mouth of *Turtle Creek*, on *Monongahela*, till Thursday, the 22d. We were informed here, that Expresses had been sent a few Days before to the Traders down the River, to acquaint them with the *French General's* death,² and the Return of the major Part of the *French Army* into Winter Quarters.

The Waters were quite impassible without swimming our Horses; which obliged us to get the Loan of a Canoe from *Frazier*, and to send *Barnaby Currin* and *Henry Steward* down the *Monongahela*, with our Baggage, to meet us at the Forks of *Ohio*, about 10 miles, there to cross the *Alighany*.

As I got down before the Canoe I spent some time in viewing the Rivers, and the Land in the Fork; which I think extremely well situated for a Fort, as it has the absolute Command of both Rivers. The Land at the Point is 20 or 25 Feet above the common Surface of the Water; and a considerable Bottome of flat, well-timbered land all around it, very convenient for Building: The Rivers are each a Quarter of a Mile, or more, across, and run here very near at right Angles: *Alighany* bearing N.E. and *Monongahela* S.E. The former of these two is a very rapid and swift running Water, the other deep and still, without any perceptible Fall.

About two Miles from this, on the South East Side of the river, at the Place where the Ohio Company intended to erect a Fort, lives *Shingiss*,³ king of the *Delawares*: We

¹ John Frazier.

² The French General was Pierre Paul, Sieur de Marin, who had been sent by Duquesne to erect a fort at the junction of the Allegheny and Monongahela Rivers; this afterwards became the site of Fort Duquesne and, later, Fort Pitt and Pittsburgh.

³ Shingiss, at first a friend of the English, but later joined the French. The *Pennsylvania Gazette* of January 15, 1756, carried an advertised reward of \$350 for his head. (*Ford*.)

called upon him, to invite him to Council at the *Loggs-Town*.¹

As I had taken a good deal of Notice Yesterday of the Situation at the *Forks*, my Curiosity led me to examine this more particularly, and I think it greatly inferior, either for Defence or Advantages; especially the latter: For a Fort at the *Forks* would be equally well situated on the *Ohio*, and have the entire Command of the *Monongahela*; which runs up to our Settlements and is extremely well designed for Water Carriage, as it is of a deep still Nature. Besides a fort at the *Fork* might be built at a much less Expence, than at the other Place.

Nature has well contrived this lower Place, for Water Defence; but the Hill whereon it must stand being about a Quarter of a Mile in Length, and then descending gradually on the Land Side, will render it difficult and very expensive, to make a sufficient Fortification there — The whole Flat upon the Hill must be taken in, the Side next the Descent made extremely high, or else the Hill itself cut away: otherwise the Enemy may raise Batteries within that Distance without being exposed to a single Shot from the Fort.

Shingiss attended us to the *Loggs-Town*, where we arrived between Sun-setting and Dark, the 25th Day after I left *Williamsburg*. We travelled over some extreme good and bad Land, to get to this Place. —

As soon as I came into Town, I went to *Monakatoocha*² (as the Half-king³ was out at his hunting-Cabbin on

little *Beaver-Creek*, about 15 Miles off) and informed him by *John Davison*, my *Indian* Interpreter, that I was sent a Messenger to the *French* General; and was ordered to call upon the Sachems of the *Six Nations*, to acquaint them with it — I gave him a String of Wampum,¹ and a twist of Tobacco, and desired him to send for the Half-King; which he promised to do by a runner in the Morning, and for other Sachems, — I invited him and the other great Men present to my Tent, where they stayed about an Hour and return'd.

According to the best observations I could make, Mr. *Gist's* new Settlement² (which we pass'd by) bears about W.N.W. 70 Miles from *Wills-Creek*; *Shanapins*,³ or the Forks N. by W. or N.N.W. about 50 Miles from that; and from thence to the *Loggs-Town*, the course is nearly West about 18 or 20 Miles: so that the whole Distance, as we went and computed it, is at least 135 or 140 Miles from our back Inhabitants.

25th. Came to Town four or ten *Frenchmen* who had deserted from a Company at the *Kuskuskas*,⁴ which lies at the Mouth of this River. I got the following Account from them. They were sent from *New-Orleans* with 100 men, and 8 Canoe-Loads of Provisions to this Place; where they expected to have met the same Number of Men, from the Forts on this Side Lake *Erie*, to convey them and the Stores up, who were not arrived so they ran-off.

I enquired into the Situation of the *French*, on the *Mississippi*, their Number, and what Forts they had

built. They inform'd me, That there were four small Forts between *New Orleans* and the *Black-Islands*¹ garrison'd with about 30 or 40 Men, and a few small Pieces in each. That at *New Orleans*, which is near the Mouth of the *Mississippi*, there are 35 Companies of 40 Men each, with a pretty strong Fort mounting 8 Carriage Guns; and at the *Black-Islands* there are several Companies, and a Fort with 6 Guns. The *Black-Islands* are about 130 Leagues above the Mouth of the *Ohio*, which is about 350 above *New-Orleans*. They also acquainted me that there was a small palisado'd Fort on the *Ohio*, at the Mouth of the *Obaish*² about 60 Leagues from the *Mississippi*. The *Obaish* heads near the West end of Lake *Erie*, and affords the communication between the French on *Mississippi* and those on the Lakes. These Deserters came up from the lower *Shanoah*³ Town with one *Brown*, and *Indian* Trader, and were going to *Philadelphia*.

About 3 o'Clock this Evening the Half-King came to Town. I went up and invited him with *Davison*, privately to my Tent; and desir'd him to relate some of the Particulars of his Journey to the French *Commandant*,⁴ and Reception there: Also to give me an account of the Ways and Distance. He told me that the nearest and levellest Way was now impassable, by Reason of many large mirey Savannas; that we must be obliged to go by *Venango*,⁵ and should not get to the near Fort under 5 or 6 Nights Sleep, good Travelling. When he went to the Fort, he said he was received in a very stern Manner by the late Commander; who ask'd him very abruptly, what he had come about,

¹ Black Islands. Van Braam evidently failed to understand the word 'Illinois' and thought *Isles Noires* were the words. There are no Black Islands, and Illinois was then an unknown word in the English Colonies. (*J. G. Shea.*)

and to declare his Business: Which he said he did in the following Speech:

Fathers, I am come to tell you your own Speeches; what your own Mouths have declared. Fathers, You in former Days, set a silver Bason before us, wherein there was the Leg of a Beaver, and desir'd all the Nations to come and eat of it; to eat in Peace and Plenty, and not to be churlish to one another: and that if any such Person should be found to be a Disturber, I here lay down by the edge of the Dish a Rod, which you must scourge them with; and if I your Father, should get Foolish in my old Days, I desire you may use it upon me as well as others.

Now Fathers, it is you who are the Disturbers in this Land, by coming and building your Towns; and taking it away unknown to us, and by Force.

Fathers, We kindled a fire a long Time ago, at a Place called *Montreal*, where we desired you to stay, and not to come and intrude upon our Land. I now desire you may dispatch to that Place for be it known to you, Fathers, that this is our Land, and not yours.

Fathers, I desire you may hear me in Civilness; if not, we must handle that Rod which was laid down for the Use of the abstreperous. If you had come in a peaceable Manner, like our Brothers, the *English*, we should not have been against your trading with us, as they do; BUT TO COME, FATHERS, AND BUILD HOUSES UPON OUR LAND, AND TO TAKE IT BY FORCE, IS WHAT WE CANNOT SUBMIT TO.

Fathers, Both you and the *English* are white, we live in a country between; therefore the Land belongs to neither one nor t'other; But the Great Being above allow'd it to be a place of Residence for us; so Fathers, I desire you to withdraw, as I have done our Brothers the *English*: For I will keep you at Arm's length. I lay this down as a Trial for both, to see which will have the greatest Regard for it, and that Side we will stand by and make equal shares with us. Our Brothers, the *English*, have heard this, and I come now to tell it to you; for I am not afraid to discharge you off this Land.

This he said was the substance of what he spoke to the General, who made this Reply:

Now my child, I have heard your Speech: you spoke first, but it is my time to speak now. Where is my Wampum that you took away, with the Marks of towns in it?¹ This wampum I do not know, which you have discharged me off the Land with; but you need not put yourself to the Trouble of speaking, for I will not hear you. I am not afraid of Flies, or Musquitos, for *Indians* are such as those. I tell you, down the River I will go, and will build upon it, according to my command. If the River was block'd up, I have forces sufficient to burst it open and tread under my Feet all that Stand in Opposition, together with their Alliances; for my Force is as the Sand upon the Sea Shore; therefore, here is your Wampum, I fling it at you. Child, you talk foolish; you say this Land belongs to you, but there is not the Black of my Nail yours. I saw that Land sooner than you did, before the Shannoahs and you were at War: *Lead*² was the Man who went down and took Possession of that River: It is my Land, and I will have it, let who will stand-up for, or say-against it. I'll buy and sell with the *English* (*mockingly*). If People will be rul'd by me, they may expect kindness, but not else.

The Half-King told me he enquired of the General after two *Englishmen* who were made Prisoners, and received this Answer:

Child, you think it a very great Hardship that I made Prisoners of those two People at *Venango*. Don't concern yourself with it: We took and carried them to *Canada*, to get Intelligence of what the *English* were doing in *Virginia*.

He informed me that they had built two Forts, one on Lake *Erie*,³ and another on *French-Creek*⁴ near a small Lake about 15 Miles asunder and a large Waggon Road between; They are both built after the same Model, but different in Size; that on the Lake the largest. He gave me a Plan of them, of his own drawing.

¹ See entry for December 6th, *post*.

² This may refer to La Salle, or Celeron, and the lead plates which were said to have been buried at various places through the Ohio country claiming the territory for the King of France.

³ Fort Presque Isle, now Erie, Pennsylvania.

⁴ Fort Le Bœuf, Washington's destination, near what is now Waterford, Pennsylvania. The lake was called Lake Le Bœuf.

The *Indians* enquired very particularly after their Brothers in *Carolina* Goal.¹ They also asked what sort of Boy it was who was taken from the *South-Branch*;² for they were told by some Indians, that a Party of *French Indians* had carried a white Boy by the *Kuskuska* Town, towards the Lakes.

26th. We met in Council at the *Long-House*,³ about 9 o'clock, where I spoke to them as follows:

Brothers, I have called you together in Council by order of your Brother, the Governor of *Virginia*, to acquaint you, that I am sent, with all possible Dispatch, to visit, and deliver a Letter to the *French* Commandant, of very great Importance to your Brothers, the *English*; and I dare say, to you their Friends and Allies.

I was desired, Brothers, by your Brother the Governor, to call upon you, the Sachems of the Nations, to inform you of it, and to ask your Advice and Assistance to proceed to the nearest and best Road to the *French*. You see, Brothers, I have gotten thus far on my Journey.

His Honour likewise desired me to apply to you for some of your young Men, to conduct and provide Provisions for us on our Way; and be a safe-guard against those *French Indians* who have taken up the hatchet against us. I have spoken thus particularly to you Brothers, because his Honour our Governor treats you as good Friends and Allies; and holds you in great Esteem. To confirm what I have said, I give you this String of Wampum.

After they had considered for some Time on the above Discourse, the Half-King got up and spoke:

¹ Young Shawnese Indians from Pennsylvania who went to South Carolina on the war-path and were arrested by the State authorities as disturbers of the peace. There is reference to this in Governor Hamilton's letter to Governor Glen, printed in the *Pennsylvania Archives*, v, 696.

² South Branch of the Potomac?

³ Long-House was the usual name of the largest cabin or wigwam of the Six Nations. It was the council-house and there appear to have been several so called in different parts of the country of the Six Nations.

Now, my Brothers, in regard to what my Brother the Governor has desired me, I return you this answer. I rely upon you as a Brother ought to do, as you say we are Brothers and one People: We shall put Heart in Hand and speak to our Fathers the *French* concerning the Speech they have made to me; and you may depend that we will endeavor to be your Guard.

Brother, as you have asked my Advice, I hope you will be ruled by it and stay till I can provide a Company to go with you. The *French* Speech-Belt is not here, I have it to go for to my hunting Cabbin: Likewise the People whom I have ordered in, are not yet come, nor cannot till the third Night from this: till which Time, brother, I must beg you to stay.

I intend to send a Guard of *Mingo's*,¹ *Shannoahs* and *Delawares*, that our Brothers may see the Love and Loyalty we bear them.

As I had Orders to make all possible Dispatch, and waiting here was very contrary to my Inclinations, I thanked him in the most suitable Manner I could; and told him, that my Business required the greatest Expedition, and would not admit of that Delay. He was not well pleased that I should offer to go before the Time he had appointed, and told me, that he could not consent to our going without a Guard, for fear some Accident should befall us and draw a Reflection upon him. Besides, says he, this is a Matter of no small Moment, and must not be entered into without due Consideration: For now I intend to deliver up the *French*-Speech-Belt, and make the *Shanoahs* and *Delawares* do the same. And accordingly he gave orders to King *Shingiss*, who was present, to attend on *Wednesday* Night with the Wampum; and two Men of their Nation to be in Readiness to set-out with us next Morning. As I found it was impossible to get-off without affronting them in the most egregious Manner, I consented to stay.

I gave them back a String of Wampum which I met with

at Mr. *Frazier's*, and which they had sent with a Speech to his Honour the Governor, to inform him, that three Nations of *French Indians*, viz: *Chippoways*, *Ottoways*, and *Orundacks*¹ had taken up the Hatchet against the *English*; and desired them to repeat it over again: But this they postponed doing till they met in full Council with the *Shannoahs* and *Delaware* Chiefs.

27th. Runners were now dispatched very early for the *Shannoah* Chiefs. The Half-King set out himself to fetch the *French-Speech-Belt* from his hunting Cabbin.

28th. He returned this Evening, and came with *Monokatoocha*, and two other Sachems to my Tent, and begged (as they had complied with his Honour the Governor's Request, in providing Men, &c.) to know on what Business we were going to the *French*? this was a Question I all along expected, and had provided as satisfactory Answers to, as I could; which allayed their Curiosity a little.

Monokatoocha informed me, that an *Indian* from *Venango* brought News, a few Days ago, that the French had called all the *Mingo's*, *Delawares*, &c. together at that Place; and told them, that they intended to have been down the River this Fall, but the Waters were growing cold, and the Winter advancing, which obliged them to go into Quarters: But that they might assuredly expect them in the Spring, with a far greater Number; and desired that they might be quite passive, and not to intermeddle, unless they had a Mind to draw all their Force upon them: For that they expected to fight the *English* three Years (as they supposed there would be some Attempts made to stop them), in which Time they should conquer: But that if they should prove equally Strong, they and the *English* would join to cut them all off, and divide the Land be-

tween them: That though they had lost their General, and some few of their Soldiers, yet there were Men enough to reinforce them, and make them masters of the *Ohio*.

This Speech, he said, was delivered to them by one Captain *Joncaire*,¹ their Interpreter in Chief, living at *Venango*, and a Man of Note in the Army.

29th. The Half-King and *Monokatoocha* came very early, and begged me to stay one Day more: For notwithstanding they had used all the Diligence in their Power, the *Shanoah* Chiefs had not brought the Wampum they ordered, but would certainly be in To-night; if not, they would delay me no longer, but would send it after us as soon as they arrived. — When I found them so pressing in their Request, and knew that returning of Wampum was the Abolishing of Agreements; and giving this up, was shaking-off all Dependance upon the *French*, I consented to stay, as I believed an Offence offered at this Crisis, might be attended with greater ill Consequence, than another Day's Delay. They also informed me, that Shingiss could not get-in his Men; and was prevented from coming himself by his Wife's Sickness (I believe, by Fear of the *French*); but that the Wampum of that Nation was lodged with *Kustaloga*² one of their Chiefs at *Venango*.

In the Evening late they came again and acquainted me that the *Shannoahs* were not yet arrived, but that it should not retard the Prosecution of our Journey. He delivered in my Hearing, the Speeches that were to be made to the *French* by *Jeskakake*, one of their old Chiefs, which was giving-up the Belt the late Commandant had asked for, and repeating near the same Speech he himself had done before.

¹ Chabert de Joncaire, a half-breed, son of Sieur de Joncaire and a Seneca squaw. (*Ford*.)

² Kustaloga, or Custaloga, a Delaware chief.

He also delivered a String of Wampum to this Chief, which was sent by King *Shingiss*, to be given to *Kustaloga*, with orders to repair to the *French* and deliver up the Wampum. He likewise gave a very large String of black and white Wampum, which was to be sent immediately to the Six Nations, if the *French* refused to quit the Land at this Warning; which was the third and last Time, and was the Right of this *Jeskakake* to deliver.

30th. Last Night the great Men assembled to their Council-House, to consult further about this Journey, and who were to go: The Result of which was, that only three of their Chiefs, with one of their best Hunters, should be our Convoy. The Reason they gave for not sending more, after what had been proposed at Council the 26th, was, that a greater Number might give the *French* Suspicions of some bad Design, and cause them to be treated rudely: But I rather think they could not get their Hunters in.

We set out about 9 o-Clock with the Half-King, *Jeskakake*, *White Thunder*, and the Hunter; and travelled on the Road to *Venango*,¹ where we arrived the 4th of *December*, without any Thing remarkable happening but a continued Series of bad Weather.

[DECEMBER]

[4th.] This is an old *Indian* Town,² situated at the Mouth of *French* Creek on *Ohio*; and lies near N. about 60 Miles from the *Loggs*-Town, but more than 70 the way we were obliged to go.

We found the *French* Colours hoisted at a House from which they had driven Mr. *John Frazier*, an *English*

Subject. I immediately repaired to it, to know where the Commander resided. There were three Officers, one of whom, Capt. *Joncaire*, informed me, that he had the command of the *Ohio*; But that there was a General Officer at the near Fort, where he advised me to apply for an Answer. He invited us to sup with them; and treated us with the greatest Complaisance. The Wine, as they dosed themselves pretty plentifully with it, soon banished the Restraint which at first appeared in their Conversation; and gave a licence to the Tongues to reveal their Sentiments more freely. They told me, That it was their absolute Design to take Possession of the *Ohio*, and by G— they would do it; For that altho' they were sensible the *English* could raise two Men for their one; yet they knew their Motions were too slow and dilatory to prevent any Undertaking of theirs. They pretend to have an undoubted Right to the River, from a Discovery made by one *La Salle*¹ 60 Years ago; and the Rise of this Expedition is, to prevent our settling on the River or Waters of it, as they had heard of some Families moving-out in Order thereto. From the best Intelligence I could get, there have been 1500 Men on their Side *Ontario* Lake: But upon the Death of the General all were recalled to about 6 or 700, who were left to garrison four Forts, 150 or thereabouts in each. The first of them is on *French-Creek* near a small Lake, about 60 Miles from *Venango*, near N.N.W. the next lies on Lake *Erie*, where the greater Part of their Stores are kept, about 15 Miles from the other. From this it is 120 Miles to the carrying Place at the Fall of Lake *Erie*² where there is a small Fort;³ which they lodge their Goods at, in bringing them from *Montreal*, the Place whence all their Stores come from. The next Fort lies

about 20 Miles from this, on *Ontario* Lake.¹ Between this Fort and *Montreal* there are three others, the first² of which is near opposite to the *English* Fort *Oswego*. From the Fort on Lake *Erie* to *Montreal* is about 600 Miles, which they say requires no more, of good Weather, than four Weeks Voyage, if they go in Barks or large Vessels, so that they may cross the Lake: But if they come in Canoes it will require 5 or 6 Weeks, for they are obliged to keep under the Shore.

5th. Rain'd excessively all Day, which prevented our Travelling. Capt. *Foncaire* sent for the Half-King, as he had but just heard that he came with me: He affected to be much concerned that I did not make free to bring them in before. I excused it in the best Manner I was capable, and told him, I did not think their company agreeable, as I had heard him say a good deal in Dispraise of *Indians* in general. But another Motive prevented me from bringing them into his Company: I knew he was Interpreter, and a Person of great great Influence among the *Indians*, and had lately used all possible Means to draw them over to their Interest; therefore I was desirous of giving no Opportunity that could be avoided.

When they came in, there was great Pleasure expressed at seeing them. He wondered how they could be so near without coming to visit him; made several trifling Presents; and applied Liquor so fast, that they were soon rendered incapable of the Business they came about,³ notwithstanding the Caution which was given.

¹ Fort Toronto. (*Ford*.)

² Fort Frontenac. (*Ford*.)

³ Gist's diary, printed in the *Massachusetts Historical Society Collections*, Series 3, v, 103-04, does not mention the drinking, but says that the Indians were in Council this day (December 5), and that the Delaware chief declined to accede to King Shingiss's order to deliver up the French Speech Belt. 'But the Half-King did deliver his belt, as he had determined.' Washington places this action of the Half-King on December 6th.

6th. The Half-King came to my Tent, quite sober, and insisted very much that I should stay and hear what he had to say to the *French*. I fain would have prevented him speaking any Thing till he came to the Commandant, but could not prevail. He told me that at this Place a Council Fire was kindled, where all their Business with these People was to be transacted; and that the Management of the *Indian* affairs was left solely to Monsieur *Joncaire*. As I was desirous of knowing the Issue of this, I agreed to stay; But sent our Horses a little way up *French* Creek to raft over and encamp; which I knew would make it near Night.

About 10 o'Clock they met in Council. The King spoke much the same as he had before done to the General; and offered the *French* Speech-Belt which had before been demanded, with the Marks of four Towns on it, which Monsieur *Joncaire* refused to receive; but desired him to carry it to the Fort to the Commander.

7th. Monsieur *La Force*, Commissary of the *French* Stores, and three other Soldiers came over to accompany us up. We found it extremely difficult to get the *Indians* off To-day, as every Stratagem had been used to prevent their going-up with me. I had last Night, left John *Davison* (the *Indian* Interpreter whom I brought with me from Town), and strictly charged him not to be out of their Company, as I could not get them over to my Tent; for they had some Business with *Kustaloga*, and chiefly to know the Reason why he did not deliver up the *French* Belt which he had in Keeping; But I was obliged to send Mr. *Gist* over To-day to fetch them; which he did with great Persuasion.¹

¹ Gist says, under date of December 5th: 'Joncaire did everything he could to prevail on our Indians to stay behind us, and I took all care to have them along with us.'

At 11 o'Clock we set out for the Fort, and were prevented from arriving there till the 11th by excessive Rains, Snows, and bad Travelling, through many Mires and Swamps.¹ These we were obliged to pass, to avoid crossing the Creek, which was impossible, either by fording or rafting, the Water was so high and rapid.

We passed over much good Land since we left *Venango*, and through several extensive and very rich Meadows; one of which I believe was near four Miles in Length, and considerably wide in some Places.

12th. I prepared early to wait upon the Commander,² and was received and conducted to him by the second Officer in Command. I acquainted him with my Business, and offered my Commission and Letter: Both of which he desired me to keep till the arrival of Monsieur *Riparti* Captain, at the next Fort, who was sent for and expected every Hour.

This Commander is a Knight of the military Order of St. *Lewis*, and named *Legardeur de St. Pierre*. He is an elderly Gentleman, and has much the air of a Soldier. He was sent over to take the Command immediately upon the Death of the late General, and arrived here about seven Days before me.

At 1 o'Clock the Gentleman who was sent for arrived, when I offered the Letter, &c, again; which they received, and adjourned into a private Apartment for the Captain

¹ Gist's diary is more definite as to the route traveled. Friday, December 7th, the party was at Sugar Creek, five miles from Venango. December 8th, traveled twenty-five miles and reached *Cussewago*, an old Indian town. December 9th, traveled to the 'big crossing' of French Creek, but concluded, on account of the high water, not to cross, but to travel up the west side of it. December 10th, traveled eight miles and crossed a deep creek. December 11th, traveled fifteen miles and reached Fort le Bœuf.

² The Commandant was Le Gardeur de St. Pierre, of the family of Le Gardeur de Repentigny and a younger member of the family, apparently a M. de Repentigny, was the person meant by Washington's reference to Captain Riparti. (*Shea*.)

to translate, who understood a little *English*. After he had done it, the Commander desired I would walk-in, and bring my Interpreter to peruse and correct it; which I did.

13th. The chief Officers retired, to hold a Council of War; which gave me an Opportunity of taking the Dimensions of the Fort, and making what Observations I could.

It is situated on the South or West Fork of *French* Creek, near the Water; and is almost surrounded by the Creek, and a small Branch of it which forms a Kind of Island. Four Houses compose the Sides. The Bastions are made of Piles driven into the Ground, standing more than 12 Feet above it, and sharp at Top: With Port-Holes cut for Cannon, and Loop-Holes for the small Arms to fire through. There are eight 6 *lb*. Pieces mounted, in each Bastion; and one Piece of four Pound before the Gate. In the Bastions are a Guard-House, Chapel, Doctor's Lodging, and the Commander's private Store: Round which are laid Plat-Forms for the Cannon and Men to stand on. There are several Barracks without the Fort, for the Soldiers Dwelling; covered, some with Bark and some with Boards, made chiefly of Loggs. There are also several other Houses, such as Stables, Smiths Shop, &c.

I could get no certain account of the Number of Men here: But according to the best Judgment I could form, there are an Hundred exclusive of Officers, of which there are many. I also gave Orders to the People who were with me, to take an exact Account of the Canoes which were hauled-up to convey their Forces down in the Spring. This they did, and told 50 of Birch Bark, and 170 of Pine; besides many others which were blocked-out, in Readiness to make.

14th. As the Snow increased very fast, and our Horses daily became weaker, I sent them off unloaded; under the

Care of *Barnaby Currin*, and two others, to make all convenient Dispatch to *Venango*, and there await our Arrival, if there was a prospect of the Rivers freezing: If not, then to continue down to *Shanapin's* Town, at the Forks of the *Ohio*, and there to wait till we came to cross the *Aliganey*; intending myself to go down by Water, as I had the Offer of a Canoe or two.

As I found many Plots concerted to retard the *Indians* Business, and prevent their returning with me; I endeavor'd all that lay in my Power to frustrate their Schemes, and to hurry them on to execute their intended Design. They accordingly pressed for Admittance this Evening, which at Length was granted them, privately, with the Commander and one or two other officers. The Half-King told me, that he offer'd the Wampum to the Commander, who evaded taking it, and made many fair Promises of Love and Friendship; said he wanted to live in Peace, and trade amicably with them, as a Proof of which he would send some Goods down immediately to the *Logg's-Town* for them. But I rather think the Design of that is, to bring away all our straggling Traders they meet with, as I privately understood they intended to carry an Officer, &c, with them. And what rather confirms this Opinion, I was enquiring of the Commander, by what Authority he had made Prisoners of several of our *English* Subjects. He told me that the Country belong'd to them; that no *Englishman* had a Right to trade upon those Waters; and that he had Orders to make every Person Prisoner who attempted it on the *Ohio*, or the Waters of it.

I enquir'd of Capt. *Riparti* about the Boy who was carried by this Place, as it was done while the Command devolved on him, between the Death of the late General, and the Arrival of the present. He acknowledged, that a Boy had been carried past; and that the *Indians* had two or three white Men's Scalps (I was told by some of the

Indians at *Venango* Eight) but pretended to have forgotten the name of the Place the Boy came from, and all the Particular Facts, though he had question'd him for some Hours, as they were carrying him past. I likewise enquired what they had done with *John Trotter* and *James MacClocklan*,¹ two *Pensylvania* Traders, whom they had taken, with all their Goods. They told me, that they had been sent to *Canada*, but were now returned Home.

This Evening I received an Answer to his Honour the Governor's Letter from the Commandant.²

15th. The Commandant ordered a plentiful Store of Liquor, Provision, &c., to be put on Board our Canoe; and appeared to be extremely complaisant, though he was exerting every Artifice which he could invent to set our own *Indians* at Variance with us, to prevent their going 'till after our Departure. Presents, Rewards, and every Thing which could be suggested by him or his Officers. — I can't say that ever in my Life I suffered so much Anxiety as I did in this Affair: I saw that every Stratagem which the most fruitful Brain could invent, was practised, to win the Half-King to their Interest; and that leaving him here was giving them the Opportunity they aimed at. — I went to the Half-King and press'd him in the strongest Terms to go: He told me the Commandant would not discharge him 'till the Morning. I then went to the Commandant, and desired him to do their Business; and com-

² St. Pierre's reply to Dinwiddie was dated December 15, 1753, at the Fort on River Boeuf. He regretted, he said, that Washington would not go to Canada with his message, which would be duly forwarded to the Marquis Duquesne. 'As to the Summons you send to me to retire,' wrote St. Pierre, 'I do not think myself obliged to obey it; whatever are your Instructions, I am here by Virtue of the Order of my General; and I intreat you, Sir, not to doubt one Moment, but I am determined to conform myself to them, with all the Exactness and Resolution which can be expected from the best Officer.'

plain'd of ill Treatment: For keeping them, as they were Part of my Company, was detaining me. This he promised not to do, but to forward my Journey as much as he could. He protested he did not keep them, but was ignorant of the Cause of their Stay; though I soon found it out: — He had promised them a present of Guns, &c, if they would wait 'till the morning.

As I was very much press'd by the *Indians*, to wait this Day for them, I consented, on a Promise, That nothing should hinder them in the Morning.

16th. The *French* were not slack in their Inventions to keep the *Indians* this Day also: But as they were obligated, according to Promise, to give the Present, they then endeavored to try the Power of Liquor; which I doubt not would have prevailed at any other Time than this; But I urged and insisted with the King so closely upon his Word, that he refrained, and set off with us as he had engaged.¹

We had a tedious and very fatiguing Passage down the Creek. Several Times we were like to have been staved against Rocks; and many Times were obliged all Hands to get out and remain in the Water Half an Hour or more, getting over the Shoals. At one Place the Ice had lodged and made it impassable by Water; therefore we were obliged to carry our Canoe across a Neck of Land, a quarter of a Mile over. We did not reach *Venango*, till the 22d, where we met with our Horses.

This Creek is extremely crooked, I dare say the Distance between the Fort and *Venango* can't be less than 130 Miles, to follow the Meanders.

23d. When I got Things ready to set-off, I sent for the Half-King, to know whether he intended to go with us or

¹ The *Indians* went first in one canoe and Washington, Gist, and the others followed in the second.

by Water. He told me that *White-Thunder* had hurt himself much, and was sick and unable to walk; therefore he was obliged to carry him down in a Canoe. As I found he intended to stay here a Day or two, and knew that Monsieur *Foncaire* would employ every Scheme¹ to set him against the English as he had before done; I told him I hoped he would guard against his Flattery, and let no fine Speeches influence him in their Favour. He desired I might not be concerned, for he knew the French too well, for anything to engage him in their Behalf; and that though he could not go down with us, he yet would endeavour to meet us at the Forks with *Joseph Campbell*, to deliver a Speech for me to carry to his Honour the Governor. He told me he would order the young Hunter to attend us, and get Provision, &c. if wanted.

Our Horses were now so weak and feeble, and the Baggage so heavy (as we were obliged to provide all the Necessaries which the Journey would require) that we doubted much their performing it; therefore myself and others (except the Drivers, who were obliged to ride) gave up our Horses for Packs, to assist along with the Baggage. I put myself in an *Indian* walking Dress,² and continued with them three Days, till I found there was no Probability of their getting home in any reasonable Time. The Horses grew less able to travel every Day; the Cold increased very fast; and the Roads were becoming much worse by a deep Snow, continually freezing: Therefore as I was uneasy to

¹ The French had followed Washington for the purpose of continuing their efforts to influence his Indians. Four canoes started, but one was sunk; the others went past the white men's canoe in an effort to reach the Indians who were on ahead, and Gist tells, in his diary, under date of December 22d, that 'we had the pleasure of seeing the French overset, and the brandy and wine floating in the creek.' Washington's canoe 'run by them, and left them to shift for themselves.'

get back, to make Report of my Proceedings to his Honour, the Governor, I determined to prosecute my Journey the nearest Way through the Woods, on Foot.

Accordingly I left Mr. *Vanbraam* in Charge of our Baggage: with Money and Directions to Provide Necessaries from Place to Place for themselves and Horses, and to make the most convenient Dispatch in Travelling.

I took my necessary Papers; pulled off my Cloaths; and tied myself up in a Match Coat.¹ Then with Gun in Hand and Pack at my Back, in which were my Papers and Provisions, I set-out with Mr. *Gist*,² fitted in the same Manner, on *Wednesday* the 26th.

The Day following, just after we had passed a Place called the *Murdering-Town*³ (where we intended to quit the Path, and steer across the Country for *Shannapins* Town) we fell in with a Party of *French* Indians, who had lain in Wait for us. One of them fired at Mr. *Gist* or me, not 15 steps off, but fortunately missed. We took this fellow into Custody, and kept him till about 9 o'clock at Night; Then let him go, and walked all the remaining Part of the Night without making any Stop; that we might get the start, so far, as to be out of the Reach of their Pursuit the next Day, since we were well assured they would follow our Tract as soon as it was light. The

² *Gist* says (December 26th) that 'I was unwilling he (Washington) should undertake such a travel, who had never been used to walking before this time.' They traveled eighteen miles the first day.

³ *Murdering Town* on the southeastern fork of *Beaver Creek*. *Gist's* diary mentions meeting but one Indian; his account of the attempted shooting places the occurrence much later in the day and under different circumstances than those so casually mentioned by Washington. (See *Gist's* diary as previously cited, under entry of December 27th.) Washington and *Gist* reached *Piney Creek* at the end of their all-night march. The hurry with which Washington prepared his narrative measurably explains his relation of an incident that had no bearing upon his mission.

next Day we continued travelling till quite dark, and got to the River¹ about two Miles above *Shannapins*. We expected to have found the River frozen, but it was not, only about 50 Yards from each Shore; The Ice I suppose had broken up above, for it was driving in vast Quantities.

There was no way for getting over but on a Raft; Which we set about with but one poor Hatchet, and finished just after Sun-setting. This was a whole Day's Work. Then set off; But before we were Half Way over, we were jammed in the Ice, in such a Manner that we expected every Moment our Raft to sink, and ourselves to perish. I put-out my setting Pole to try to stop the Raft, that the Ice might pass by; when the Rapidity of the Stream threw it with so much Violence against the Pole, that it jerked me out into ten Feet Water: but I fortunately saved myself by catching hold of one of the Raft Logs. Notwithstanding all our efforts we could not get the Raft to either Shore; but were obliged, as we were near an Island to quit our Raft and make to it.

The Cold was so extremely severe, that Mr. *Gist* had all his Fingers, and some of his Toes frozen; but the water was shut up so hard, that we found no Difficulty in getting-off the Island, on the Ice, in the Morning, and went to Mr. *Frazier's*. We met here about 20 Warriors who were going to the *Southward* to War, but coming to a Place upon the Head of the great *Kunnaway*,² where they found seven People killed and scalped (all but one Woman with very light Hair) they turned about and ran back for fear the Inhabitants should rise and take them as the Authors of the Murder. They report that the Bodies were lying about the House, and some of them much torn and eaten by Hogs. By the Marks which were left, they say they were *French* Indians of the *Ottaway* Nation, &c., who did it.

As we intended to take Horses here, and it required

some Time to find them, I went-up about three Miles to the Mouth of *Yaughyaughane* to visit Queen *Aliquippa*,¹ who had expressed great Concern that we passed her in going to the Fort. I made her a Present of a Matchcoat and a Bottle of Rum; which latter was thought much the best Present of the Two.

¹ Queen Aliquippa, of the Delaware Nation. She lived on the site of the present McKeesport, Pennsylvania.

[JANUARY]

Tuesday the 1st Day of January, we left Mr. *Frazier's* House, and arrived at Mr. *Gist's* at *Monongahela* the 2d, where I bought a Horse, Saddle, etc: the 6th we met 17 Horses loaded with Materials and Stores, for a Fort at the Forks of *Ohio*, and the Day after some Families going out to settle: This Day we arrived at *Wills* Creek, after as fatiguing a Journey as it is possible to conceive, rendered so by excessive bad Weather. From the first Day of December to the 15th, there was but one Day on which it did not rain or snow incessantly: and throughout the whole Journey we met with nothing but one continued Series of cold wet Weather, which occasioned very uncomfortable Lodgings: especially after we had quitted our Tent, which was some Screen from the Inclemency of it.

On the 11th I got to Belvoir: where I stopped one Day to take necessary Rest; and then set out and arrived in Williamsburg the 16th; when I waited upon his Honour the Governor with the Letter I had brought from the French Commandant; and to give an Account of the Success of my Proceedings. This I beg leave to do by offering the foregoing Narrative as it contains the most remarkable Occurrences which happened in my Journey.

I hope what has been said will be sufficient to make your Honour satisfied with my Conduct; for that was my Aim in undertaking the Journey, and chief Study throughout the Prosecution of it.

[Journal of the march toward the Ohio.]

The original notes and memoranda made by Washington during his march toward the Ohio were captured by the French at Fort Necessity. Just how these papers were left behind is not clear. The hurry and haste of the evacuation is the only explanation. They were sent to France and were at once translated into French. Little more than a year later the French Government published this translation as an argument in justifying France's seizure of the Ohio region. This publication appeared in Paris in 1756 as a part of a *Mémoire Contenant le Précis des Faits, avec leurs pièces justificatives pour servir de réponse aux observations envoyées par les ministres d'Angleterre dans les cours de l'Europe*, p. 147 et seq. This French publication was quickly translated back into English and republished in London. It was brought to America and an edition issued by Hugh Gaine, in New York in 1757. Toner states (*Journal of Colonel George Washington, 1754*. Albany, 1893, p. 131) that, after seeing this Gaine edition, Washington wrote, March 27, 1757: 'In regard to the Journal, I can only observe in general, that I kept no regular one during the Expedition; rough notes of occurrences I certainly took, and find them as certainly and strangely metamorphosed, some parts left out which I remember were entered and many things added that never were thought of, the names of men and things egregiously miscalled, and the whole of what I saw Englished is very incorrect and nonsensical.' Sparks (*Writings of Washington*, II, 463) quotes this same letter at greater length; but I have been unable to locate it in the Washington Papers in the Library of Congress; its characterization of the French publication is, however, so just that the preceding extract is given.

The following text is a combination of Toner's version and that given by Worthington C. Ford in his *Writings of Washington*. As this diary is, at best, a translation and every English version a retranslation, freedom in form seemed justifiable and the crudities of spelling in the early English texts were not followed; they could not, by any reasoning, be ascribed to Washington.

The footnotes of the French version, being merely argumentative comment, designed to call attention to supposed proofs that the English were at fault for encroaching on French territory and for commencing hostilities, are omitted here.

MARCH

On the 31st *March* I received from his Honour¹ a Lieutenant Colonel's Commission of the Virginia Regiment whereof Joshua Fry,² Esquire, was Colonel, dated the 15th, with Orders³ to take the troops, which were at that time quartered at Alexandria under my command, and to march with them towards the Ohio, there to aid Captain Trent⁴ in building Forts, and in defending the possessions of his Majesty against the attempts and hostilities of the French.

APRIL

April the 2nd. Every Thing being ready, we began our march⁵ according to our Orders, the 2nd of April, with

¹ Lieutenant-Governor Robert Dinwiddie.

² Colonel Fry's instructions were to march to and erect a fort on the Monongahela. He was injured by an accidental fall from his horse and died May 31, 1754.

³ Washington's instructions (*Dinwiddie Papers*, edited by Brock, I, 59) were to proceed, with a detachment of one hundred men (the total force that marched was slightly over one hundred and fifty), to the forks of the Ohio and finish building the fort which Dinwiddie thought had already been begun by the Ohio Company.

⁴ Captain William Trent, of Pennsylvania. He had been employed by Governor Dinwiddie in the Indian service.

⁵ The diary does not give the route of this march which ended disastrously in the retreat and surrender at Fort Necessity, July 3, 1754; but from Washington's expense account it seems reasonably sure that he traveled from Alexandria, through Loudoun County and crossed the Blue Ridge at Vestal's Gap. On the west side of the Ridge he crossed the Shenandoah at John Vestal's Ferry and from thence marched to Winchester; from Winchester to Edwards's Fort, on the South Branch of the Great Cacapehon Creek; from Edwards's to Pearsal's on the South Branch of the Potomac; crossing that river at Cresap's, and thence up to Will's Creek. Washington made up his expense account from recollection, 'having lost all my papers in ye Engagement,' *i.e.*, Fort Necessity. The French publication of the journal omitted everything from April 3d to the 19th of that month. (See text, *post*.)

two Companies of Foot, commanded by Captain Peter Hog¹ and Lieutenant Jacob Van Braam,² five subalterns, two Sergeants, six Corporals, one Drummer, and one hundred and twenty Soldiers, one Surgeon,³ one Swedish Gentleman,⁴ who was a volunteer, two wagons guarded by one Lieutenant, Sergeant, Corporal and twenty-five Soldiers. We left Alexandria on Tuesday Noon and pitched our tents about four miles from Cameron⁵ having marched six miles.

[The French version of this journal here states that from the 3d of April to the 19th Washington's original contained only the march of the troops and that they were joined by a detachment under Captain Stevens.⁶]

April 19th. Met an Express who had letters from Captain Trent, at the Ohio, demanding a reenforcement with all possible speed, as he hourly expected a body of eight hundred French. I tarried at Job Pearsall's⁷ for the arrival of the troops, where they came the next day. When I received the above Express, I dispatched a messenger to Colonel Fry, to give him notice of it.

¹ Captain Peter Hog; later was appointed by Lord Dunmore Deputy Attorney-General of Dunmore, now Shenandoah County, Virginia.

² The same Van Braam who had accompanied Washington to Fort le Bœuf the preceding year. The responsibility for allowing Washington to sign the capitulation at Fort Necessity, which was written in French, while it contained the acknowledgment of having *murdered* Jumonville, is placed upon Van Braam. His carelessness in translating allowed the phrase, '*dans l'assassinat du Sieur de Jumonville*,' to pass unnoticed.

³ Dr. James Craik.

⁴ Carolus Gustavus de Spiltdorff; he later became a lieutenant in the Virginia Regiment and was killed at Monongahela. (*Toner*.)

⁵ Probably named in honor of Lord Fairfax, who was Baron Cameron. (See note to entry for August 5, 1768, *post*.)

⁶ Captain Adam Stephen, of Berkeley County; he later became lieutenant-colonel and was present at Braddock's defeat. He was a major-general in the Revolutionary War; but was dismissed the service for drunkenness.

⁷ Job Pearsall, on the South Branch of the Potomac. In all Washington received three companies of reënforcements. (*Toner*.)

April 20th. Came down to Colonel Cresap's ¹ to dispose the Detachment, and on my Route, had notice that the Fort was taken by the French. Two days later that news was confirmed by Mr. Ward,² the Ensign of Captain Trent, who had been obliged to surrender to a Body of more than one thousand French, under the Command of Captain Contrecoeur,³ who came from Venango (in French, Presque Isle), with sixty bateaux, and three hundred canoes, and eighteen pieces of artillery which were set up against the Fort, Contrecoeur afterwards sent him a Summons to withdraw. Mr. Ward also informed me that the Indians remained always steadfastly attached to our Interest. He brought with him two young Indians of the Mingoes Nation, that they might have the Satisfaction of seeing that we were marching with troops to their Succour. He also delivered me the following speech which the Half King ⁴ sent to me.

Fort on Ohio, April 18th, 1754. A speech from the Half-King, Scrunevattha, and belt of wampum, for the Governors of Virginia and Pennsylvania. My Brethren the English. The Bearer will let you understand in what manner the French have treated us. We waited a long time, thinking they would come

¹ Colonel Thomas Cresap, of Maryland, nearly opposite the mouth of the South Branch of the Potomac, member of the Ohio Company and one of the best-known and famous frontiersmen.

² Ensign Edward Ward.

³ Captain Contrecoeur took possession of the unfinished English works April 17, 1754. He completed them and named the fort Duquesne. By his orders Ensign Jumonville set off on his fatal reconnoissance, June 23d. Contrecoeur was in command of Fort Duquesne at the time of Braddock's defeat.

⁴ Tenacharison, chief of the Senecas, or Mingoes. He was called Half-King because he was not entirely independent, but owed certain allegiance to the Five Nations. He was with Washington at the Jumonville skirmish. He was an old man and seems to have died in October of this year, 1754. His speech is printed, in the French version of Washington's diary, after that of Scrunevattha's, but the text makes it evident that it should be placed before that address, and, indeed, there is no warrant for including Scrunevattha's speech at all. In all probability it was found among the papers captured at Fort Necessity and was included by the French in their publication, *Précis des Faits*, etc., in furtherance of the argument that the English were to blame for the outbreak of hostilities.

and attack us; we now see how they have a mind to use us. We are now ready to fall upon them, waiting only for your assistance. Have good courage and come as soon as possible; you will find us as ready to fight them as you are yourselves. We have sent these two young men to see if you are ready to come, and if so they are to return to us to let us know where you are, that we may come and join you. We should be glad if the troops belonging to the two Provinces could meet together at the Fort which is in the way. If you do not come to our assistance now, we are entirely undone, and I think we shall never meet together again. I speak with a heart full of grief.

A Belt of Wampum

The Half-King directed to me the following speech.

I am ready, if you think it proper, to go to both the Governors, with these two young men, for I have now no more dependence on those who have been gone so long, without returning or sending any message.

A Belt of Wampum

April 23rd. A COUNCIL OF WAR held at Will's Creek ¹ in order to consult upon what must be done on account of the news brought by Mr. Ward. The News brought by Ensign Ward having been examined into, as also the summons ² sent by Captain Contrecoeur Commander of the French troops and the speeches of the Half-king, and of the other chiefs of the Six Nations; it appears that Mr. Ward, was forced to surrender the said Fort, the 17th of this instant to the French, who were above one thousand strong and had eighteen artillery pieces, some of which were nine pounders and also that the detachment of the Virginia regiment, amounting to one hundred and fifty men commanded by Colonel Washington had orders to reenforce the

¹ Fort Cumberland, Maryland.

² The text of the summons is printed in the French version, *Précis des Faits*, and also in Gaine's English translation (New York, 1757), p. 65, as a collateral document.

Company of Captain Trent, and that the aforesaid Garrison consisted only of thirty-three effective men. It was thought a thing impracticable to march towards the Fort without sufficient strength; however, being strongly invited by the Indians, and particularly by the speeches of the Half-King, the president gave his opinion that it would be proper to advance, as far as Red-Stone Creek ¹ on Monongahela, about thirty-seven miles on this side of the fort, and there to erect a fortification, clearing a road broad enough to pass with all our artillery and our baggage, and there to await for fresh Orders. This opinion was adopted for the following reasons: 1st. That the mouth of Red-Stone is the first convenient place on the River Monongahela. 2nd. The stores are already built at that place for the provisions of the Company,² wherein our Ammunition may be laid up, our great guns may be also sent by water whenever we shall think it convenient to attack the Fort. 3rd. We may easily (having all these conveniences) preserve our men from the ill consequences of inaction, and encourage the Indians our Allies, to remain in our interests. Whereupon I sent Mr. Ward to the Governor,³ with one of the young Indians and an Interpreter: I thought proper also to acquaint the Governors of Maryland and Pennsylvania ⁴ with the news; and I sent away the other Indian to the Half-King, with the speeches enclosed in the following letter.

To the Honorable Robert Dinwiddie Esq. Governor &c. Sir,

¹ Red Stone Creek, a tributary of the Monongahela River. The Ohio Company had already erected a storehouse here which was variously known as Red Stone Fort, Hangard, and Burd's Fort. It is now Brownsville, Pennsylvania.

² The Ohio Company, chartered in 1749 to establish settlements of whites west of the Alleghany Mountains and to develop and manage trade with the Ohio Indians. The stockholders included Governor Dinwiddie and the most important men of Virginia.

³ Governor Robert Dinwiddie.

⁴ Governor Horatio Sharp, of Maryland, and Governor James Hamilton, of Pennsylvania.

Mr Ward, an Ensign of Captain Trent's Company is this day come from the Forks of Monongahela and has brought the sorrowful news of the surrender of the Fort on the 17th of this instant; having been summoned by Captain Contrecoeur to surrender to a body of French troops who were a thousand strong who came from Venango with eighteen pieces of cannon, sixty bateaux and three hundred canoes, they permitted all our men to retire, and take with them their working tools out of the Fort, which was done the same day. Upon receiving this news I called a council of war, in order to consult what was best to be done in such circumstances; and have sent you a particular account of everything agreed upon at the said council by the same express, that you may know things yet more particularly. Mr. Ward is the bearer of the summons¹ as also of the speech from the Half-King, which I also enclose with the wampum; he is in company with one of those Indians mentioned in the speech, who had been sent to see our forces, and to know what time they might expect us; the other Indian I have sent back to the Half-King with a message.² I hope you will feel the absolute necessity of sending us our forces as soon as they are raised, as also a sufficient number of canoes, and other boats that can carry burden; send us also some mortar-pieces, that we may be in a condition to attack the French with equal forces. And as we are informed that the Indians of the Six Nations, and the Ottawas are coming down Scioto-Creek in order to join the French who are to meet at the Ohio; so I think it would not be amiss to invite the Cherokees, Catawbias and the Chickasaws to come to our assistance; as I have received intelligence, that there is no good understanding between them and the Indians of the Six Nations aforesaid, should you do so, it would be well to have them brought here in good order, that they might be persuaded to make a peace with the Six Nations; otherwise if they should meet at the Ohio, it might cause great disorder and turn out to our disadvantage. We find the great advantage there is in water carriage, wherefore, I would remind you to provide a number of boats for the purpose. This day, arrived the men belonging to

¹ This summons of Captain Contrecoeur to Captain Trent to withdraw is dated April 16, 1754, is printed in *Mémoire Contenant le Précis des Faits*, and also in the Gaine translation (New York, 1757). Toner gives it in his *Journal of Colonel George Washington, 1754* (Albany, 1893), p. 34.

Captain Trent, who by your Orders had been enlisted as Militia Troops; the officers having imprudently promised them two shillings per day, they now refuse to serve for less pay. Ward shall receive your Orders on that head.

The following is my answer to the speech of the Half-King.

To the Half-King, and the Chiefs and Warriors of the Shawanese and Loups our Friends and Brethren. I received your speech by Brother Bucks who came to us with the two young men six days after their departure from you. We return you our greatest thanks and our hearts burn with love and affection towards you, in gratitude for your steadfast attachment to us, as also your friendly speech, and your wise counsels. This young man will inform you where he found a small part of our army, making towards you, clearing the roads for a great number of our warriors, who are ready to follow us, with our great guns, our ammunition and provisions. I cannot delay letting you know the thoughts of our hearts, I send you back this young man, with this speech, to acquaint you therewith, and the other young man I have sent to the Governor of Virginia, to deliver him your speech and your wampum, and to be an eyewitness of the preparations we are making, to come in all haste to assist you, whose interest is as dear to us as our lives. We know the character of the treacherous French, and our conduct shall plainly show you how much we have it at heart. I shall not be satisfied if I do not see you before all our forces are met together at the Fort which is in our way, wherefore, I desire with the greatest earnestness, that you and Scrune-yattha, or one of you, should come as soon as possible to meet us on the road, and to assist us in council. To assure you of the sincerity of my speech, and of the good will we bear you, I present you with these strings of wampum, that you may remember how much I am your Friend and Brother. Signed Go Washington Conotocarious¹

¹ This was the name the Indians had given to Washington. It had been bestowed by them on his great-grandfather, John Washington, the emigrant, who had been, as George was, a colonel of Virginia militia. It meant 'Devourer of Villages.' George fell heir to the title when he first became known to the Indians.

April 28th. There came to us some pieces of Cannon, which were taken up to the mouth of Patterson's River.

[The French version of this journal here states that from the 29th of April to the 11th of May Washington's original contained only the movements of the troops and matters of little consequence.]

MAY

May 11th. Detached a party of twenty-five men commanded by Captain Stevens and Ensign La Peronie¹ with orders to go to Mr. Gist's² to enquire where La Force³ and his party were; and in case they were in the neighborhood to cease pursuing and retire to a safe place. I also ordered them to examine closely all the woods round about, and if they should find any Frenchman apart from the rest, to seize him and bring him to us, that we might learn what we could from him. We were exceedingly desirous to know, if there was any possibility of sending down anything by water, as also to find out some convenient place about the mouth of Red-Stone Creek where we could build a fort, they were to salute the Half-King, and send him back under a small guard, as also to enquire what were the views of the French, what they had done, and what they intended to do and to collect everything, which could give us the least intelligence.

May 12th. Marched away, and, went on rising ground where we halted to dry ourselves, for we had been obliged

This is the same Gist who accompanied Washington to Fort le Bœuf in 1753-54.

to ford a rapid stream, where our shortest men had water up to their arm-pits. There came an express to us with letters, acquainting us, that Col. Fry, with a detachment of one hundred men and upwards, was at Winchester and was to set out in a few days to join us; as also, that Col. Innes ¹ was marching with three hundred and fifty men, raised in Carolina, that it was expected Maryland would raise two hundred men, and that Pennsylvania had raised ten thousand pounds (equal to about Fifty-two thousand five hundred livres ²) to pay the soldiers raised in other Colonies, as that Province could furnish no recruits, as also that Governor Sherley ³ had sent 600 men to harrass the French in Canada, I hope that will give them some work to do, and will moderate their zeal in sending so many men to the Ohio as they have done.

May 16th Met two traders, who told us they fled for fear of the French as parties of them were often seen towards Mr Gist's. These traders are of opinion, as well as many others, that it is not possible to clear a road for loaded wagons to go from hence to Red-Stone Creek.

May 17th. This evening Mr. Ward arrived with the young Indian from Williamsburg and delivered me a letter, wherein the Governor is so good as to approve of my proceedings, but is much displeased with Captain Trent, and has ordered him to be tried for leaving his men at the Ohio: The Governor also informs me that Capt. Mackay,⁴

with an independent company of one hundred men, besides the officers, had arrived, and that we might expect them daily; and that the men from New-York would join us within ten days. This night came also two Indians from the Ohio who left the French fort five days ago; They relate that the French forces are all employed in building their Fort, that it is already breast-high, and of the thickness of twelve feet, and filled up with earth, stone, &c. They have cut down and burnt up all the trees which were about it and sown grain in their place. The Indians believe they were only 600 in number, although they say themselves they are 800: They expect a greater number in a few days, which may amount to 1,600. Then they say they can defy the English.

May 18th. The waters being yet very high, hindered me from sending forward my men and my baggage wherefore I determined to set myself in a position of defence against any immediate attack from the Enemy, and went down to observe the river.

May 19th. I despatched the young Indian who had returned with Mr Ward, to the Half-King, with the following speech.

To the Half-King, &c. My Brethren, It gives me great pleasure, to learn that you are marching to assist me with your counsels; be of good courage, my brethren, and march vigorously towards your brethren the English; for fresh forces will soon join them, who will protect you against your treacherous enemy the French. I must send My friends to you, that they acquaint you with an agreeable speech which the Governor of Virginia has sent to you: He is very sorry for the bad usage you have received. The swollen streams do not permit us to come to you quickly,

their rank. There was some slight friction of command as a result. MacKaye was present at Fort Necessity and his name was appended to the articles of capitulation ahead of Washington's.

for that reason I have sent this young man to invite you to come and meet us: he can tell you many things that he has seen in Virginia, and also how well he was received by the most prominent men; they did not treat him as the French do your people who go to their Fort; they refuse them provisions; this man has had given him all that his heart could wish; for the confirmation of all this, I here give you a Belt of Wampum.

May 20th. Embarked in a canoe with Lieut West,¹ three soldiers, and one Indian; and having followed the river along about a half a mile, were obliged to come ashore, where I met Peter Suver,² a Trader, who seemed to discourage me from seeking a passage by water; that made me change my purpose of causing canoes to be made; I ordered my men to wade as the water was shallow enough, and continued myself going down the river. Now finding our canoes were too small for six men, we stopped and built a Boat; with which, together with our canoe, we reached Turkey-Foot,³ by the beginning of the night. We met with some slight and unimportant difficulties about eight or ten miles from there, we passed some places where the water (unless it became lower than it then was) would have been deep enough to allow the passage of canoes.

May 21st. Tarryed there some time to examine the place, which we found very suitable for the erection of a fort, not only because it was gravelly, but also because it was at the mouth of the three branches; and in most places there was a good tough bottom on which to build it: The plan thereof, which may be seen here is as exact as could be done without mathematical instruments. We went about

two miles to observe the course of the river, which is narrow, has many currents, is full of rocks and rapid; we waded it, though the water was pretty high, which leads me to think that it would not be difficult to pass it with canoes, which, however, could not readily be done without. We also found other places where the water was rapid but not so deep, and the current smoother, we easily passed over them, but afterwards we found little or scarce any bottom. There are mountains on both sides of the river. We went down the river about ten miles when at last it became so rapid as to oblige us to come ashore.¹

[From the 22^d to the 24th the journal contains only a description of the country]

May 24th. This morning an Indian arrived in company with one whom I had sent to the Half-King and brought me the following letter from him.

To any of his Majesty's officers whom this may Concern. As 'tis reported that the French army is set out to meet M. George Washington, I exhort you my brethren, to guard against them, for they intend to fall on the first English they meet; They have been on their march these two days, the Half-King and other chiefs will join you within five days, to hold a council, though we know not the number we shall be. I shall say no more; but remember me to my brethren the English. Signed The Half-King.²

I examined these young Indians in the best manner I could, concerning every circumstance, but was not much

¹ In the vicinity of what is now the Ohio-Pile Falls of the Youghiogheny River, Pennsylvania.

² The English translation of this letter from the Half-King is sometimes printed with poorly spelled words such as an Indian would probably use; but as it was first published in French and had to be translated into English before the awkward spelling could be discovered, the crude etymology is, doubtless, the fancy of the translator. An *exact* copy was sent by Washington in his letter to Governor Dinwiddie, May 27, 1754, but this copy was not available to the French publisher.

enlightened by them. They say there are parties of them often out, but they do not know of any considerable number coming this way. The French continue building their Fort; that part next the land is very well enclosed, but that next to the water is much neglected, at least it is without any defence. They have only nine pieces of cannon and some of them very small, and not one mounted. There are two on the point and the others some distance from the Fort on the land side. They relate that there are many sick among them, that they cannot find any Indians to guide their small parties towards our camp, these Indians having refused them. The same day at two o'clock, we arrived at the Meadows,¹ where we saw a trader, who told us that he came this morning from Mr Gist's, where he had seen two Frenchmen the night before, and that he knew there was a strong detachment on the march, which confirmed the account we had received from the Half-King; wherefore I placed troops behind two natural entrenchments, and had our wagons put there also.

May 25th. Detached a scouting party on horseback² to go along the roads, and sent other small parties to scour the woods. I gave the Horse-men orders to examine the country well, and endeavor to get some view of the French, of their forces, of their movements, etc. In the evening all these parties returned, without having discovered anything, though they had been pretty far towards the place whence it was said the party was coming.

¹ On the east side of Laurel Hill, in what is now Fayette County, Pennsylvania. Fort Necessity was erected here. Braddock was buried near by, and the Jumonville skirmish took place within a mile of it. Washington acquired title to 234 acres of the Meadows, including the site of Fort Necessity, in 1767, and held it during his entire lifetime. (*Toner.*)

² The French reads: 'Je détachai un parti à Chevert.' (*Ford.*) It is not a great stretch of imagination to interpret this as 'chevau'; the next sentence justifies this reading.

May 26th. Arrived William Jenkins;¹ Col Fry had sent him with a letter from Col. Fairfax,² which informed me, that the Governor himself, as also Colonels Corbin³ and Ludwell,⁴ had arrived at Winchester, and were desirous of seeing the Half-King there, whereupon I sent him word thereof.

May 27th. Mr Gist arrived early in the morning, who told us that Mr la Force, with fifty men whose tracks he had seen five miles from here, had been at his plantation the day before, towards noon, and would have killed a cow, and broken everything in the house, if two Indians, whom he had left in charge of the house, had not persuaded them from carrying out their design: I immediately detached 65 men under the command of Captain Hog, Lieutenant Mercer,⁵ Ensign La Peronie, three Sergeants and three corporals, with instructions. The French had made many inquiries at Mr. Gist's, as to what had become of the Half-King? I did not fail to let several young Indians who were in our camp know that the French wanted to kill the Half-King; and it had its desired effect. They immediately offered to accompany our people to go after the French, and if they found it was true that he had been killed, or even insulted by them, one of them would promptly carry the news thereof to the Mingo village, in order to incite their warriors to fall upon them. One of these young men was detached towards Mr Gist's, and in case he should not find the Half-King there, he was to send a message by a

Delaware. About eight in the evening I received an express from the Half-King, who informed me, that, as he was coming to join us, he had seen along the road, the tracks of two men, which he had followed, till he was brought thereby to a low obscure place; that he was of opinion the whole party of the French was hidden there. That very moment I sent out forty men and ordered my ammunition to be put in a place of safety, fearing it to be a stratagem of the French to attack our camp; I left a guard to defend it, and with the rest of my men set out in a heavy rain, and in a night as dark as pitch, along a path scarce broad enough for one man; we were sometimes fifteen or twenty minutes out of the path before we could come to it again, and we would often strike against each other in the darkness: All night long we continued our route, and on the 28th about sun-rise we arrived at the Indian camp, where after having held a council with the Half-King, we concluded to attack them together; so we sent out two men to discover where they were, as also their position and what sort of ground was therabout, after which we prepared to surround them marching one after the other Indian fashion: We had advanced pretty near to them, as we thought, when they discovered us; I ordered my company to fire; my fire was supported by that of Mr. Waggoner¹ and my company and his received the whole fire of the French, during the greater part of the action, which only lasted a quarter of an hour before the enemy were routed. We killed Mr. de Jumonville, the Commander of the party, as also nine others; we wounded one and made twenty-one prisoners, among whom were M la Force, M. Drouillon² and two cadets. The Indians scalped the dead and took away the greater part of their arms, after which

we marched on with the prisoners under guard to the Indian camp, where I again held a council with the Half-King, and there informed him that the Governor was desirous to see him, and was expecting him at Winchester; he answered that he could not go just then, as his people were in too imminent danger from the French whom they had attacked; that he must send runners to all the allied nations, in order to invite them to take up the Hatchet. He sent a young Delaware Indian to the Delaware Nation and gave him also a French scalp to carry to them. This man desired to have a part of the presents which were allotted to them, but the remaining part, he said might be kept for another opportunity. He said he would go to his own family, and to several others, to bring them to Mr Gist's, whither he desired me to send men and horses to assist them in coming to our camp. After this I marched on with the prisoners. *They informed me that they had been sent with a summons to order me to retire.* A plausible pretence to discover our camp and to obtain knowledge of our forces and our situation! It was so clear that they had come to reconnoiter what we were, that I admired their assurance, when they told me they were come as an Embassy; their instructions were to get what knowledge they could of the roads, rivers, and all the country as far as the Potowmack; and instead of coming as an Ambassador, publicly and in an open manner, they came secretly, and sought the most hidden retreats more suitable for deserters than for Ambassadors; they encamped there and remained hidden for whole days together, at a distance of not more than five miles from us; they sent spies to reconnoiter our camp; the whole body turned back 2 miles; they sent the two messengers mentioned in the instructions, to inform M. de Contrecoeur of the place where we were, and of our disposition, that he might send his detachments to enforce the summons as soon as it

should be given. Besides, an Ambassador has princely attendants, whereas this was only a simple petty French officer, an Ambassador has no need of spies, his person being always sacred: and seeing their intention was so good, why did they tarry two days at five miles' distance from us without acquainting me with the summons, or at least, with something that related to the Embassy? That alone would be sufficient to excite the strongest suspicions, and we must do them the justice to say, that, as they wanted to hide themselves, they could not have picked out better places than they had done. The summons was so insolent, and savored of so much Gasconade, that if it had been brought openly by two men it would have been an excessive Indulgence to have suffered them to return.

It was the opinion of the Half-King in this case that their intentions were evil and that it was pure pretence; that they had never intended to come to us otherwise than as enemies, and if we had been such fools as to let them go they would never have helped us to take any other Frenchmen. They say they called to us as soon as they had discovered us; which is an absolute falsehood, for I was then marching at the head of the company going towards them, and can positively affirm, that, when they first saw us, they ran to their arms, without calling, as I must have heard them had they so done.

May 29th. Dispatched Ensign Towers ¹ to the Half-King with about twenty-five men, and almost as many horses; as I expected that some French parties would immediately follow that which we had defeated, I sent an Express to Colonel Fry for a reenforcement. After this the French prisoners desired to speak with me, and asked me in what manner I looked upon them, whether as the attendants of an Ambassador, or as prisoners of war. I answered them

¹ Ensign James Towers, of the Virginia Regiment.

that it was in the quality of the latter, and gave them my reasons for it, as above.

May 30th. Detached Lieutenant West, and Mr Spiltdorph, to take the prisoners to Winchester with a guard of twenty men. Began to erect a fort with small palisades,¹ fearing that when the French should hear the news of that defeat we might be attacked by considerable forces.

JUNE

June 1st. An Indian trader arrived here with the Half-King. They said that when Mr. de Jumonville was sent here another party had been detached towards the lower part of the river in order to take and kill all the English they should meet. We are finishing our Fort. Towards night Ensign Towers arrived with the Half-King, Aliquippa² and about twenty-five or thirty families, making in all about eighty to one hundred persons, including women and children. The old King being invited to come into our tents, told me that he had sent Monakattoochoa³ to Logstown with wampum, and four French scalps, which were to be sent to the Six Nations, to the Wiandots, etc. to inform them, that they had fallen upon the French and to ask their assistance to enable them to maintain the advantage gained. He also told me he had something to say at the council, but would wait till the arrival of the Shawanese, whom he expected next morning.

June 2nd. Two or three families of the Shawanese and Loups arrived: we had prayers at the Fort.

June 3d. The Half-King assembled the council and informed me that he had received a speech from Grand-Chaudiere (Big Kettle) ¹ in answer to the one he had sent him.

June 5th. An Indian arrived from the Ohio, who had lately been at the French Fort. This Indian confirms the news of two Traders being taken by the French, and sent to Canada, he says they have set up their palisades and enclosed their fort with exceeding large trees. There are eight Indian families on this side of the river coming to join us. He met a Frenchman who had made his escape in the time of M. de Jumonville's action; he was without either shoes or stockings, and scarce able to walk; however he let him pass, not knowing that they had been attacked.

June 6th. Mr Gist is returned, and acquaints me of the death of poor Colonel Fry, and of the safe arrival of the French prisoners at Winchester, which was the cause of great satisfaction to the Governor. I am also informed that Mr. Montour ² is coming with a commission to command two hundred Indians. Mr. Gist met a French deserter, who assured him that there were only five hundred men when they took Mr. Ward's Fort, ³ that they were now less, fifteen men having been sent to Canada to acquaint the Governor of their success. That there were yet two hundred soldiers who were only waiting for a favorable opportunity to come and join us.

² Captain Andrew Montour, a French Huron half-breed, employed by Virginia as an interpreter. He served on the Braddock Expedition. (*Toner.*) The French called him a 'Canadian deserter.' (*Ford.*)

³ Ward's Fort = Fort Duquesne.

June 9th. The last body of the Virginia regiment, arrived under the command of Colonel Muse,¹ and we learnt that the independent company of Carolina was arrived at Will's Creek.

June 10th. I received the regiment, and in the evening had notice, that some French were advancing towards us; whereupon I sent a party of Indians upon the scout towards Gist's, in order to discover them, and to know their number; just before night we had an alarm, but it proved false.

June 12th. Two of the men whom we had sent out yesterday upon the scout, returned; they had discovered a small party of French; the others went on as far as Stuart's.² Upon this advice, I thought it necessary to march with the major part of the regiment, to find out those ninety men of whom we had intelligence. Accordingly I gave orders to Colonel Muse, to put away all our baggage and ammunition, and to place them in the Fort, and to set a good guard there till my return; after which I marched at the head of one hundred and thirty men and about thirty Indians, but at the distance of half a mile I met the other Indians, who told me there were only nine deserters; whereupon I sent Mr. Montour, with some few Indians to bring them in, in safety. I caused them to be clothed, and they confirmed us in our opinion of the intention of M. de Jumonville's party; that more than one hundred soldiers were only waiting for a favorable opportunity to come and join us; that M. de Contrecoeur expected a reinforcement of four hundred men; and that these four hundred men must have arrived before the attack made on la Force; that the fort was

completed; that its front and gates were protected from an attack by artillery; that there was a double palisade next to the water; that they have only eight small pieces of cannon, and know what number of men we have. They also informed us that the Delawares and Shawanese had taken up the hatchet against us; whereupon we resolved to invite those two Nations to come to a council at Mr Gist's. Sent for the purpose messengers and Wampum.

June 13th. Induced the deserters to write the following letter, to those of their companions who had an inclination to desert:¹

June 15th. Set about clearing the roads.

June 16th. Set out for Red Stone Creek, and were extremely embarrassed, our wagons breaking very often.

June 17th. Dispatched an express to the Half-King in order to persuade him to send a message to the Loups, which he did, as I expected that he would.

June 18th. Eight Mingoës arrived from Logstown, who on their arrival told me, without delay, of a commission they had and that a council must be held. When we had assembled, they told us briefly that they had often desired to see their brethren in the field with forces, and begged us not to take it amiss, since they were amongst the French, that they complied with some of their customs, notwithstanding which they were naturally inclined to attack them, and other words to that purport. After which they said they had brought a speech with them, which they must deliver with speed. These, together with some other things, made us suspect that their intentions towards us

¹ This letter was not published by the French in the *Mémoire Contenant*.

were evil; wherefore I delayed giving them audience until the arrival of the Half-King, and desired also the Delawares to have patience till then, as I was only awaiting their arrival, which I expected would be the same day, to hold a council. After the eight Mingoes had conferred a while together, they sent me some strings of wampum, desiring me to excuse their insisting on the delivery of their speech so speedily, that they now perceived that it was proper to await the arrival of the Half-King. When the Half-King arrived I consented to give them audience. A council was held in the camp for that purpose, at which the Half-King and several of the Six Nations, Loups and Shawanese to the number of forty were present. The spokesman of the Six Nations addressed the following speech to the Governor of Virginia:

BRETHREN: We your brethren of the Six Nations are now come to acquaint you, that we have been informed that you threaten to destroy entirely all your brethren the Indians, who will not join you on the road; wherefore we who keep in our own towns, expect every day to be cut to pieces by you. We should be glad to know from your own mouth whether there be any truth in that information, and hope that you will not think it improper that we are come to inquire into it, since you well know that bad news commonly makes a much deeper impression upon us than good. That we may be fully satisfied by your answers of the truth thereof, we give you this belt of wampum. We know the French will ask us on our return, of what number our brethren are whom we went to see? Therefore we desire you, by this belt, to let us know it, as also the number of those whom you expect and at what time you expect them, and when you intend to attack the French, that we may give notice thereof to our town, and know also, what we are to tell the French.

Answer

BRETHREN: We are very glad to see you, and sorry that such reports disquiet you. The English do not intend to hurt you, or any of your allies; this report we know must have been forged by

the French, who are always treacherous, asserting the greatest falsehoods whenever they think they will turn out to their advantage; they speak well, promise fine things, but all from the lips only; whilst their heart is corrupt and full of the poison of the serpent. You have been their children and they have done everything for you, but they no sooner thought themselves strong enough than they returned to their natural pride and drove you off from your lands, declaring you had no right on the Ohio. The English, your real friends, are too generous to think of ever using the Six Nations, their faithful allies, in such a manner; after you had gone to the Governors of Virginia and Pennsylvania they (at your repeated request) sent an army to maintain your rights; to put you again in possession of your lands, and to take care of your wives and children, to dispossess the French, to maintain your rights and to secure the whole country for you; for these very ends are the English arms now employed; it is for the safety of your wives and your children that we are fighting; and as this is the only motive of our conduct we cannot reasonably doubt of being joined by the rest of your forces to oppose the common enemy. Those who will not join us shall be answerable for whatever may be the consequence, we only desire your brethren to choose the side which seems most acceptable to them. The Indians of the Six Nations are those who have the most interest in this war, for them it is that we fight; and it would greatly trouble me to do them the least harm; we have engaged in this war to assist and protect you; our arms are open to receive you and our hands ready to feed your families during the war. The Governor of Virginia has often desired that they might be sent to him that he may see them in person, feed and clothe them according to their own desire; but as you could not decide to send them to him, we are ready to share all our provisions with you, in a friendly manner and to take such measures and give such orders that enough shall be brought to maintain your wives and children. Such conduct will evidently prove how much more the English love and esteem their faithful allies the Six Nations, than the French do; as we have drawn the sword in your cause and in your defence, hesitate no longer, delay not a moment, but put all your wives and children under our protection, and they shall find plenty of provisions; in the meanwhile set your young men and your warriors to sharpening their hatchets, to join and unite with us vigorously in our battles. The

present, my Brethren, which I offer you is not so considerable as I could wish, but I expect in a short time, a quantity of goods, which are to be at my disposal, to reward those who shall have shown themselves brave and active on this occasion; I shall, moreover recompense them most generously. Be of good Courage, my brethren, deliver your Country and secure it to your children; let me know the thoughts of your Hearts on this affair, that I may give an account of your sentiments to your great Friend and Brother, the Governor of Virginia. To assure you of my sincerity and esteem I present you this belt of wampum.

June 20th. The Council is still continued. When the Delawares learned that they were suspected of being in the French interest, they demanded the reason why they had been sent for, and what they should tell the French at their return. I answered them, it was to let them know, that we were come at their reiterated requests to aid them, with sword in hand; that we intended to put them in possession of those lands which the French had taken from them. And as they had often asked our assistance, as our ancient and faithful allies, I invited them to come and place themselves under our protection, together with their wives and children. Whereupon the Indian spokesman stretched out his blanket on the floor and laid several belts and strings of wampum thereon, in the same order he had received them from the French. This done he repeated the speeches of M. de Contrecoeur; after which the Delaware spokesman addressed the following speech to me,

BRETHREN, the Governors of Virginia and Pennsylvania; We your brethren of the Delawares remember perfectly well the treaty made at Logstown¹ where you and your uncles, the Six Nations, considering the bad situation we were in for want of a man to be our leader, gave us a King, and told us he should transact all public business between you and us; you charged us not to listen to every vain report, that might be spread, but to

¹ Probably the conference at Logs Town in 1752, at the instance of Governor Dinwiddie, in the interest of the Ohio Company. (*Toner.*)

consult well among ourselves and do what should seem to us right: We assure you we have given no credit to any of those reports nor ever shall; but will be guided by you, our brethren, and by our uncles the Six Nations: and will do on all occasions, what is just and right, taking advice from you alone. To assure you of the desire we have to fulfil our engagements with you, we present you with this belt of wampum.

After which they made the following speech to the Six Nations.

UNCLES, Thirteen days are now past since we received this belt from the Onondaga Council; I do not doubt that you have heard of it. They exhorted us to remember old times, when they clothed us with a robe reaching down to our heels; they afterwards told us to raise it up to our knees and there make it very fast and to come to them at the headwaters of the Susquehannah, where they had provided a place for us to live; that they had also sent a speech to those of our Nation who live near the Minnesinks,[†] inviting them to go to the place by them appointed, that they might live with us; They also sent us a speech, to give us notice that the English and French were upon the point of coming to an engagement on the Ohio river, and exhorted us to do nothing in that matter, but what was reasonable and what they would tell us themselves. Lastly they urged us to keep fast hold of the chain of friendship, which has so long subsisted between us and them, and our brethren the English. A belt of wampum. Then the Delawares spoke to the Shawanese as follows: Grandsons, by this Belt, we take you between our arms, and fetch you away from the Ohio, where you now are, to carry you amongst us, that you may live where we live, and there live in peace and quiet.

The Council then adjourned to the next morning.

June 21st. Met very early, and I spoke first to the Delawares in the following manner.

BRETHREN; By your open and generous conduct on this occasion you have made yourself dearer to us than ever; we

[†] The Minnesink Country was in what is now the State of Ohio.

return you our thanks, that you did not go to Venango, when the French first invited you there; their treating you in such a childish manner, as we perceive they do, raises in us a just and strong resentment. They call you their children, and speak to you as if you were children in reality and had no more understanding than children. Consider well my brethren, and compare all their speeches, and you will find that all it tends to, is to tell you, I am going to open your eyes, to unstop your ears and such like words to no purpose, and only proper to amuse children. You also observe brethren that if they deliver a speech, or make a promise, and confirm it with a belt, they imagine it binds them no longer than they think it consistent with their interest to stand to it. They have given one example of it; and I will point it out to you, in the leap which they say they have made over the barrier which you had set them; which ought to stir you up, my Brethren, to just anger, and cause you to embrace the favourable opportunity that we offer you, as we are come at your request, to assist you, and by means of which, you may make them leap back again with more speed than they advanced. (A string of wampum.) The French are continually telling you not to give heed to ill reports that are told you concerning them, who are your fathers. If they did not know in their very hearts, how richly they deserve it on account of their injustice to you, why should they suspect that they are accused? Why should they take so much care to forewarn you, in order to hinder you from believing what is told you concerning them? As to what they say of us, our conduct alone will answer in our behalf. Examine the truth yourselves. You know the roads leading to our habitations, you have lived amongst us, you can speak our language; but in order to refute whatever may be said against us and to assure you of our brotherly love; we once more invite your old men, your wives and your children, to take refuge under our protection and in our arms, in order to be plentifully fed, whilst your warriors and young men join with ours and espouse together the common cause. (A String of Wampum.) Brethren we thank you with all our hearts, for having declared unto us your resolution of accomplishing the engagements which you entered into at the treaty of Logstown¹ and we can do no otherwise than praise

¹ This so-called treaty of Logs Town was probably the conference held at that place in 1752 with the Shawanese, Mingo, and Delawares, at the instance of Governor Dinwiddie and in the interests of the Ohio Company. The Indians

your generous conduct with regard to your Grandsons the Shawanese; it gives us infinite pleasure. We are greatly obliged for the advice given you by Onondaga, charging you to hold fast the chain of friendship by which we are bound; I dare say, that, had he known, how nearly you were interested in this war, or that it was for love of you, and at your request, that we have taken up arms, he would have ordered you to declare and to act immediately against the common enemy of the Six Nations. In order to assure you of my affection, and to confirm the truth of what I have said, I present you with two great strings of wampum.

After this the Council broke up and those treacherous devils, who had been sent by the French to act as spies, returned, though not without some stories prepared to amuse the French, which may be of service to make our own designs succeed. As they had told me there were sixteen hundred French and seven hundred Indians on the march, to reenforce those at the Garrison, I persuaded the Half-King to send three of his men to inquire into the truth of it, though I imagined this news to be only soldiers' talk; these Indians were sent secretly before the Council broke up, with orders to go to the Fort, get what information they could from all the Indians they should meet, and if there was any news worthy of the trouble one of them should return, and the other two continue their journey as far as Vanango, and around the Lake,¹ in order to obtain a perfect knowledge of everything. I also persuaded King Shingas² to send out rangers towards the river, to bring us news, in case any French should come; I gave him also a letter, which he was to send back again by his runners to prevent my being imposed upon by a false alarm. Though King Shingas, and others of the Delawares, could not be

confirmed, to an extent, a grant of land made by the Six Nations, west of the Alleghanies, and bound themselves not to molest white settlements on the southwest of the Ohio. (*Toner.*)

² Shingas, Shingise, or Shingese, King or Chief of the Delawares.

persuaded to retire to our camp, with their families, owing to their fear of Onondaga's Council, they nevertheless gave us strong assurance of their assistance and directed us in what manner to act in order to obtain our desire: the method was this; we were to prepare a great war belt to invite all the warriors who would receive it, to act independently of the King and Council; and King Shingas promised to take privately the most subtle measures to make the affair succeed though they did not dare to do it openly.

The day that the Council broke up I persuaded Kaquehuston, a trusty Delaware, to carry that letter to the Fort which the French deserters had written to their comrades and gave him instructions how he should behave in his observations, upon several matters of which I spoke to him, for I feel certain the Fort may be surprised, as the French are encamped outside, and cannot keep a strict guard by reason of the works on which they are engaged. I also persuaded George, another trusty Delaware, to go and visit the Fort, a little while after Kaquehuston, and gave him proper instructions, recommending him particularly to return with speed, that we might have fresh news.

Immediately after the Council was over, notwithstanding all that Mr. Montour could do to dissuade them, the Delawares as also the Half-King, and all the other Indians returned to the Great Meadows; but though we had lost them, I still had spies of our own people, to prevent any surprise. As I was told that if I sent a belt of wampum and a speech, it might bring back the Half-King and his young men, I sent the following speech by Mr. Croghan:¹

¹ Colonel George Croghan, Indian Agent for the Colony of Pennsylvania. Came to America from Ireland and settled on the Juniata River, above Harrisburg, Pennsylvania. He was trading with the Indians as early as 1746. He learned their language, and was trusted by them. In 1754 he was employed by Governor Dinwiddie as an interpreter.

'Tis but a short time since we were assembled together; we were sent here by your brother, the Governor of Virginia, at your own request, in order to succor you and fight for your cause; wherefore my Brethren, I must require that you and your young men come to join and encamp with us, that we may be ready to receive our brother Monacotoocha, whom I daily expect; That this request may have its desired effect, and make a proper impression upon your minds, I present you with this string of wampum.

As those Indians, who were spies sent by the French, were very inquisitive and asked us many questions in order to learn by what way we proposed to go to the Fort, and at what time we expected to arrive there, I left off working any further on the road and told them that as we intended to continue it through the woods as far as the Fort, felling trees &c. that we were waiting here for the reenforcements which were coming to us, our artillery and our wagons to accompany us there; but as soon as they were gone, I set about marking out and clearing a road towards Red-Stone.

June 25th. Towards night three men from the Great Meadows came to us, amongst whom was the son of Queen Aliquippa. He brought me a letter from Mr. Croghan informing me what difficulty he had had in finding any Indians willing to come to us;¹ that the Half-King was inclined and was preparing to join us, but had received a blow which was a hindrance to it. I thought it proper to send Captain Montour to Fort Necessity, in order to try if he could persuade the Indians to come to us.

June 26th. An Indian arrived bringing news that Monocotoocha had burned his village, Logstown, and had gone by water with his people to Red-Stone, and might be

expected there in two days. This Indian passed close by the Fort and assures us that the French have received no reenforcements, except a small number of Indians, who had killed, as he said, two or three of the Delawares. I did not fail to relate that piece of news to the Indians in its proper colors, and particularly to two of the Delawares who are here.

June 27th. Detached Captain Lewis,¹ Lieutenant Waggoner and Ensign Mercer,² two Sergeants, two Corporals, one drummer and sixty men, to endeavor to clear a road to the mouth of Red-Stone Creek, on Monongahela.³

¹ Captain Andrew Lewis. Served in the Braddock Expedition, was taken prisoner in Major Grant's ill-fated reconnoissance of Fort Duquesne in 1758, and was one of the Virginia Commissioners at the treaty of Fort Stanwix. He was a colonel in the Revolutionary War and died in 1781. (*Toner.*)

² Ensign John Mercer, brother of Captain George Mercer. He was killed by the Indians in 1756. (*Toner.*)

³ The entry — June 27, 1754 — is the last one printed in the French publication *Mémoire Contenant*, etc., and, unless Washington's original notes are, some day, found in the French Archives, this prepared French version of his record from March 31st to June 27th, inclusive, is all we shall ever possess.

The construction of the road to Red Stone continued until June 28th when a council of war decided to call in all working parties and concentrate the force at Gist's; there to fortify against the large force of French and Indians, reported by Washington's scouts, to be preparing to march against him from Fort Duquesne. Further intelligence as to this advancing force caused another council of war to decide upon a retreat to Will's Creek. By the time Great Meadows were reached (July 1st), the troops were too exhausted to continue further, and it was decided to make a stand at Fort Necessity. The works were strengthened and, on the morning of July 3d, the French opened fire on the Fort. The engagement lasted all that day and about eight o'clock in the evening the French suggested a parley. Lack of ammunition and food compelled the capitulation. Washington marched out with the honors of war, with all his arms, flags, and baggage, to continue his march to Will's Creek, unmolested. His artillery was destroyed by the terms of the surrender, which was signed about midnight of July 3d and the English evacuated the fort at sunrise, July 4th.

JANUARY

Tuesday, 1. Visited my Plantations and receivd an Instance of Mr. French's ¹ great love of Money in disappointing me of some Pork, because the price had risen to 22/6 after he had engaged to let me have it at 20/.

Calld at Mr. Possey's ² in my way home and desird him to engage me 100 Bar'ls of Corn upon the best terms he could in Maryland. ³

And found Mrs. Washington upon my arrival broke out with the Meazles.

Wednesday, 2d. Mrs. Barnes ⁴ who came to visit Mrs. Washington yesterday returned home in my Chariot the weather being too bad to travel in an open Carriage, which, together with Mrs. Washington's Indisposition, confined me to the House and gave me an opportunity of Posting my Books and putting them in good order.

Fearing a disappointment elsewhere in Pork I was feind to take Mr. French's upon his own terms and engaged them to be deliv'd at my House on Monday next. ⁵

Thursday, 3d. The Weather continuing Bad and the same causes subsisting I confind myself to the House.

¹ Daniel French, of Fairfax County, son of Daniel French, of King George County; married Penelope Manly. (*Ford*.)

² Captain John Posey owned land and lived just below Mount Vernon. A ferry ran from his place to that of Thomas Marshall, in Maryland, now called 'Marshall Hall.' In 1765, Washington lent Posey £750 and in 1769 took over Posey's place with ferry rights, etc., in satisfaction for this loan. Afterwards the place was sometimes referred to as the 'Ferry Farm.'

³ See under February 4, 1760.

⁴ Mrs. Sarah Barnes, wife of Abraham Barnes, daughter of Colonel William Ball, of Northumberland County, Virginia. (*Toner*.)

⁵ He bought 2473 pounds at 22/6, making £27. 12. 6.

Morris¹ who went to work yesterday caught cold and was laid up bad again, and several of the Family were taken with the Measles, but no bad Symptoms seemd to attend any of them.

Hauled the Sein and got some fish, but was near being disappointed of my Boat by means of an Oyster Man, who had lain at my landing and plagued me a good deal by his disorderly behaviour.

Friday, 4th. The Weather continud Drisling and Warm, and I kept the House all day. Mrs. Washington seemg. to be very ill wrote to Mr. Green² this afternoon desiring his Company to visit her in the Mornng.

Saturday, 5th. Mrs. Washington appeard to be something better. Mr. Green however came to see her at 11 oclock and in an hour Mrs. Fairfax³ arrivd. Mr. Green prescribd the needful, and just as we were going to Dinnr. Capt. Walter Stuart⁴ appeard with Doctr. Laurie.⁵

The Evening being very cold, and the wind high, Mrs. Fairfax went home in the Chariot. Soon afterwards Mulatto Jack arrivd from Fred[eric]k with 4 Beeves.

Sunday, 6th. The Chariot not returng. time enough from Colo. Fairfax's we were prevented from Church.

¹ Israel Morris, overseer in the Dogue Run plantation; later a tenant on Washington's land in Fauquier County. (*Toner*.)

² The Reverend Charles Green, minister of Truro Parish, had practiced medicine before he was ordained in 1736.

³ Sarah Cary (1730-1811), daughter of Colonel Wilson Cary, of Ceelys. Married, December 12, 1748, George William Fairfax. See *Sally Carey* (1916).

⁴ He was on the unlucky advance of Major James Grant against Fort Du Quesne in 1758. Of him Washington wrote: 'Capt. Walter Stewart, the other surviving officer, distinguished himself greatly while he was able to act. He was left in the field, but made his escape afterwards.' To *Francis Fauquier*, September 25, 1758. (Ford, *Writings of Washington*, II, 100.)

⁵ Dr. James Laurie, who attended all of Washington's people in the county for fifteen pounds a year. He was of Alexandria. The name is also spelled Lowrey, though never by Washington. (*Toner*.)

Mrs. Washington was a good deal better to day; but the Oyster Man still continuing his Disorderly behaviour at my Landing I was obliged in the most preemptory manner to order him and his compy. away, which he did not Incline to obey till next morning.

Monday, 7th. Accompanied Mrs. Bassett¹ to Alexandria and engaged a Keg of Butter of Mr. Kirkpatrick,² being quite out of that article.

Wrote from thence to Doctr. Craik³ to endeavour, if possible, to engage me a Gardener from the Regiment⁴ and returnd in the dusk of the Evening.

Tuesday, 8[th]. Directed an Indictment to be formd by Mr. Johnston⁵ against Jno. Ballendine⁶ for a fraud in some Iron he sold me.

¹ Anna Maria Dandridge (1739-77), daughter of Colonel John Dandridge, of New Kent County, and Frances Jones. She was sister of Martha Washington. Married Burwell Bassett, of Eltham. (*Ford*.)

² John Kirkpatrick, Washington's secretary while the latter was in command of the Virginia forces during the French and Indian War: 'I have appointed . . . Mr. Kirkpatrick, of Alexandria, my secretary; a young man, bred to business, of good education, well recommended, and a person of whose abilities I had not the least doubt.' To *Robt. Dinwiddie*, October 11, 1755. (*Ford, Writings of Washington*, I, 201.)

³ Dr. James Craik (1730-1814). Married Marianna, daughter of Charles Ewell. He was closely associated with Washington from 1754 to 1799 and attended him in his fatal illness. (*Ford*.)

⁴ Virginia militia.

⁵ George Johnston, an attorney of Alexandria; his son George was one of Washington's aides during the Revolutionary War.

⁶ John Ballendine, who operated an iron foundry at Occoquan. The fraud was in furnishing short weight in bar iron purchased by Washington. Washington had his steelyards carefully tested before making the claim of error. Ballendine claimed that the short weight was unintentional, but made no effort, apparently, to correct the matter, as Washington wrote the account off his books, January 1, 1765, as a loss to the value of the short weight, namely, £8. 5. 7; but that 'fraud' was an angry rather than a just word in relation to this transaction will appear from the fact that some years later (February 8, 1770) 'Mr. Jno. Ballendine dined and lodged' at Mount Vernon.

Ballendine was an interesting character; like many a man of vision a failure. Son of a sea-captain in the tobacco trade between London and the Rappahannock, he grew up in Lancaster County, Virginia, where his father had married,

Got a little Butter from Mr. Dalton,¹ and wrote to Colo. West² for Pork.

In the Evening 8 of Mr. French's Hogs from his Ravens- and first appears in the records at the time of Braddock's expedition, when he commanded a sloop engaged in river trade on the Potomac. A few years later he established an iron works and the first flour mill at the falls of the Occoquan, but after ten years of effort was sold out and moved to the Little Falls of Potomac, where he maintained a sawmill. It was here that he launched that abortive plan for building a Potomac canal, by which his name is best remembered. (See Bacon-Foster, *The Potomac Route to the West*, 1912.)

¹ Captain John Dalton, partner of Carlyle & Dalton, Alexandria merchants.

² John West. The Wests were a family of political importance in Fairfax County in Washington's day, several of whom are recorded in the diary. The first of them to appear on the Potomac was that John West who took a conspicuous part in Parson Waugh's anti-Catholic agitation in 1689. He was later a justice of Stafford and seems to have lived until after 1705, having made that accumulation of land grants in what became Fairfax County which, plus their close-knit alliances with the Pearsons and Alexanders, gave his descendants their local political opportunity. Another John, who was a son of the first, was a member of the original Truro Vestry, as was his son Hugh in 1744.

This Hugh West, of the third generation, was living at the time of the organization of Fairfax County in the Belvoir Neck between Dogue and Accotink Runs, but he also owned a part of the lands above Hunting Creek on which Alexandria was laid out and in that relation was an original trustee of the town. He ended his life in the Assembly in 1754, having been first chosen a Burgess for Fairfax in 1752. This Hugh left several sons, namely: (1) John West, Jr., of West's Grove (on the lower road between Mount Vernon and Alexandria), who married a daughter of John Colvill, was county surveyor, and long a justice of Fairfax. George Mason mentions him in his will as an old friend. Ultimately he was elected a Burgess for the county in 1776 and as such sat in the Independence Convention of that year. He died in 1777, leaving to Washington the responsibility of administering upon the tangled affairs of the Colvill estate. (2) Hugh, a lawyer in Alexandria, who sat in the Assembly from 1756 to 1758 as a burgess for Frederick, and died in 1767. (3) George, who married a daughter of Townsend Dade and died in 1786. (4) William, who took orders, was the second parson of Fairfax Parish and subsequently removed to a Maryland parish, where he died in 1791.

The most important member of this family in Washington's day was, however, the younger brother of the elder Hugh, to-wit, the John West here described by Washington as 'Colo. West.' He first appears as a lieutenant in the Virginia Regiment serving under Washington in the Great Meadows campaign of 1754. The following year he succeeded to his brother's seat in the Assembly, which he held with brief intervals until 1776. Like his nephew, he died in 1777. Always a man of local dignity, for several years at the end of his life he was the presiding justice of Fairfax. He married his cousin, Margaret Pearson, and left a son Roger, who in turn married a daughter of Washington's friend, the Dumfries merchant Allan Macrae.

The only coherent printed account of this family (*William and Mary Quarterly*, x, 65) confuses the distribution of their public service.

worth Quarter came down, one being lost on the way — as the others might as well have been for their goodness.

Nothing but the disappointments in this Article of Pork which he himself had causd and my necessities could possibly have obligd me to take them.

Carpenter Sam was taken with the Meazles.

Wednesday, 9th. Killd and dressd Mr. French's Hogs, which weighd 751 lbs neat.

Colo. West leaving me in doubt about his Pork yesterday obligd me to send to him again to day, and now no definitive answr was receivd — he purposing to send his overseer down tomorrow, to agree abt it.

Colo. Bassett's Abram arrivd with Letters from his Master appointing Port Royal ¹ and Monday next as a time and place to meet him. He brought some things from me that Lay in Mr. Norton's ² Ware house in York Town.

Thursday, 10th. Accompanied Mrs. Bassett in a Visit to Belvoir.³ She this day determind on setting of for Port Royal on Saturday.

Colo. West wrote me word that he had engagd his Pork. Killd the Beeves that Jack brought down two of which were tolerable good.

Friday, 11th. Deliverd Stephens ⁴ two Hogs in part of his

The contents of the house were sold by auction in 1774 and the building leased for a term of years to the Reverend Andrew Morton. Saturday, 12th. Set out with Mrs. Bassett on her journey to Port Royal. The morning was clear and fine, but soon clouded and promisd much rain or other falling weather, which is generally the case after remarkable white Frosts as it was to day. We past Occoquan¹ without any great difficulty, notwithstanding the wind was something high and lodged at Mr. McCraes² in Dumfries,³ sending the Horses to the Tavern.

Here I was informd that Colo. Cocke⁴ was disgusted at my House, and left because he see an old Negroe there resembling his own Image.

¹ The creek dividing Fairfax and Prince William Counties, about twelve miles south of Mount Vernon.

² Allan McCrae, or Macrae, of Dumfries.

³ Dumfries, on Quantico Creek, about four miles above its junction with the Potomac River. At one time an important entry port.

⁴ Catesby Cocke (1702–*post* 1762), son of Secretary William Cocke and himself successively clerk of Stafford (prior to 1731), of Prince William (1731), and of Fairfax (1742). He long lived at Belmont on the Fairfax shore of Occoquan (where his house is indicated on Robert Brooke's Potomac map of 1737), but, having relinquished his clerkship in 1746 to his son-in-law, John Graham, went to live at Dumfries when Edward Washington acquired Belmont. There is no surviving record of Catesby Cocke's will either in Prince William or Fairfax, but a deed executed by him, under date of September 14, 1762, is in Prince William, showing that he was still living when Washington made this amusing entry in the diary.

Sunday, 13th. The Wind last Night chopd about from Southerly to the No. West blew extreame hard and made it excessive cold.

We reachd Mr. Seldon's¹ abt. 3 o'clock and met with a certain Capt. Dives² there, a Man who, as I have been informd, is pretty well known for some of his exploits, and suspected to be an Instrument in carrying Dickerson, whose Character and Memory are too well established to need any Commentaries.

Monday, 14th. The Wind at No. West, and the Morning being clear and cold, but otherwise fine, we set out — Mr. Seldon obligingly accompanying us a few miles to prevent any misapprehensions of the Road. We arrivd about 2 oclock to the Plantation³ late Colo. Turner's,⁴ but now Inhabited by an Overseer directly opposite to Port Royal.⁵ At this place also Mr. Giberne⁶ lodges. And here we were disagreeably disappointed of meeting him for a

¹ Samuel Selden, son of Joseph Selden, of Elizabeth City, and of Mrs. George William Fairfax's aunt, Mary Cary. Under the will of his father (1727) he had inherited the plantation on Potomac Creek in Stafford at which Washington visited him, and there he was still living in 1775 when his mother made her will. (*Hayden*, p. 63.)

² A sea-captain. (*Toner*.)

³ In Ledger A is an expense item for the 14th at 'Allans,' which is probably the plantation noted.

⁴ Washington reached the Rappahannock on this occasion at the plantation in King George of Thomas Turner, long clerk and burgess of that county, and a great favorite among the Virginia Burgesses of his generation; but then recently dead. (See his will, proved in May, 1758, in *Virginia Magazine of History and Biography*, xx, 439.) The Turner plantation was not only, as Washington notes, opposite Port Royal, but a short distance below 'Cleve,' the seat of Charles Carter (1702-64), whither Washington, bound for Fredericksburg, went to dine the next day. Continuing his journey up the river from 'Cleve,' he lodged with John Champe, also of King George, whose son was soon to marry a daughter of Charles Carter.

⁵ Port Conway was opposite Port Royal. (*Ford*.)

⁶ The Reverend Isaac William Giberne, minister of Lunenburg Parish, Richmond County, 1762. He married a daughter of Moore and Margaret (Micon) Fauntleroy. (Meade, *Old Churches*, II, 179; Diary of Landon Carter, in *William and Mary Quarterly*, XIII-XXI. *Ford*.)

few hours; but at length he arrivd, almost at the same Instant that Colo. Bassett did. From hence we movd over to Port Royal and spent the Evening at Fox's¹ with Mr. and Mrs. Bassett.

Mr. Bassett brought me a Letter from Capt. Langbourn Inclosing a Bill of Lading for 20Hhds. pr. the *Deliverance*, Captn. Wm. Whyte. One other was sent by the Ship, neither of which signifying to whom the Tobo. was consignd; which is not less strange than that only two Bills shd. be given, when 4, and never less than three, is customary in war time.

The Wind freshned up as the Evening came on and caused a most intense frost; indeed no thaw had been the whole day.

Tuesday, 15th. Mr. Gibourne and I, leaving Mr. Bassett just ready to set out, recrossed the River and proceeded to Colo. Carter's,² where we dind and in the Evening reachd Colo. Champe's.³

Several Gentlemen dind with us at Colo. Carter's (neighbour's of his), but we spent a very lonesome Evening at Colo. Champe's, not any Body favouring us with their Company but himself.

The Morning of this day was exceeding cold, the Wind still continuing at No. West; but in the Evening it died away grew something more moderate, and promisd falling weather but no appearance of a thaw.

Wednesday, 16th. I parted with Mr. Gibourne, leaving Colo. Champe's before the Family was stirring, and at 10

reached my Mother's,¹ where I breakfasted and then went to Fredericksburg with my Brothr Sam,² who I found there.

Abt. Noon it began snowing, the Wind at So. West, but not Cold; was disappointed of seeing my Sister Lewis³ and getting a few things which I wanted out of the Stores. Returnd in the Evening to Mother's — all alone with her.

Thursday, 17th. The Snow had turnd to Rain and occasiond a Sleet, the Wind at No. Et. and the Ground coverd abt. an Inch an half with Snow, The Rain continued with but little Intermission till noon and then came on a Mist which lasted till Night.

Abt. Noon I set out from my Mother's and Just at Dusk arrivd at Dumfries.

Friday, 18th. Continued my Journey home, the Misting continuing till noon, when the Wind got Southerly, and being very warm occasioned a great thaw. I however found Potom[ac]k River quite coverd with Ice, and Doctr. Craik at my House.

Saturday, 19th. The Wind got abt. to the No. ward last Night and froze the Ground hard. The Morning lowerd, and threatned Rain; but about Noon the clouds dispersd and grew warm, the Wind coming about Southerly again.

Recd. a Letter from my Overseer Hardwick,⁴ informing

¹ Mary, daughter of Colonel Joseph Ball, of Epping Forest, and Mary Montague. She married, March 6, 1730-31, Augustine Washington (1694-1743), who described himself in his will as of King George County. George was the first child of this marriage. (*Ford.*)

² Samuel Washington (1734-81) was married five times and left five children. He inherited from his father about six hundred acres of land at Chotank, Stafford County, and one half of an estate lying on Deep Run. (*Ford.*)

³ Elizabeth, 'Betty' Washington (1733-97), married Fielding Lewis (1725-81), son of John and Frances Lewis. (*Ford.*)

⁴ Christopher Hardwick, overseer on Bullskin plantation. Letters from him are in Hamilton's *Letters to Washington*, and an agreement for stocking a planta-

Bought 4 Hogs weighing — 1 — 103, 2 — 102, 3 — 130, 4 — 108 = 442 lbs. @ 22/. and deliverd them to Richd. Stephens, wch. fully compleats his own and Son's allowance of Provision's.

Sunday, 20th. My Wagon, after leaving 2 Hogsheads of Tobo. at Alexandria, arrivd here with 3 sides of sole Leather and 4 of upper Leather, 2 Kegs of Butter, one of which for Colo. Fairfax and 15 Bushels of Salt which She took in at Alexandria.

Visited at Belvoir to day, carrying Doctr. Craik with us, who spent the Evening there.

The wind continued Southerly the whole day, the Ground very soft and rotten. Till 10 oclock P.M. it Rained witht. intermission, but then the Clouds dispersd and promis'd fair Weather till Noon, when it again set in to Raining and continued by Intervals the whole Afternoon, being Warm.

Monday, 21st. Warm with Rain, the Wind at South till Noon when it veerd abt. to the No.Ward and cleard.

The Ice in the River almost gone. The Rains that fell last night, and today in some measure hardned the Ground from the Rotten condition it appeard in Yesterday.

Tuesday, 22nd. The Wind continued No.wardly, the weather clear and cold, the ground hard froze and the River blockd up again.

Killd 17 more Hogs which were bought of Mr. French, who was here ready to see them weighd and to receive his money. Doctr. Craik Dind here. Hogs wd. 1722 lbs nett.

Wednesday, 23d. Clear and more moderate than Yesterday — but the g[roun]d etca. still hard frozen. Abt. Noon the wind (what little blew) came Westerly and Inclining South.

My Waggon set of for Frederick with Sundry's that were wrote for by the Overseer there.

Doctr. Craik left this for Alexandria and I visited my Quarters and the Mill. According to Custom found young Stephen's¹ absent.

Thursday, 24th. Moderate and fine, the Wind at So. and a gradual though^{1a}

Friday, 25th. Fine warm morning with the wind at So. till abt. 10 oclock, when it came westerly and then No. Wt. blowing exceeding hard till 3 in the afternoon.

Went to Alexandria and saw my Tobo. as it came from the Mountns. lying in an open shed, with the ends of the Hhds. out and in very bad order. Engaged the Inspection of it on Monday.

Wrote to Doctr. Ross² to purchase me a joiner, Brick-layer, and Gardner, if any Ship of Servants was in.³

Also wrote to my old Servt. Bishop⁴ to return to me again, if he was not otherwise engaged. Directed for him at Phila. but no certainty of his being there.

Saturday, 26th. A Very white frost the ground and River hard froze. The wind at Sun Rise at No. Et., in an hour afterwards it got to South and continued there the whole

² George Johnston, whose seat was 'Belvale' on the 'back' road near the Glebe. An able lawyer, in the Assembly of 1765 he drew and seconded Patrick Henry's resolutions against the Stamp Act. He was a Burgess for Fairfax from 1758 until 1766, when he died and was succeeded in that office by Washington. Johnston married a daughter of Dennis McCarty and thus was a brother-in-law of Washington's neighbor, Daniel McCarty. His son, another George Johnston, was an aide-de-camp to Washington in 1777. (*Hayden*, p. 87.)

³ Nation's rent was 112 pounds of tobacco in arrears. He appears to have been a blacksmith. (*Ford*.)

⁴ Wife of Captain John Posey. (*Toner*.)

Sunday, 3d. Very white Frost and wind shifting from So. to East.

Breechy was laid up this Morning with pains in his breast and head attended with a fever.

Mrs. Possey went home and we to Church at Alexandria: ¹ dind at Colo. Carlyle's ² and returnd in the Evening.

¹ In 1751, soon after the town of Alexandria was organized, a lottery was held to build a church there. (*William and Mary Quarterly*, xii, 74.) This was intended to be a chapel of ease of Truro Parish; that it was built appears not only from this entry in the diary, but from the record that in 1753 Parson Green was instructed by the Truro Vestry to preach in Alexandria every third Sunday. (*Truro Vestry Book*, ed. Goodwin, p. 30.) The still standing Christ Church was not built until after Fairfax Parish had been carved out of Truro, to include Alexandria. The town itself came into existence with Governor Gooch's Tobacco Inspection Act of 1730 (*Hening*, iv, 268), which insured the prosperity of Virginia during the golden years prior to the French War, provided that one of the inspection warehouses should be established 'at Great Hunting Creek upon Broadwater's land in Prince William County.' This was the beginning of Alexandria, for a colony of Scotsmen, factors for Glasgow tobacco houses, settled about the new warehouse and made up a community which they called 'Belhaven.' That name was adopted principally in honor of the Lord Belhaven who was the political hero of the Scottish merchant, though, doubtless, partly also as an appreciation of the harbor on which the Hunting Creek warehouse stood. Thereafter several efforts were made to secure an act of the Assembly to establish a town at Belhaven, but the Alexanders, who owned most of the land around the warehouse, resisted the effort, desiring to maintain their own monopoly. In 1749, however, the Assembly passed the act 'for erecting a town at Hunting Creek Warehouse in the County of Fairfax' (the title only is in *Hening*, vi, 214, but the text of the act is in the minutes of the trustees of the town as well as in the Public Record Office, London), which provided for expropriation of a town site and that it should be called Alexandria. This name was part of the compromise which secured the withdrawal of the Alexandria opposition, but 'Belhaven' long persisted in common speech, and occasionally in records, as the designation of the community, although an effort made by the resident Scots merchants in 1752 to get the Assembly to adopt it officially in lieu of Alexandria was defeated by the Alexander interest. The map division of the Library of Congress has recently acquired a plan of Alexandria drawn by Washington in 1749, which shows that that youthful surveyor had the privilege of laying off the town site.

² John Carlyle (1720-80) came to America about 1740, and in 1744 was at Belhaven, a merchant. His house, built in 1752, is still standing. He married Sarah, daughter of William and Sarah (Walker) Fairfax. She died in 1761. (*William and Mary Quarterly*, xvii, 1; xviii, 219.) Letters from him are in the Washington Papers, Library of Congress, and printed in Hamilton's *Letters to Washington*. (Ford.)

Passing by my Carpenters that were hughing I found that four of them viz. George, Tom, Mike and young Billy had only hughd 120 Foot Yesterday from 10 oclock. Sat down therefore and observd. Tom and Mike in a less space than 30 Minutes cleard the Bushes from abt. a poplar, Stocklined it 10 Foot long and hughd each their side 12 Inches deep.¹

Then, letting them proceed their own way, they spent 25 minutes more in getting the cross cut saw standing to consider what to do, sawing the stock of in two places, putting it on the Blocks for hughing it, square lining it, etca. and from this time till they had finished the Stock entirely requird 20 Minutes more; so that in the Space of one hour and a quarter they each of them from the Stump finishd 20 Feet of hughing. from hence it appears very clear, that allowing they work only from Sun to Sun and require two hour's at Breakfast, they ought to yeld each his 125 feet while the days are at their present length and more in proportion as they Increase.

While this was doing George and Billy sawd 30 Foot of Plank, so that it appears as clear, making the same allowance as before (but not for the time requird in pilling the Stock, etca.) that they ought to saw 180 Feet of Plank.

It is to be observd here, that this hughing, and sawing likewise was of Popl'r. what may be the difference therefore between the working of this Wood and other, some future observations must make known.

The Weather today was variable, often Rainy, but the Wind hung chiefly between the So. and West. no Frost last Night and the Ground vastly Rotten.

³ William Clifton. The land above Little Hunting Creek, which Washington acquired from Clifton in 1760, and called 'Clifton's Neck' (later his 'River Farm'), represented what was historically one of the most interesting of the Potomac land titles. Originally patented in 1653 by Captain Giles Brent, then of 'Peace' on Potomac Creek, in the name of his infant son by his wife, the Maryland Pocahontas, Mary, daughter of the Indian 'Emperor of Piscataway,' the tract was at first called 'Piscataway Neck' because it lay immediately opposite the 'Piscataway indian town in Mariland' which was long the principal landmark of the 'freshes' of the river. Passing from the younger Giles Brent to his kinsman, George Brent, of Woodstock, this estate was vested in the Cliftons, of Chotank, in 1739 after the marriage of a descendant of George Brent with one of that family.

³ Thomas, sixth Lord Fairfax, of Cameron (1693-1781), second child and eldest son of Thomas, fifth Lord Fairfax, and Catherine Culpeper. He was proprietor of the Northern Neck of Virginia through inheritance of the Culpeper grants and was the only British peer resident in America during the greater part of the eighteenth century. The patron of the youthful George Washington, he has a picturesque place in American Colonial history. He was born at Leeds Castle, Kent, England, October 22, 1693 (*Bromfield Parish Register*), and died

at Greenway Court, Virginia, December 9, 1781. The notable case of *Fairfax v. Virginia*, which pended for eighteen years before the Privy Council, was precipitated, in 1730, by Virginia's effort to limit the proprietary bounds and Fairfax's counter-memorial. Lord Fairfax appointed his cousin, William Fairfax, then collector of the royal customs at Salem, Massachusetts, as his agent in America, after the death of Robert Carter, and came himself to Virginia in 1735. His view of his estates fixed his determination to live in that colony in the event of a decision in his favor by the Privy Council. This decision was rendered in 1745, and in 1747 Lord Fairfax returned from England and took up his residence at Belvoir, on the Potomac and later at Greenway Court, in Frederick County; the land of which he granted to his nephew, Thomas Bryan Martin, in 1752. It was at Belvoir that young George Washington came in contact with Lord Fairfax. It seems proper to call attention here to the unreliability of many of the statements found in the much-quoted Archdeacon Burnaby's *Travels through the Middle Settlements . . . in America in 1759 and 1760* (London, 1798).

¹ Mount Vernon, on the west bank of the Potomac River, in Fairfax County, about fourteen miles below Washington, D.C. Inherited by Lawrence Washington, half-brother of George, from his father, Augustine Washington. Lawrence devised Mount Vernon, which he named after Admiral Edward Vernon, of the British Navy, under whom he served in the Carthage expedition, to his daughter, and if she died childless the estate was to go to George Washington. Mount Vernon thus passed into the hands of George before he was twenty-one years of age. He improved and enlarged the original building and erected others. The back of the house faces the river. The estate, at one time nearly one thousand acres in extent, is now reduced to about two hundred, to what was called the 'Mansion House Farm.' Washington divided his estate into five farms, the other four being 'Union Farm,' 'Muddy Hole Farm,' 'Dogue Run Farm,' and 'River Farm.' The present tract, including the Mansion House and the tomb, is the property of the Mount Vernon Ladies' Association of the Union.

⁵ Thomas Bryan Martin (1731-98), son of Denny Martin, and Lord Fairfax's sister Frances. He was county lieutenant of Hampshire and a Burgess from that county in 1756-58 and in 1758-61 as the colleague of George Washington. He died unmarried and left Greenway Court to his housekeeper, Betsy Powers, together with one thousand acres of land surrounding it. The remainder of his large landholdings he devised to his three surviving, spinster sisters in England. Their title was fought by the State on the ground of their being aliens; but the Supreme Court upheld the will, which had been written by Gabriel Jones, and which was specially phrased to avoid such a contingency as forfeiture.

Deborah Clarke, and, in consequence, a half-brother of George William Fairfax, was born August 11, 1736, in Westmoreland County, Virginia. His father vested in him about 4700 acres of land in Fauquier and he was trained as a merchant, in Barbadoes. He became a lieutenant in Captain George Mercer's company of the Virginia Regiment, and while on duty experienced a religious conviction which long after carried him into holy orders. A disappointment in love caused him to resign and start North with an intention of enlisting in one of the Northern Colonies, but his brother-in-law persuaded him to return. He then became a captain in the Fairfax militia. On the death of his father, Bryan came into possession of 5500 acres of land in the vicinity of Difficult Run, Fairfax County, which his father had called 'Towlston Grange,' after his birthplace in Yorkshire, England. Lord Fairfax deeded to Bryan, in 1765, the so-called 'Great Falls Manor' of 12,500 acres. On this land Matildaville, Loudoun County, was laid out in 1790. In the possession of nearly 30,000 acres, Bryan recovered from his early heart affliction and married Elizabeth, daughter of Colonel Wilson Cary, of Ceelys, and established himself at Towlston in 1759. During this period his friendship for Washington was largely developed and strengthened. His political sentiments during the dispute between the Mother Country and the Colonies placed him in opposition to the Revolution and separation. In 1777 he attempted to bring about a settlement of the trouble, and on his way to New York for that purpose was arrested at Lancaster, Pennsylvania, and imprisoned. Washington immediately secured his release and allowed him to go forward into the British lines on his word of honor not to divulge anything that could be of benefit to the British. In New York he found that he could not conscientiously take the oath required by the British authorities, and he gave up his attempt to bring about an adjustment and returned to Virginia, visiting Washington, then at Valley Forge, on his way home. He lived, unmolested by the State and respected by its inhabitants, to the end of his life. He was one of the organizers of the Episcopalian Church in Virginia after the war. In 1789 he took orders and became minister in Fairfax and officiated at Christ Church, Alexandria, and the Falls Church. He resigned his ministerial duties in 1792 and retired to Mount Eagle. Bryan became eighth Lord Fairfax in 1793. His first wife died in 1778, and he married a second time, in 1780, Jane, daughter of James Donaldson, of Fairfax. He had numerous children.

Layd the Worm round my Peach Orchard and had the Fence put up.

Made an absolute agreemt with Mr. Clifton for his Land (so far as depended upon him) on the following terms, to wit; I am to give him £1150 Sterling for his Neck Lands,¹ containg 1806 acres, and to allow him the use of this Plantn. he lives on till fall twelve months.

He on his part is to procure the Gentlemen of Maryland to whom his Lands are under Mortgage to join in a Conveyance and is to put me into possession of the Land so soon as this can be done; he is not to cut down any Timber, nor clear any Ground, nor to use more wood than what shall be absolutely necessary for Fences and firing.

Neither is he to assent to any alterations of Tenants transferring of Leases, etca. but on the contrary is to discourage every practice that has a tendency to lessen the value of the Land.

N. B. he is also to bring Mr. Mercer's² opinion concerning the validity of a private sale made by himself.

Tuesday, 11th. Visited at Colo. Fairfax's and was informd that Clifton had sold his Land to Mr. Thompson Mason ² for 1200£ Sterlg., which fully unravelled his conduct on the 2d. and convinced me that he was nothing less than a thorough pacd. Friday, 14th. No. Et. Wind and Rain witht Intermission till afternoon — the Rain then abated, but cloud continued.

Mr. Carlyle and his wife still remaind here. We talked a good deal of a Scheme of setting up an Iron Work on Colo. Fairfax's land on Shannondoah.¹ Mr. Chapman, who was proposd as a partner, being a perfect Judge of these matters, was to go up and view the conveniences and determine the Scheme.

¹ George William Fairfax and his brother-in-law, John Carlyle, duly organized the Bloomery Mills to make iron on Fairfax's lands, 'Shannondale,' near Harper's Ferry, but it does not appear that Washington joined them: perhaps in consequence of his visit to the site on May 9th following.

The inventory of George William Fairfax's estate, taken in 1788, shows that he was a fourth owner, but that 'the Bloomery Mills and lands were sold by the company many years ago.' Like so many of the iron works started in eastern Virginia in the middle of the eighteenth century, the adventurers doubtless found that the available ore, while plentiful, was not suitable for economical conversion.

The 'Mr. Chapman' they contemplated taking into the company was Nathaniel Chapman, who had had long experience in iron making in the Principio Works in Maryland and later in the Accokeek Works in Virginia. For an account of the Principio Company, in which Augustine, the father of George Washington, was interested, see Henry Whitely in the *Pennsylvania Magazine of History and Biography*, xi, 63. Chapman acted as an executor of the estates of Augustine and Lawrence Washington. He died in the summer of 1760, or soon after the conversation here recorded.

Sunday, 16th. In the Morning early began Snowing with a Strong No. Et. Wind and continued without the least Intermission, or Remission till dark, and how long after I know not.

Monday, 17th. The Snow this Morn'g was much drifted, and many places of considerable depth. it kept Snowing by Intervals till Noon and appeared unsettled the whole day.

Went to my Mill and took a view of the Ruins the Fresh had caused; determined however to repair it with all expedition and accordingly set my carpenters to making Wheel and Handbarrows.

Beef from Coleman's was brought down.

Mr. Possey being here and talking of the Orphan Fren's Land adjoining mine on Dogue Run, he undertook to purchase it for me of the said Orphan Diana,¹ who lives at Nangemy² in Maryland with one — Wright, who I think he said married her Aunt. Tuesday, 18th. Cool in the morning Wind at No. West, but afterwards shifting to South grew more moderate and melted the Snow much.

Went to Court partly on my own private Business and partly on Clifton's Affair; but the Commissioners¹ not meeting, nothing was done in regard to the latter. Much discourse happend between him and I concerning his ungenerous treatment of me, the whole turning to little acct. 'Tis not worth reciting here. The result of which was that for £50 more than Mr. Mason offerd him he undertook, if possible, to disengage himself from that Gentleman and to let me have his Land. I did not think myself restrain'd by any Rules of Honour, Conscience or etca. from mak'g him this offer, as his Lands were first engagd to me by the most Solemn assurances that any Man coud give.

Trefoil in — a little Seed given me by Colo. F[airfax] Yesterday.

Wednesday, 2d. Got the above Ground ready for sowing tomorrow.

Began to Cross plow the first plowd Ground in the lower Pasture endeavouring to get it in order for sow'g Lucerne Seed in.

A Drying Southerly Wind and Warm.

Thursday, 3d. Sowd $17\frac{1}{2}$ Drills of Trefoil Seed in the ground adjoining the Garden. numbering from the side next the Stable (or Work Shop); the residue of them, viz. 4, was sowd with Lucerne Seed — both done with design to see how these Seeds answer in that Ground.

Sowd my Fallow Field in Oats today, and harrowd them in, viz. $10\frac{1}{2}$ Bushels; got done about three o'clock.

Cook Jack, after laying of the Lands in this Field, went to plowing in the 12 Acre Field, where they were Yesterday, as did the other Plow, abt. 5 oclock after Pointing.

Got several Composts and laid them to dry in order to mix with the Earth bro't from the Field below, to try their several Virtues.

Wind blew very fresh from South, Cloud often appeard, and sometimes threatned the near approach of Rain but a clear setting Sun seemd denoted the Contrary.

Friday, 4th. Sowd abt one Bushel of Barley in a piece of ground near the Tobo. House in the 12 Acre Field.

Harrowd, and cross Harrowd the Ground in the sd. Field intended for Lucerne.

Apprehending the Herring were come Hauled the Sein, but catchd only a few of them, tho a good many of other sorts.

Maj. Stewart¹ and Doctr. Johnston came here in the Afternoon, and at Night Mr. Richie,² attended by Mr. Ross,³ soliciting Freight — promis'd some.

Saturday, 5th. Planted out 20 young Pine trees at the head of my Cherry Walk.⁴

Recd. my Goods from York.

Hauld the Sein again, catchd 2 or 3 White Fish, more Herring than Yesterday, and a great Number of Cats.

Richie and Ross went away.

Made another Plow the same as my former, excepting that it has two eyes and the other one.

So'ly Wind but not so fresh as that wch. blew yesterday, however it blew up a little Rain abt. Dark with a good deal of Lightning and some Thunder.

Sunday, 6th. Wind at No. Et. and Cool, about 3 oclock it began Raining and continued to do so (moderately) for about an hour, when it cleard, the Wind shifting So'ly.

I just perceivd that Rye Grass Seed wch. I sowd in the Garden to try its goodness was beginning to come up pretty thick; the Clover, Lucerne, and Barley I discovered above Ground, on the first Instant.

Majr. Stewart and Doctr. Johnston set out for Winches'r.

Monday, 7th. Raind till 6 oclock pretty hard and then cleard. Wind So'ly and Cloudy all day.

⁶ The grist mill on Dogue Run.

While I was here a very heavy Thunder Shower came on which lasted upwards of an hour.

Here also. I tried what time the Mill requird to grind a Bushel of Corn, and to my Surprize found she was within 5 minutes of an hour about it. This old Anthony attributed to the low head of Water, but whether it was so or not I can't say; her Works all decayd and out of Order, wch. I rather take to be the cause.

This Bushel of Corn when Ground measurd near a Peck more Meal.

No. Et. Wind and Cloudy all day, towards night it dripd of Rain.

Wednesday, 9th. Wind at No. Et., very cloudy and sometimes Misty.

The Heavy Rains that had fallen in this few days past had made the Ground too wet for Plowing. I therefore set about the Fence which Incloses my Clover Field.

Doctr. Laurie came here. I may add Drunk.

Observd the Trefoil wch I sowd on the 3d. Inst. to be coming up, but in a scatt'g manner; the Lucerne wch. was sewd at the same time and in the same manner appeard much better and forwarder.

Thursday, 10th. Mrs. Washington was blooded by Doctr. Laurie, who stayd all Night.

This Morning my Plows began to work in the Clover Field, but a hard Shower of Rain from No. Et. (where the Wind hung all day) abt. 11 oclock, stopd them for the Remainder of the day. I therefore employd the hands in making two or three hauls of the Sein, and found that the Herrings were come.

He informd me of my worthy Overseer Hardwick's lying since the 17th Ult. in Winchester of a Broken Leg.

Friday, 11th. Set one Plow to Work again in the Morning, the other about 10 oclock in the Clover Field.

Tryd the new Plow brot Yesterday; found She did good Work and run Very true but heavy, rather too much so for two Horses, especially while the G[roun]d was moist.

Abt. 11 oclock set the People to Hauling the Sein and by Night and in the Night catchd and dressd [] Barrels of Herring and 60 White Fish.

Observd that the Flood tide was infinitely the best for these Fish.

The Wind came fresh from So. Et. the day Cool, Cloudy till Noon, but very clear promising settled Weather afterwards.

Saturday, 12th. Hard No. West the whole day, very clear and cool.

Haul'd the Sein but without Success; some said it was owing to the wind setting of the Shore, which seems in some Measure confirmd by the quantity we catchd yesterday when the Wind blew upon it.

About 11 oclock finishd plowing the Clover Field. Abt. 1 Mulatto Jack began harrowing it with the wide Toothd Harrow and got half over the Field by night. Cook Jack went to Plowing in the 12 Acre Field.

Perceive my Barley and Oats to be coming up very thick and well.

Engagd 150 Bushels of Oats of an Eastern Shore Man and got 40 of them Land'd before I found they were damagd.

Sunday, 13th. Fine clear still morn'g. Abt. 10 oclock the Wind (what little there was before being So.) came East-erly blew fresh and clouded — towards evening the atmosphere was quite overcast and threatned Instant Rain.

My Negroes askd the lent of the Sein today, but caught little or no Fish. Note the Wind blew upon the Shore today.

Monday, 14. Fine warm day, Wind So'ly and clear till the Even'g when it clouded; No Fish were to be catchd to day neither.

Mixd my Composts in a box with ten Apartments in the following manner, viz: in No. 1 is three pecks of the Earth brought from below the Hill out of the 46 Acre Field without any mixture; in No. 2 is two pecks of the said Earth and one of Marle taken out of the said Field, which Marle seemed a little Inclina-ble to Sand;

3. Has 2 Pecks of sd. Earth and 1 of Riverside Sand;
4. Has a Peck of Horse Dung;
5. Has mud taken out of the Creek;
6. Has Cow Dung;
7. Marle from the Gullys on the Hill side, wch. seemd to be purer than the other;
8. Sheep Dung;
9. Black Mould taken out of the Pocason on the Creek side;
10. Clay got just below the Garden.

All mixd with the same quantity and sort of Earth in the most effectual manner by reducing the whole to a tolerable degree of fineness and ju[m]bling them well together in a Cloth.

In each of these divisions were planted three grains of Wheat, 3 of Oats and as many of Barley — all at equal distances in Rows, and of equal depth (done by a machine made for the purpose).

The Wheat Rows are next the Numberd side, the Oats in the Middle and the Barley on that side next the upper part of the Garden.

Two or three hours after sowing in this manner, and about an hour before Sunset I waterd them all equally alike with water that had been standing in a Tub abt. two hours exposed to the Sun.

Began drawing Bricks, burning Lime and Preparing for Mr. Triplet who is to be here on Wednesday to work.

Finishd Harrowing the Clover Field, and began reharrowing of it. Got a new harrow made of smaller, and closer Tinings for Harrowing in Grain — the other being more proper for preparing the Ground for sowing.

Cook Jack's plow was stopd he being employd in setting the Lime Kiln.

Tuesday, 15th. Sent Tom and Mike to Alexandria in my Boat for 20 or 25 Bushels of Oats. Went up myself there to Court,¹ after calling at Mr. Green's and leaving Mrs. Washington there.

Mr. Darrell not being there, the Execution of his Deeds were again put of.

Being informd that French,² Triplet³ and others were about buying (in conjunction) a piece of Land of Simon Pearson⁴ lying not far from my Dogue Run Quarter, I engagd him to give me the first offer of it so soon as he shoud determine upon selling it.

About 3 oclock fell a very heavy Shower of Rain attended with much Wind at So. wch instantaneously abt. an hour by Sun changd to No. West and blew for a few minutes most violently but soon after fell calm.

Good part of my New Fencing that was not Riderd was leveled.

Wednesday, 16. My Boat which the Wind and Rain prevented from returning yesterday came home this Morning. The Wind being at North West and Fresh.

Mr. Triplet and his Brother ¹ came this day to Work. Abt. 10 oclock Planted other Pine Trees in the Fencd place at the Cornr of the Garden, the first being broke, and much hurt by Creatures.

Began sowing my Clover, and got 4 Acres sowd, 14 lb. to the Acre. Harrowd it in with the fine toothd Harrow as light as I could.

Tryd my Roller wch. find much too light.

Sowd 69 Rows more of Lucerne which makes 87 in all.

Got my Cloaths, etca., packd up for my journey to Williamsburg tomorrow.

³ This evidence that, in going to Williamsburg, Washington often found it more convenient to cross the Potomac by Posey's Ferry into Maryland and then recross by Hoe's Ferry between Cedar Point and King George County, is convincing evidence of the horrors of the 'Potomac Path' between the Occoquan and Fredericksburg. The explanation is that that road made its way through the swamps at the heads of a series of estuary creeks. All the later memoirs of travel in northern Virginia are illustrated with tales of adventure on this stretch of an ancient highway. It is, indeed, only in the latest 'motor age' that modern engineering has made it secure for the wayfarer.

May 24th. Betty from Riverside Quarter came home sick and did not [get] again in a Condition to Work till the 13th July fol:

11th July, 1761 Edward Violette¹ compleated his Planting at Muddy hole Quarter — that is, he planted 25,000 hills on ye East side of the Plantn and replanted all.

The same day Jno. Foster at Dogue Run Quarter finishd his, having 40,000 to plant, besides replanting — 18,000 of which lying at ye south Extreame of the Plantn, 8,000 in ye Orchard abt. the House, and ye rest around the New Tobo. House on the East.

N.B. The Reason of noting this late Plantg. is to see how it succeeds.

Friday, July 31st. Sowd Turnips. Upon which fell a heavy Rain immediately, so that they were neither Rakd

¹ Overseer at Muddy Hole. Articles of agreement between Washington and Edward Violett, dated August 5, 1762, are in the Washington Papers in the Library of Congress.

nor harrowd in — the seed I mean. In a few days they came up very thick and well.

August 15th. Sow'd abt. half an Acre of English Turnip Seed adjoining to the above, and Raked them in the Ground being dry.

Sept. 8. Sowed 12 Bushels of Ray Grass Seed and 2 Bushels of Hop Trafoil in the Inclosure adjoining the Quarter. The Weather was extreamely dry when it was sowd. However their fell a slight Shower that day, as there did likewise the 10th, but not more than sufficient to lay the Dust thoroughly. The seed was Harrowed in with a Brush Harrow and it is apprehended buried too deeply [by] that means as none of it appeard till towards the last of the Month after a great deal of Rainy Weather, and then of none but the Ray grass. The other is not to be seen at this time, Oct. 23d.

Oct. 15th. Sowed a Bushell of Ray grass seed, a gallon of Clean Timothy Seed, and abt. half a Bushel in Chaff of Ditto on my Meadow at Dogue Run Quarter. Note, this ground at the time of Sowing was very moist, but no Rain fell upon it afterwards untill the 22d of the Month, when it rained hard for two days. This Seed was also harrowed in with Bushes. Clean Timothy seed supposed not to be good.

Oct. 22d. Began Captn. Possey's Barn with Turner Crump² and six Carpenters.

¹ From the diaries the record of Washington's attendance in the House of Burgesses is not easy to reconstruct. The account books of expenses, however, fill in for us. He attended the March and November sessions of 1761 and was paid by the Colony Treasurer, for his services at both sessions, on November 8th. He attended both March and November sessions of 1762 and was paid for same, November 16th.

² Turner Crump was hired in 1761 to look after the carpenters in Washington's employ. For this he received £30 a year and one sixth of the cost of work done. Posey's barn occupied the workmen thirty-eight days, being completed December 1st, and cost £97.18.7½. Crump remained in this employ until the middle of 1764, and in 1766 is found as a tenant of Washington. A copy of *Francis Price, The British Carpenter; or, A Treatise on Carpentry* (London, 1768), was in Washington's library and is now in the Boston Athenæum. (Ford.)

¹ The diary record is disappointing at times. For one reason or another Washington fails to note things that are of considerable interest. In June, 1763, articles of association were entered into for forming the Mississippi Company, and by-laws were adopted. An agent was to be sent to England to obtain a grant from the Crown. The charter members were: Francis Lightfoot Lee, John Augustine Washington, Anthony Stewart, Richard Parker, Robert Woodrop, William Flood, Robert Brent, William Beale, Jr., Henry Fitzhugh, Richard Henry Lee, Thomas Ludwell Lee, Adam Stephen, William Lee, Presley Thornton, William Booth, Thomas Bullitt, William Brockenbrough, William Fitzhugh, and George Washington. The story of the Company is soon told: Meetings were held in September, 1763, November, 1765, and December, 1767. Washington paid as his quota £25.13.9. Nothing was ever returned to the shareholders. It was a total loss, and no grant of land was obtained from the authorities in Great Britain.

There was an assessment levied May 29, 1768, of £16.18.9, and another meeting held in July, 1768, to no purpose. Washington's account with the Company is written off in Ledger B, on January 1, 1772, as a loss of £27.13.5. A copy of the rules and regulations of the Company, in Washington's handwriting, is in the Washington Papers, in the Library of Congress, under date of June 3, 1763.

15 *October*—1763 Memm.¹ From Suffolk² to Pocason

¹ This account of the Great Dismal Swamp and Washington's journey thereto is entered in pencil in the front of this 1763 diary under date of October 15th, and continued on the last pages of same. These pencil entries are very faint, almost indecipherable from having gradually rubbed off. The same account was recopied in ink by Washington, dated October 15, 1763, in the front of the 1764 diary, and this text, here given, is that of the ink copy. Such changes as were made were merely those of an improved diction and were too slight to justify noting. The journey was actually made May 25–28, 1763. Washington returned to Mount Vernon, from Williamsburg, in June, and again visited the Swamp in October, on his return to Williamsburg in that month. On this October visit, however, he does not appear to have gone into the Swamp as he did in May.

² County seat of Nansemond County, Virginia.

Swamp is reckoned about 6 Miles, and something better than 4, perhaps 5 miles from Collo. Reddick's ¹ Mill run (where the Road x's it). The land within this distance especially after passing Willis Reddick's ² is Level and not bad, the banks down to this (Pocoson) Swamp declines gradually, and the Swamp appears to be near 75 yds. over, but no water in it at present. Note. Willis Reddick's Plantn. seems to be a good one, the land being level and stiff. So does Henry Riddick's ³ above.

From Pocoson Swamp to Cypres Swamp (which conducts more Water into the great Dismal ⁴ than any one of

¹ Edward Reddick or Riddick, of Nansemond County. (*Toner.*)

² Brother of Edward, examined the Dismal Swamp in company with Washington and others in 1768. (*Toner.*)

³ Brother of Edward and Willis.

⁴ In 1763 Washington and five partners formed a company designated in his papers as the 'Adventurers for draining the Dismal Swamp,' a well-known part of Norfolk County, North Carolina. As early as 1728, William Byrd had recognized that the Swamp once drained would be profitable land and a stream or canal would be the natural course for water carriage of products from Albemarle Sound into Nansemond and Elizabeth Rivers, Virginia. The great cost hindered any action. Who constituted the Adventurers of 1763 cannot be definitely known, but Fielding Lewis, Burwell Bassett, and John Walker contributed, with Washington, to the expense of a preliminary examination. Washington visited the Swamp first in May, 1763, and again in October, and the 'Memorandums' printed above were made on this second visit. The reports were favorable, for £600 was voted in November to carry on the work. Application was next made to the General Assembly. On January 18th it was 'Ordered, That Leave be given to bring in a Bill to enable certain Adventurers to drain a large Tract of marshy Ground in the Counties of Nansemond and Norfolk; and it is referred to Mr. Richard Henry Lee and Mr. Lemuel Riddick, to prepare and bring in the same.' Two days later the bill was passed and in due time received the assent of the Governor and Council. The law is printed in *Hening*, viii, 18, and merely empowers the Adventurers 'to enter upon, and have such a free passage, and make such canals, or causeways, through the lands of any person whatsoever adjacent to the said Dismal Swamp, as may be conducive to the more effectual draining thereof, without being subject to the action or suit of any such persons for the same.'

In 1764 Washington and John Robinson supplied a number of slaves and in December £480 was raised to continue operations. The chief product appears to have been shingles. More money was raised — £300 in June, 1765, and £300 in May, 1766 — and in December of the latter year a first payment was made to the estate of Willis Reddick for land. The subscribers to this purchase were William and Thomas Nelson, — Waters, — Mead, Dr. Walker, Colonel Tucker, Mr. Farley, and Washington. Here the adventure became passive,

the many that leads into it) is about $2\frac{1}{2}$ Miles. This also is dry at present but appears to be 60 or 65 yards across in the wettest part.

The next Swamp to this is calld Mossey Swamp, and distant about 3 Miles near this place lives Jno. Reddick¹ on good Land; but hitherto from Pocason Swamp, the land lyes flat, wet, and poor. This Swamp is 60 yards over and dry.

Between Cypress Swamp, and the last mentioned one we went on horse back not less than $\frac{1}{2}$ a mile into the great Swamp (Dismal) without any sort of difficulty, the horse not sinking over the fetlocks. The first quarter abounding in Pine and Galebury bushes, the Soil being much intermixd with Sand but afterwards it grew blacker and richer with many young Reeds and few pines, and this it may be observed here is the nature of the Swamp in general.

From Mossey Swamp to a branch, and a large one it is, of Oropeak (not less than 80 yards over) is reckoned 4 Miles; two miles short of which is a large Plantation belonging to one Brindle, near to which (on the South Side) passes the Carolina line.²

The Main Swamp of Oropeak is about $\frac{1}{2}$ a Mile from this, where stands the Widow Norflet's Mi[ll] and luke Sumners³ Plantations. This Sw[am]p cannot be less than 200 yards across but does not nevertheless discharge as much water as Cypress Swamp.

At the Mouth of this Swamp is a very large Meadow of 2 or 3000 Acres held by Sumner, Widow Norflet,

though Washington visited the Swamp in November, 1766, April and October, 1767, and October, 1768. (*Ford.*)

¹ Brother of Edward and Willis Reddick. (*Toner.*)

² The Virginia-North Carolina line passes through about the middle of Dismal Swamp.

³ In Nansemond County, Virginia. Somerton, Virginia, is named after the family. (*Toner.*)

Marmaduke Norfleet,¹ Powel and others and valuable ground it is.

From Oropeak Swamp to loosing Swamp is about 2 Miles, and this 70 yards across.

From hence again to Bassey Swamp the lower Road may be allowed 2 Miles more, but this Swamp seems trifling.

And from Bassey Swamp to Horse Pool (which is the last, and including Swamp running into the Dismal) is about 2 miles more and 35 yards across only.

The whole Land from Pocason Swamp to this place and indeed all the way to Pequemen Bridge is in a manner a dead level — wet and cold in some places, sandy in others and generally poor.

This last named Swamp — viz the Horsepool — is called 9 Miles from the upper Bridge on Pequemin River; within a Mile of which lives one Elias Stallens; and within 5 miles is the lower Bridge — from whence to the bridge, or Ferry over little River is 15 measured Miles — the course [runs] nearly due South, as it likewise is from Suffolk to the said Bridge, the Dismal running that course from that place.

From little River Bridge (or Ferry) to Ralph's Ferry on Paspetank is (I think we were told) abt. 16 Miles, the course East or No. East; and from thence, if the ferry is not crossed, along up the West Side of the River to the Rivr. Bridge of the said Paspetank is reckoned — miles and about a No. Wt. course the Dismal bordering close upon the left all the way.

¹ Washington, Fielding Lewis, and the Dismal Swamp Company bought land from him. The name is usually given as Norfleet. In Ledger A, under date of November 5, 1768, Washington has entered: 'By Cash paid Mr. John Gibson on Acct. of Majr. Riddicks order in favr. of Marmaduke Norfleet for Land bot. of him £300.' The deed for this purchase appears to have been drawn by Edmund Pendleton for a fee of £1. The Company acquired in all about 40,000 acres of the best land in the Swamp. In his will, Washington claims about 400 acres as his possession then (1799), and six years before that, in 1793, he appraised his Swamp holdings at £5000.

Note. The above acct. is from Information only; for instead of taking that Rout, we crossed from Elias Stallens (one Mile above the upper bridge on Pequemin) across to a set of People which Inhabit a small slipe of Land between the said River Pequemen and the Dismal Swamp, and from thence along a new cut path through the Main Swamp a Northerly course for 5 Miles, to the Inhabitants of what they call new found land, which is thick settled, very rich Land, and about 6 Miles from the aforesaid River Bridge of Paspetank. The Arm of the Dismal which we passed through to get to this New land (as it is called) is $3\frac{1}{4}$ Miles Measured little or no timber in it, but very full of Reeds and excessive rich. Thro this we carried horses without any great difficulty.

This Land was formerly esteemed part of the Dismal, but being higher, tho' full of Reeds, People ventured to settle upon it and as it became more open, it became more dry and is now prodigious fine land, but subject to wets and unhealthiness.

It is to be observed here that the tide, or still Water that comes out of the Sound up Pequemen River flows up as high as Stallens, and the River does not widen much untill it passes the lower Bridge some little distance. At Ralph's ferry upon Paspetank the River is Said to be 2 Miles over, and decreases in width gradually to the bridge called River bridge, where it is about 30 yards across and affords sufficient Water for New England Vessels to come up and Load.

From what observations we were capable of making it appeared, as if the Swamp had very little fall — (I mean the Waters out of the great Sw[am]p) into the heads of these Rivers, which seems to be a demonstration that the Swamp is much lower on the South and East Sides, because it is well known that there is a pretty considerable fall on the West side through all the drains that make into

Nansemond River and the Western Branch of Elizabeth at the North End of the Dismal.

From the River Bridge of Paspetank to an Arm of the Dismal at a place called 2 Miles Bridge is reckoned 7 Miles, and a branch of Paspetank twice crossed in the distance.

This Arm of the Dismal is equally good and Rich like the rest and seems (as we were informed) 15 or 20 Miles Easterly, and has an outlet (as some say) into Curratuck Inlet by No. West River, or Tully Ck. but these accts. were given so indistinctly as not to be relied upon. However it is certain, I believe, that the Water does drain of at the East end somewhere: in which case a common causay through at the crossing place woud most certainly lay all that Arm dry.

From this place, wch. is 2 Miles over to the Carolina line, is about 4 Miles, and from them to No. West landing on No. West Rivr. a branch of Curratuck, is 3 Miles more.

Note. The Carolina line crosses the Swamp in a West direction, and is 15 Miles from the place where it enters to its coming out of the same near Brindle's Plantation. Flats and small Craft load at No. West landing.

To the great Bridge from No. West landing is accounted 12 Miles, the Lands good, as they are on all this (east) side and highly esteemed valued in general, according to the Proprietors own accts. from 20/ to 3 pr. Acre.; but we were told they were to be had for less. This Bridge is upon the South Branch of Elizabeth River and abt. 10 Miles from Norfolk and heads in the Dismal, as does likewise No. West River, Paspetank, little River and Pequemen.

From the Great Bridge to Collo. Tucker's Mills¹ is about 8 Miles, within which distance several small Creeks, making out of South Rivr., head up in the Dismal.

Farley's Plantation at the Forks of the Road is reckoned

¹ On the southwest branch of the Elizabeth River. (*Toner.*)

5 Miles from the aforesaid Mills near to which the dismal runs.

From hence to Robert's Ordy. is 6 Miles, and from thence to Suffolk 10 more. The land from the Great bridge to within a mile or two of Robert's is generally sandy and indifferent; from hence to Cowper's Mill they are good, and from thence to Collo. Reddick's Mean again.

Note. From the River B[ridge]; on Paspetank to the Great Bridge on South River the Road runs nearly North, and from thence to Farley's Plantation ¹ it seems to be about West from this again to Collo. Reddick's (or Suffolk) 10 Ms., and from thence to Pequemen B[ridge] and little Rivr. South as before men[tione]d the Swamp bordering near to the Road all the way round, in some place close adjoining and in others 2 and 3 Miles distant.²

¹ In Norfolk County, five miles from Tucker's Mills. (*Toner.*)

² 'Oct 21. By Expenses to the Dismal and back £2.7.2.' (*Ledger A.*)

While on the way home from this Dismal Swamp trip, Washington stopped in Williamsburg and collected his pay and traveling expenses for attending the session of the House of Burgesses of May, 1763.

29. Grafted as follows, viz.

8 Bullock Heart Cherry's: these are a fine large bla: Cherry, ripe in May, but not early. They begin the first Row in the Nursery next the Quarter, and at that end next to the Ray Grass Field, between these and the rest, a Stake is drove. Then, 8 of the finest early May Cherry, ending at another Stick. Then, 6 of the large Duke Cherry, ending at a stick likewise, all in the same Row — these three Cherry's from Collo. Mason's. From hence to the end of the Row are Cherry Scions for Grafting upon another year.

29. Grafted also, 12 Magnum Bonum Plumbs, beginning the 2nd Row at the end next Ray Grass and ending at a stake; from hence to the end of the Row are Plumb Scions for grafting upon another year. Note. The Magnum Bonum Plumb from Collo. Mason's.

In the 3d Row (begin'g next Ray Grass) the 1st, 4 and 5th trees are of a pretty early (June) pair from Collo. Mason's; the 2, 3, 6th and to the 15th tree Inclusive (at the end of which a stake is drove) are the bla: Pear of Worcester — from Collo. Mason — a large course Pear for Baking. then 10 Bergamy Pears from Ditto, ending at a Stake, these are a very fine fruit but Courser than most other English Pears.

29. Grafted also, the 3d Row aforesd.; continued then,

¹ Though there are no diary entries for the first two months of this year, the ledger of accounts shows that Washington was away from home twenty-two days in January, traveling and attending the session of the Burgesses. the side of the Hill near the Spring Path. Note, the Stocks were very Milkey.

6th. Grafted 10 Carnation Cherrys on growing Stocks in the Garden — viz. 5 of them in and about the Mint Bed, 3 under the Marella Cherry tree, 1 on a Stock in the middle of the border of the last square, and just above the 2d. fall (Note, this Graft is on the Northernmost fork) of Do.; on the Westernmost one is a Bullock Heart, and on the Easternmost one is a May Cherry out of the Cherry Walk. 1 other on a Stock just above the 2d. Gate. Note this is on the Northernmost prong; the other Graft on the said stock is of the May Cherry in the Cherry Walk.

15. Grafted 6 Early May duke Cherrys on the Nursery, begin'g at that end of the first Row next to the Lane — the Row next the Quarter is meant; at the end of this a Stake drove in.

15. Also Grafted joining to these in the same Row 6 of the latter May dukes — which are all the Cherrys in the Row. Also Grafted 7 Bullock Heart Cherrys in the last Row.

30. Grafted 48 Pears which stand as follows, viz. in the 3d Row beging. at the end next the Cherry Walk are 12 Spanish Pears; next to these are 8 Early June Pears; then 10 latter Bergamy; then 8 Black Pear of Worcester; and lastly 10 Early Bergamy. Note, all these Pears came from Colo. Mason's: and between each sort a Stick is drove down. The Rows are counted from the end of the Quarter.

30. This day also I grafted 39 New Town Pippins, which compleat the 5th Row and which Row are all of this kind of Fruit now.

30. The 6th Row is compleated with Grafts of the Maryland Red Strick, which are all of this sort of Fruit, and contains [] trees; so is the 8th Row of this Apple, also 54 in number and 20 in the 9th Row beginning next the Cherry Walk.

30 The 7th. Row has 25 Graffs of the Gloster white Apple which compleats this Row with that sort of Fruit.

¹ Built at Mount Vernon.

² Thomas Colvill. John and Thomas Colvill were sons of a tradesman at Newcastle-on-Tyne. Their paternal uncle accumulated a fortune as a butcher and retired to an estate in the country, where one of his daughters married Charles Bennet, second Earl of Tankerville. (The English pedigree of the Colvills is set out, with full transcripts of their wills, which were proved in Virginia, in *Archæologia Æliana*, second series, XIX, 115.)

John Colvill was trading in the Potomac in his own ship about 1730, and soon thereafter seated himself on land he called 'Clish' on the lower side of Great Hunting Creek. He served as Justice and Burgess and accumulated large bodies of land, chiefly in the Catoctin neighborhood, before he died in 1756, and left the bulk of his estate to the Earl of Tankerville. Meanwhile his brother Thomas had emigrated to Cecil County, Maryland, but on John's death removed to 'Clish' in order to administer on John's estate. There he died in 1767, having induced Washington to serve as one of his executors. In the end this duty brought to Washington a heavy burden of responsibility and much annoyance by reason of the claims upon him by the Colvills' English kin, who were induced to believe that a fortune was due them, which Washington was wrongfully withholding. (See the correspondence in *Archæologia Æliana*, second series, II, 120.)

3. At Home with Doctr. Rumney.²

4. Rid to Muddy hole, D: Run, and Mill Plantns.

5. Went into the Neck.

6. Rid to Doeg Run and the Mill before Dinner. Mr. B. Fairfax and Mr. Robt. Alexander here.

7. Fox hunting with the above two Gentn. and Captn. Posey. Started but catchd nothing.

8. Hunting again in the same Comp'y. Started a Fox and run him 4 hours, took the Hounds off at Night.

¹ The Neck Plantation was the name applied for a time to the land immediately above Little Hunting Creek. The Clifton purchase added to this in 1760 and the Neck then became a part of what was usually referred to as the River Farm.

² Dr. William Rumney, of Alexandria; came to Alexandria from England in 1763. He was employed by Washington on a fixed annual charge to give medical attention to the servants on the several farms. (*Toner.*)

9. At Home with Mr. B: Fairfax.
10. At Home alone.
11. Running some Lines between me and Mr. Willm. Triplet.
12. Attempted to go into the Neck on the Ice but it wd. not bear. In the Evening Mr. Chs. Dick,¹ Mr. Muse² and my Brother Charles came here.
13. At Home with them. Col. Fairfax, Lady, and
14. Ditto — Do. Colo. Fx and fam'y went home in the Evening.
15. At Home with the above Gentlemen and Shooting together.

19. Went to Belvoir with Mr. Dick, my Bro'r, and
20. Returnd from Do. by the Mill, Doeg Run and Muddy hole.

¹ Charles Dick, a merchant of Fredericksburg. (*Toner.*)

² George Muse of Caroline County. (*Toner.*)

³ The entries for gains and losses at cards and other play are as carefully entered in Washington's accounts as all other income and expenditure. (1765, Jan. 'By Cash set aside for Card money £5.')

Grouped throughout the years from 1772 to January 1, 1775, for cash won and lost at home, Fredericksburg, Williamsburg, Annapolis, and other places, the entries show a total loss of £78.5.9 and a corresponding gain of £72.2.6; a loss at play of £6.3.3 in four years.

21. Surveyd the Water courses of my Mt. Vernon Tract of Land, taking advant. of the Ice.¹

31. At Home alone all day.

¹ Washington took advantage of the river freezing over to survey his shore lines, the ice permitting him to work from the water at will, which greatly simplified the calculating.

² 'Towlston Grange' was the name of Bryan Fairfax's estate above Alexandria on Difficult Run. Later, after he had taken orders, Bryan Fairfax built a house about two miles southwest of Alexandria which he called 'Mount Eagle.'

³ Thomison Ellzey, an attorney of Fairfax County. (*Toner*.)

⁴ This seems to have been Francis Whiting, son of Henry Whiting of Gloucester, who eventually settled in Frederick and died there in 1775. His older brother had married an aunt of Mrs. George William Fairfax, and his son married a daughter of John Carlyle of Alexandria. (*Virginia Magazine of History and Biography*, xxxii, 131.)

⁵ This must have been either Robert or Philip, sons of Gerard Alexander (*William and Mary Quarterly*, ix, 253), who appear later as fox-hunting companions of Washington.

Governor's Council in 1773; President of the Committee of Safety in 1776; delegate to the Continental Congress, 1778-82 and to the United States Constitutional Convention. ¹ These letters and invoices were to Washington's factors in London, Robert Cary & Co., and to certain London tradesmen. To Cary he registered objection to what he thought precipitate sales of his tobacco at the prevailing London prices which were then below American prices. The goods ordered from Cary were hardware, seeds, dry goods, groceries, gloves, rope, and other plantation supplies. For Mrs. Washington he ordered, among other articles, two handsome stomachers, with sleeve knots made of ribbon, together with necklace strings, etc.; a green satin quilted coat 'not to exceed £3' and 'a handsome grane Winter Silk (but not yellow) not to exceed £10 to be bought of & made by Mrs. Harris into a sacque & Coat for a middle sized Woman.' He had ordered a chariot previously, and now asked to have it carefully packed before it was placed on shipboard, as he did not want it to arrive with any of the panels cracked or split.

From Charles Lawrence, a London tailor, he ordered a suit of clothes of 'fashionable coloured cloth . . . in the best taste to sit easy and loose as Cloaths that are tight always look awkward and are uneasy to ye wearer.' The suits formerly made had been too short. Washington wrote that he was full six feet high and 'not at all inclined to be corpulent'; he wanted 'the Breeches to be made long.' He ordered clothes for John Parke Custis and such other necessities as pocket-knives, fiddle-strings and a saddle. For Martha Parke Custis he ordered a 'smelling bottle,' scissors, gloves, and among other things 'a very handsome & fashl. Womans Hg. Saddle with Bridle & every thg. compl.'

From John Didsbury, London bootmaker, he ordered shoes for the family. Mrs. Washington's measurement was sent anew, as the last shoes did not fit well and were of poor material. For Miss Custis there were to be four pairs of leather pumps; six pairs of black Callemannen pumps; one pair of black satin and one pair of white satin.

[JUNE]

Observations

1st. Upon looking over my Wheat I found all those places which had been injurd by the March frosts extreamely thin, low and backward, having branched but little, and looking puny. Indeed, in many places the Ground was entirely naked; and where it was not, there was but too much cause to apprehend that the Wheat would be choaked with Weeds.

It was also observable that all my early Wheat (generally speaking) was headed and heading; the common wheat was but just putting out head; and the Red Straw

¹ The Reverend Jonathan Boucher (1738-1804) came to America in his youth, entered the ministry and officiated at various churches. He opened a school for youth in Caroline County and subsequently removed, with it, to Annapolis, Maryland. When Washington placed John Parke Custis under his care, on this date, the school was in Hanover County. Young Custis removed with him to Annapolis. (*Toner.*)

Wheat had but very little or no appearance of head and was lower than any of the other, although first sown. The heads of the whole appeared short and did not promise any great increase.

It was also remarkable that the Red straw Wheat had a great number of Smutty or blasted heads in the same manner it had last year, where they did put out.

8th. Carpenters went to getting the frame for my Barn at the House.

5. The Maryland hound Bitch lady took Forrester and was also servd by Captn, and refusd the Dogs on the 11th.

31. Went to Alexa. Church. Dind. at Colo. Carlyle's and returnd in the afternoon.

¹ George Russell, tenant on the Fauquier County land.

[JULY]

Observations.

2. finishd going over my Corn ground in the Neck — both with the Plows and Hoes.

4. Began to cut my Wheat at the Mill, but upon examination, finding it too green desisted.

Note, upon looking into my Wheat the Rust was observd to be more or less in it all; but except some at Doeg Run it was thought no great damage woud follow, as the Wheat was rather too forward.

5. Jonathan Palmer^{*} coming down last night, and examining my Wheat to day, was of opinion that some of Muddy hole field was fit, at least might be cut with safety. Accordingly began it, with himself, 3 other white Men, and 4 Negroe Cradlers, letting the grain lye upon the stubble abt. 2 days to dry.

8. Began to cut the Wheat at the Mill in the field Round the Overseer's House, which was cut and abt. 4 Acres in the other this day by 10 and sometimes 11 cradles, which were all that worked amounting in the whole to abt. 40 Acres.

9. Six and sometimes 7 Cradles cut the remainder of the field (abt. 28 Acres) on this side to day.

The Wheat at Muddy hole was (that is all that was cut down) got into shocks by 11 Oclock to day, and abt. $\frac{3}{4}$ of the field round the Overseer's House at the Mill.

9. Pulld the Flax at Muddy hole.

^{*} Jonathan Palmer, a practical farmer, later employed by Washington on the Mount Vernon farms. (*Toner.*)

11 and 12th. Pulld the Flax at home.

11. Got in the most of the Mill Wheat, but was prevented finishing by Rain. Three white Men (Cradlers) cut down abt. 10 or 12 Acres of Muddy hole Wheat.

12. Hands went to Muddy hole and finishd Harvesting the wheat there — that is cutting and securing it in shocks.

13. Some hands went and got the Residue of the Mill Wheat into the House, and all the Rest with the Cradlers went into the Neck and cut down and securd little more than 20 Acres of Wheat.

14. The hands from the Mill joind the others, and altogether finishd the Cut of Wheat (containing 50 Acres) at the Orchard point, great part of which was very thick, Rank and heavy cuttg.

15. Began cuttg. the Wheat next to it on the River side. Abt. One Oclock was stopd. by Rain, which continued the whole afternoon.

16. Finishd this cut and began the one next to the House. This day it also Rained and stopd the Harvest abt. an hour or two.

17. Dischargd three Cradlers, keepg. only Jonathan Palmer and Eliab Roberts.¹

18. Nine Cradlers at work, including the two white men.

20th. About 11 Oclock finishd Harvesting the Wheat in the Neck; that is cutting it down and securing it in shocks.

¹ In Ledger A, Washington has entered this payment as to Abner Roberts.

In the whole, allowing for the time lost by Rain, we were six days doing it.

20. About 2 O'clock in the Afternoon began to cut the Field at Doeg Run, containing 150 Acres, with 10 Cradlers — 3 of them sorry hands.

21. Finishd one quarter of the above field abt. 2 O'clock. Note this cut was in places greatly injured by the Rust.

22. About 2 O'clock finishd another Cut in this field, being of the same size of the last. This was also injured by Rust as well as by the frosts.

23. At 12 O'clock finishd the third cut of $37\frac{1}{2}$ Acres at Doeg Run and clapt into the last one.

25. Finishd the last cut abt. One O'clock this day (Monday) part of wch. was much hurt by the Rust, and cut down the small piece at home and securd it.

Note. From the most accurate experiments I could make this year upon Wheat siezd with the Rust before it is fully formd and beginning to Harden, it appears to be a matter of very little consequence whether it is cut down so soon as it is siezd with this distemper (I mean the parts of the field that are so) or suffered to stand; for in either case the grain perishes and has little or no flower in it. That indeed wch. is suffered to stand may gain a little, and but a little, in respect to the grain, and the other in respect to the straw, so that I think it is nearly equal wch. of the two methods is followed.

Note also — from this year's experiments, it appears certain that Wheat may be cut down (suffering it to take a day or two's Sun) much sooner than it generally is. I took Wheat of three differt. degrees of Ripeness, i. e., some

whose straw and head was green (but the grain of full size and Milky); some whose straw from the upper joint was colouring; and some that the straw from the said joint was cold, but the Knots (at the joints) Green, and observd after they had lain 2 or 3 days in the sun that the grain of the first was but little shrunk, the 2d scarce perceptable, and the last plump and full, by wch. it evidently appears that to cut Wheat Knot green is not only safe but the most desirable state it can be cut in; and that there is a large q[uan]ti[ty]. The question is, whether it may not be better to begin while the Wheat is colouring from the upper joint, as the grain will loose but little (if any) than to cut it in an overripe state, when it may loose a good deal more by shattering. For my part I am clear it is better to cut it green and shall have no reluctance to practice where the whole cannot be cut at the exact period one woud choose it.

26. Began to cut my Timothy Meadow.

30. finishd Do. and got into Stacks without damage.

About the 27 and 28 Sowed some Turnep Seed in Corn Ground at Morris's — that is at Doeg Run Plant.

Memm. on the 30th of this Month I agreed with Jonathan Palmer to come and Work with my Carpenters; either at their Trade — Coopering — or, in short at anything that he may be set about. In consideration of which, I am to pay him £40 pr. Ann; allow him 400 lbs of Meat and 20 Bushels of Indian Corn. I am also to allow him to keep two Milch Cows (one half of whose Increase I am to have), and to have Wheat for which he is to pay. He is to be allowed a Garden and I am also to take his Waggon at £17, if he brings it free from damage, and it is no older than he says — that is about a 12 Month. Note, he is to be here as early as possible in April — if not in March.

² In 1746, John Colvill and John Minor sought to establish a town at the head of Hunting Creek, in rivalry to the 'Belhaven' which was then growing up about the Hunting Creek warehouse on the Potomac. Bidding for the support of Lord Fairfax, they gave this proposed town the name 'Cameron.' Although their plans were urged upon the Assembly in 1749, when the petition to establish Alexandria was under consideration, they failed. Though there was never anything on the site but the ordinary, or tavern, marked on the 1755 edition of the Fry and Jefferson map, the name persisted because it marked the junction of all the roads leading into Alexandria. Races and musters of the militia were held there and the Truro Vestry made it the point of departure of processionings. At the end of the century the 'Cameron Mills' perpetuated the tradition, and the waters which actuated those mills are still marked 'Cameron Run' on the modern map.

Observations in August.

1st. Began to tread out Wheat at the Mill. Also began to draw it in, in the Neck.

¹ From this point on the weather record is omitted as unessential. Enough has been printed to show the character of the entries and, only where Washington noted the weather in the regular diary record and the notation seems to have some bearing on the other matters recorded, will it be reproduced. In the later diaries Washington incorporated the weather, at times, with the daily entry.

4. Began to draw it in (that is to carry it from the field on this side the Run over to the Barn) with only my Ox Cart at Doeg R[un.]

5. Began to cut my Timothy Seed there. Getting Wheat in at Muddy hole.

19. Went to Court with Colo. Burwell, &ca.

¹ The 'New Church' here mentioned was that chapel of ease of Truro Parish which was built on the Ox Road above the springs of Pohick Run, near the present-day Fairfax Court-House. It was usually called 'Payne's Church,' as Edward Payne, a Truro vestryman, whom Washington visited on this occasion, built the church under contract with the Truro Vestry, in 1766, at a contract price of £579. The interesting history of this church is told by Dr. E. L. Goodwin in his edition of Philip Slaughter's *History of Truro Parish* (Philadelphia, 1908).

¹ The first of the succession of Peter Wageners came to Virginia in 1703 as a parson, but soon returned to England to live out his life in a comfortable preferment at Stisted in Essex. His son, the 'Major Wagener' of the diary and the second Peter, was educated in the law, emigrated to Virginia in 1739 to seek his fortune, and duly assured his future by marriage into the politically important colonial family of Robinson, of the Rappahannock. That interest soon procured his appointment as clerk successively of Prince William and Fairfax, when he removed to the Potomac and acquired the lands on the upper shore of the Occoquan, on which in 1756 he established the town of Colchester.

The 'Mr. Wagener' here named as a fox-hunting companion of Washington was the third Peter (son of 'Major Wagener'), who married a daughter of Daniel McCarty, and on his father's death in 1774 succeeded him, not only in the Truro Vestry, but as clerk of Fairfax.

The Thomas Wagener who was a lieutenant in the Virginia regiment in 1754 (*Virginia Magazine of History and Biography*, 1, 279) was probably a brother of the second Peter, with whom he has been confused.

² This was Richard Chichester. About 1702 his great-grandfather, a cadet of the Chichesters, of Widworthy, County Devon, emigrated to Lancaster County, and there this Richard was born, his mother being a Ball. After a first marriage to a Gordon, followed by residence in Fauquier, Richard Chichester married in 1766 as his second wife a daughter of Daniel McCarty and removed to Fairfax, where he died, 1796.

His second son, Daniel McCarty Chichester (1769-1817), is recorded to have been born February 27, 1769, so that it was for him that Washington stood godfather, as recorded in the diary, June 11, 1769. For this family see *Hayden*, 93, 106; *Virginia Magazine of History and Biography*, xxi, 250.

FEB[RUARY]

Remarks and Observations.

Killd a Wether which waide alive, being a middle sized one

.....	103 lbs. Gross		
When dressed....	60 lbs. nett	a 3d.	15.0
	5½ Tallow	7½	3.5
	3 Wool	15.	3.9
	Skin		1.3
			<u>£1.3.5</u>

Note. The above, at a low estimate, appears to be no more than the worth of a fat wether — it being imagin'd, that woud average the above weight, and 3d. pr. lb. is a low price at this Season of the year.

25. Finish'd the New road, leadg. across Hell hole,¹ to the House.

16. Ditto, Ditto, Ditto.

¹ This Robert Ashby (1710-92), the second son of that Thomas Ashby for whom Ashby's Bent in the Blue Ridge was named, had been a marker for Washington during the survey in the Shenandoah Valley in 1748 and now lived in his father's Fauquier house at the crossing of the Winchester road over Goose Creek. The house still stands near the modern village of Delaplane, and was long ago agreeably depicted by 'Porte Crayon' in his *Virginia Illustrated*. For the Ashbys and the history of this house see *Fauquier Historical Society Bulletin*, 1, 150.

² The lands here referred to were those of George Carter, youngest son of 'King' Carter. Under his father's will, George inherited 21,000 acres in several tracts lying in Prince William, Fauquier, and Frederick, and by his will dated January 2, 1741/2, ordered them to be sold. In 1744 (*Henning*, v, 300) the Assembly appointed trustees to make this sale, and after they were all dead in 1766 appointed (*Henning*, viii, 215) as their successors Robert Burwell, George Washington, and Fielding Lewis. It was on this business that Washington surveyed the Carter lands in Fauquier (some of which he bought in himself) in the spring of 1769. 'By Exps. at Morgans 2/. . . . Do in Surveying 4/6.' Remarks and Observations.

2. Began to List Corn Ground at the Mill.
6. Began to List Do. at Muddy hole.
10. and from that to the 18, laying of Lotts and leasing them in Fauquier and Loudoun Countys on the Land which I bought of Carter's Estate.¹
20. And from that to the 23d doing the like on my Land at Bullskin in Frederick County.

¹ The Carter estate comprised land in many counties, Charles City, Hanover, Lancaster, Frederick, and others, besides the two mentioned above by Washington. In all the estate totaled some one hundred and fifty thousand acres of valuable land.

24. Returnd home from my journey to Frederick, etca., and found that the Hound Bitch Maiden had taken Dog promiscuously; That the Bitch Lady was in Heat and had also been promiscuously lind, and therefore I did not shut her up; That Dutchess was shut up, and had been lind twice by Drunkard, but was out one Night in her heat, and supposd to be lind by other Dogs; That Truelove was also in the House, as was Mopsy likewise (who had been seen lind to Pilot before she was shut up).

26. The Bitch Musick brought five Puppies, one of which being thought not true was drown'd immediately — the others, being somewhat like the Dog (Lockwood of Mr. Fairfax) which got them, were saved.

27. The Hound Bitch Countess brought 7 Puppies and was with her Puppies carried away the next day by Alexr.

31. To this time Mopsy had been lind several times by Lawlor as Truelove had been by Drunkard; but as this Bitch got out one Night during her Heat, it is presumable she was lind by other Dogs, especially Pilot the Master Dog and one who was seen lying down by her in the Morning.

Began about the 28th to Plow behind the Quarter for oats and grass seeds.

¹ The original patents for the neck between Dogue Run and Little Hunting Creek, which ultimately became Mount Vernon, were taken out in 1657 by Robert Castleton and Henry Vincent and from them passed in 1660 to the first Richard Lee and Peter Jennings. Because Lee and Jennings failed to comply with the patent conditions as to 'seating,' Nicholas Spencer and John Washington included their claims in a survey of 5000 acres made in 1669, and in 1675 perfected the title so asserted by securing a grant from the proprietors of the Northern Neck. This grant, which was dated March 1, 1674/5, and is now exhibited at Mount Vernon, was the 'Spencer and Washington patent' to which Washington here refers as the foundation of his own title.

² Buchanan, or Buchanan, of Maryland?

³ William(?) McGachin, a sea-captain. In 1763, and for some years previous, he commanded a convict ship, a duty he greatly disliked. Washington recommended him to his London merchants, Robert Cary & Co., for the command of one of their ships plying between London and the Potomac, 'because a personal acquaintance with Mr. McGachin added to his general good Character enables me to introduce him to you as a Gentleman of knowledge, diligence and integrity.' ¹ Land belonging to Mrs. Washington's estate. There is no mention of this proceeding in the Journals of the Virginia Burgesses; but it was probably connected with the bill passed at the November session, 1769, which was designed to oblige owners of mills, hedges, or stops on certain rivers to make openings or stopes for the passage of the fish.

² Thus briefly does Washington note the happenings of one of the momentous days in Virginia history. The Burgesses having agreed upon an humble address to the King, Governor Botetourt disapproved and dissolved the legislature. This same day the dismissed Burgesses reassembled in the Apollo Room of the Raleigh Tavern and formulated the Virginia Non-Importation Association. Washington was on the committee that drew up this Association. May 18. 'By Anthony Hays Acct. 32/9d. and Club at Do. arising from the Associators meetg. there 20/.' 'By the Farmers Letters 3/6d.' (*Ledger A.*) In Virginia as in the other Colonies the same situation existed, of emphatic opposition to Ministerial measures going hand in hand with sincere protestations of loyalty. An interesting picture is presented by the actions of the recalcitrant Burgesses in agreeing to the Non-Importation Association and, immediately thereafter, drinking toasts to 'The King'; 'The Queen and Royal Family'; 'Lord Botetourt'; 'A Speedy and Lasting Union between Great Britain and her Colonies'; 'The Constitutional British Liberty in America'; and, among others, a toast to 'The Farmer,' meaning John Dickinson's *Letters from a Farmer in Pennsylvania to the Inhabitants of the British Colonies*, which had first appeared in a Philadelphia newspaper in 1767. Washington paid 3s. 6d. for the pamphlet edition two years later.

³ Despite the Governor's action in dissolving the Burgesses and their defiance

20. left Williamsburg on my return home. Dined at Colo. Bassett's and stayd the rest of the day there.

21. Crossd over to my own Plantation. Dined at Todd's and lodgd at Port Royal.

22. Reachd home after going as far as Colo. Harrison's¹ with a view of crossing through Maryland, and being disappointed was obl'd to come up the Virginia side. Found Mrs. Bushrod,² Mrs. W. 29. At home all day.

30. Rid to Muddy hole about 11 O'clock and returned to Dinner.

31. Set of with Mrs. Washington, and Mr. Magowan for Towlston, in order to stand for Mr. B. Fairfax's 3d Son,¹ which I did, together with my Wife, Mr. W. Washington and his Lady.

[MAY]

Remarks and Occurances.

22. Returnd home from Williamsburg, and found my Wheat much better in general than ever it was at this Season before, being Ranker, better spread over the ground, and broader in the Blade than usual.

It was also observable that in general the head was shot out, and in many places in Blossom.

27. Finishd breaking up my Corn Ground at the Mill.

29. Mopsey the Hound Bitch and Truelove another Hound brought 12 Puppies — that is Mopsey had five and the other Seven.

30. Finishd breaking up my Corn ground in the Neck with my Plows.

Remarks and Occurances.

- 2d. Finishd breaking up my Corn gd. with the Plows at Muddy hole.
- 3d. Finishd going over the field abt. the Overseer's House at the Mill with the Hoes.
6. Went over my plowed Corn at Doeg Run a 2d. time with the Plows
7. Rid into the Neck, and went all avr. my Wheat there, which in general I think very good; and at this time free from any appearance of Rust. I think it is observable that the Wheat on the River side appeard to be better head

¹ Servant.

than the other, tho not superior in look in any other respect to many other parts of the field.

8. Got over the little field at the Mill with the Hoes, commonly called the Clover patch.

9. Finishd plowing the Field round the Overseer's House at the Mill a 2d time.

This day I went through all my Wheat at the Mill and find it very likely and promising, and entirely free from any appearance of Rust, the head beginning to expand by the plumping of the grain.

10. Got over my Corn Ground at Doeg Run Quarter a second time with the Plows and began it a third time with the Harrows.

Also got over the old ground Corn at the same place with the Hoes.

12. Went over all my Wheat at Muddy hole and at Doeg Run and found it at both places good and promising, and entirely clear from every appearance of Rust. I also found that the Straw at the lower joints was turn'd and turning, yellow; that the blade was putting on a yellowish Hue; and that the head was in general grey and turning yellowish, the grain being mostly plump and ye departments strutting with the Ripening Corn.

13. Went through my Wheat in the Neck, and found it also clear of the Rust, and in much the same state of that of Muddy hole and Doeg Run as describd yesterday.

This day I put on board my Schooner from the Neck 500 Bushels of Indian Corn for Mr. Ross.

17. Finishd going over my Corn at Muddy hole with the

Hoes. Also went over my Corn at the Mill this day with the Hoes.

22. Went over my Corn at the Mill the Second time with the Plows, that is finishd doing so, and began with the Harrows in the field about the Ovs. House.

24. Finishd going over my Corn in the Neck with the Hoes, as also with the Plows the Second time.

24. Workd over all the Swamps (North of the Meadow) at Doeg Run with the Hoes.

24. Jonathan Palmer, who came to the House that was provided for him last Night, began Working with my People this day.

27. James Cleveland¹ spaed the three hound Bitches Musick, Tipsey, Maiden, also two hound puppies which came from Musick and Rockwood. Note — Ye Bitch Tipsey was going into heat, but had not been lind.

27. Began in the afternoon to cut my Wheat at Doeg Run Quarter with Jonathan Palmer and 6 other Cradlers.

28. Elijah Houghton joind the above at the same place. The whole made but a bad day's work. They complain of the Straw cutting very hard.

Note. The Wheat this year appeard different from what it did last year, the straw being quite changd (even the Knobs and joints, nearly so) when the Grain was not hard. On the Contrary last year the grain was tolerably hard, whilst part of the Straw retaind a good deal of green.

¹ James Cleveland, often employed by Washington. Lived in the Shenandoah Valley and was with the party sent by Washington to improve his Ohio lands in 1775.

29. Eliab Roberts, William Acres, Joseph Wilson and Azel Martin, set into work to day and I think worked but indifferently. The Wheat on the other side the Run was not cut down. Michael, Davy, Schomberg and Ned Holt, were left with Morris's People to finish it.

30. The Rest of the Cradlers and hands went into the Neck and began there abt. 10 Oclock, Making a poor days work; having cut only that piece of New Ground containing 14 Acres next the widow Sheridine's.

JULY

Where & how my time is Spent.

1st. Went into the Neck to my Harvest People and returnd to Dinner

2. At home all day — the Captn. of ye Bermudian¹ dining here.

3. Rid round to my Harvest field in the Neck, with Mrs. Washington, Patcy, and Mill[y] Posey.² Returnd to Dinner.

4. Went over into the Neck again, and returnd to Dinner, with the Capt. of the Bermudian.

5. Went into the Field in the Neck and returnd to dinner. The Captn. dind here ag[ai]n.

6. Went into my Harvest field in the Neck. On my Re-

¹ Captain Burch, of a vessel from Bermuda. Washington purchased from him 562 barrels of salt, for curing and preserving fish, and a quantity of lime amounting in all to £35.7.6.

² Amelia (Milly) Posey, daughter of Captain John Posey. She seems to have been considered in the light of a ward of Mrs. Washington.

turn to Dinner found Mr. Chichester, his wife, and Nancy McCarty¹ here, who stayd all Night.

7. The above Company going away after Breakfast I went over into ye Neck and returnd to Dinner.²

8. Rid to Muddy hole in the Afternoon, where we began to cut Wheat.

9. At home all day.

10. Rid to Muddy hole in the forenoon. After dinner rid to Captn. Posey's where Mr. Jno. West³ was Surveying; and then to my Wheat field again. Sally Carlyle came in ye Afternoon.

11. Rid to Muddy hole and returnd to Dinner. Found Mr. and Mrs. Ramsay and Mr. Stedlar here.

12. Mr. and Mrs. Ramsay and Mrs. Washington rid with me to Muddy hole and retd. to D[inne]r.

13. Mr. and Mrs. Ramsay and Sally Carlyle went away. I rid to the Mill where I was cutting of Wheat, and returnd to Dinner, where I found Mr. Frans. Thornton and my Br. Charles and his Son,⁴ with whom rid out after Dinnr.

¹ A daughter of Captain Daniel McCarty.

² Ledger A of this date shows that the harvest hands, who worked so poorly as to merit mentioning in the diary (June 29th and 30th, *ante*), were, in addition to those Washington named in the June 29th entry, Elijah Houghton, Thomas Williams, Thomas Pursel, John Pursel, and young Palmer. They received five shillings a day and three dollars each for coming.

³ This was John West, Jr., of West Grove. Washington also records his surveying with him in April, 1770, and his visits to him in August, 1770, on the business of the Colvill estate.

⁴ George Augustine Washington, son of Charles, then about six years old.

14. Rid out in the fore and afternoon with my Brothr. and Mr. Thornton to ye Wheat field.

15. At home all day. Mr. Thornton and my Brothr. and Son Set of homewards after Dinner.

16. At Home all day. In the Morning Mr. Vale. Crawford came here, and in the afternoon Colo. Fairfax and Lady.

17. Went up to Alexandria to Court with Colo. Fairfax and returnd in ye Evening with him and Mr. Magowan.

18. Colo. Fairfax and Lady went home and I to Court again. Returnd in the Evg. with Colo. Richd. Lee.¹

19. Again went up to Court and return in the afternoon.

20. At home all day. Majr. Waggener came here to Dinner and stayd all Night.

21. At home all day. Majr. Wagener and Mr. Magowan went away after Breakfast.

22. At home all day.

23. Went to Pohick Church and returnd to Dinner. Mr. Magowan w[ith] us.

24. Went to an intended vestry at ye cross Roads — but disappointed of one by Mr. Henderson's² refusg. to act.

¹ Richard Lee (1726-95), sometimes called 'Squier' Lee. His activities and fame were purely local. He was the son of Henry Lee and Mary (Bland) Lee and served many times as a member of the Virginia Legislature. In his old age he married his first cousin, Sally Poythress, then only sixteen years old. She was a granddaughter and he a grandson of Richard Bland.

² Alexander Henderson, of Colchester, who refused to act when chosen a vestryman in 1769. A few years afterwards he did not decline and was a member of the Pohick Vestry in 1773.

25. At home all day writing Letters and Invoices for England.¹
26. Rid to my Meadow at ye Mill and to Doeg Run after Dinner.
27. Went up in the afternoon to Alexa. with Mrs. Washington and Patcy Custis. Mr. Magowan returnd to Maryland.
28. Rid into the Neck and to Muddy hole.
29. At home all day posting my Books.
30. At Home all day preparing for my journey to the Springs.²
31. Set out with Mrs. Washington and Patcy Custis for the Frederick Springs. Dind at Wm. Car Lains,³ and lodgd at Mr. Chs. West's.⁴

¹ A long letter and several invoices of goods needed were written to Robert Cary & Co., London. Among the usual supplies for the plantations was included a rather formidable list of books for Master Custis, which included Greek and Latin classics as well as textbooks of geography, mathematics, and history. In regard to the supplies Washington directed that no articles in his list were to be sent if they were taxed by Parliament for raising a revenue in America. He had, he wrote, signed an association and was 'fully determined to adhere religiously to it.' On this day he also wrote a short business letter to Capel and Osgood Hanbury.

² The Warm Springs, now Bath or Berkeley Springs, in Morgan County, West Virginia, to which Patsy Custis was taken in hopes of benefiting her complaint, which seems to have been a form of epilepsy. There was no improvement derived from the Springs, and Washington's record of her seizures, entered upon the margins of the almanac pages for the months March to September, showed the malady to be increasing in violence.

³ Carlain's (the name is now spelled Carlin) was west of Mount Vernon, on the road to the Blue Ridge Mountains.

⁴ West's Ordinary, the ancient landmark which is marked on the 1755 edition of the Fry and Jefferson map and where Washington frequently lodged from 1748 to 1776, still stands at the head of the Bull Run Mountain at the junction of the road from Colchester to William's (Snickers') Gap with the Carolina road

[JULY]

Remarks and Occurrences.

1st. Thoms. Williams, and Thomas Pursley set into Cradling to day. The Grain being wet, there was no tying it up till about 10 O'clock, nor did we attempt to Stack or House any till the afternoon, and then old Palmer and others thought the straw and grain rather too Green.

2. Sunday.

3. Finishd Stacking what was left out on Saturday; also finishd cuttg. and getting to the Stacks, all the Wheat that was in the half Cut on the River by Dinner and in the afternoon went into the half of the other cut adjoining. and got about half of it cut down and Stackd.

4. Finishd Cutting, getting in, and Stacking this half by Dinner and finding our progress very slow, and that the Cradlers were too many for the other workers, we reduced them to Ten after Dinner; after which, about one half of the other half of the Second Cut was got in, and securd, the work all going on well together; but then the Wheat was thinner; which enabled the Rakers and carryors to keep up better.

5. Finishd the other half of the Cut between Eleven and 12 (that is Cutting, Binding, and Stacking), and went into the half of the 3d. Cut by the gate just at 12 o'clock with all hands. A Dog coming here which I suspected to be Mad I shot him, Several of the Hounds running upon him may have got bit. Note the consequences.

leading from the Potomac at Noland's Ferry to the Rappahannock at Norman's Ford. It was established by William West and carried on by his son Charles. It does not appear what, if any, relation these Wests of Loudoun bore to the Fairfax County family of that name. (See also notes for diary entries for April 10, 1748, and February 23, 1769, *ante*.)

6. Finishd the half cut by the Gate before breakfast, and the rest of the other half afterwards; just getting into the last cut before Sunset.

8. Finishd the whole field about one clock, and began about five oclock to cut in Muddy hole field.

12. Finishd cutting and Stacking Muddy hole Wheat, and dischargd Elijah Houghton, Thomas Williams, and William Acres.

13. Went to cutting the Wheat at the Mill with the Residue.

15. Finishd at Do. by Breakfast time and went from thence to Doeg Run Plantation and cut the Small field on this side the Run before Dinner.

Note. From the remarks and observations made this year in Harvesting my Wheat, it appeard evident that 10, and sometimes 9, Cradlers (according as the Wheat was thick or thin) were full suff. to keep the rest of my hands employ'd; and it likewise appeard, that it was evidently to my advantage to employ my own hands to Cradle the Wheat rather than to hire any at all, as these may be got for 2 Shillgs. or half a Crown a day, whereas the Wages of the White Cradlers are exorbitantly high. But if Wheat of different kinds are sowed so as to prevent the Harvest coming on at once, it is my opinion that hirelings of all kinds may be dispensed with. The Rakers in the generality of the Wheat is sufficient to Rake and bind after a Cradle, and the rest of the hands can manage (after the water Carriers and Cooks are taken out) to get the Wheat into conven[ien]t places and attend the Stackers. Two, and sometimes three, Stackers will Stack as fast as it is cut and I am of opinion that two brisk hands is sufft. for this purpose.

From experience it has been found advantageous to put the Cradlers and their attendants into at least 3 Gangs. The Stops and delays by this means are not so frequent, and the Work much better attended to, as every Mans work is distinguishable, and the whole Cradles not always stopping for every little disorder that happens to each respective one, as is the case when they cut altogether.

17. Began my Hay Harvest at Doeg Run Plantation.
21. Began to Sow Wheat at Muddy hole Plantation.
22. Began to Sow Ditto at Doeg Run Quarter.
28. The young Hound Bitch Chaunter was lind by Lord Fairfax's Rockwood (who appears to have the Mange) twice this day.
28. Got over my Corn in the Neck with the Plows the 3d time.
29. Chaunter again lind with Rockwood. The black bitch Countess appeard to be going proud was shut up in order to go to the same Dog.
30. Chaunter Lined again — by Rockwood.

AUGUST

Where and how my time is Spent.

- 1st. Set out from Chs. West's. Dined at Snicker's¹ and got to Mr. Wr. Washington's abt. 5 Oclock.

¹ Captain Edward Snickers, who had seen service in the French and Indian War. In the Revolutionary War, Washington offered him the position of Wagon-Master-General, which he did not accept, probably because of his advanced age. Snickers' Gap in the Blue Ridge was named from him. Its name has now been changed to Bluemont.

2. Remained there all day. Mr. Washington returned from Winchester in the Afternoon.
3. At Mr. Washington's all this day also.
4. Still at Mr. Washington's. Mr. Thruston¹ and Lady dining there. Note. I was detain'd this day and yesterday by ye waggon's (which had my Goods in for ye Springs) loosing 2 H[orse]s.
5. Prosecuted our Journey to ye Springs (by Jacob Hite's).² Bated at Opeekon — and lodged at Joshua Hedge's.³

8. Sent my Horses to the above place with the Coachman.
9. Mr. Barclay dined with us and Mr. Maze.⁵

¹ Charles Mynn Thruston.

² In the Shenandoah. In crossing the Blue Ridge at Williams' Gap, later called Snickers' Gap, Washington must have crossed the Shenandoah at Williams' Ferry which later became known as Castleman's Ferry. Hite was a relative of Jost Hite who came into the Valley from Pennsylvania and, at an early date, disputed Lord Fairfax's claim to a portion of the Northern Neck lands.

³ 'Dinner &ca. at Herefords. 8s. Lodging &ca. at Hedges 11s.' (*Ledger A.*)

⁴ The first hours at the Springs were full of activity. The house wherein Washington and his party lodged needed repairing, and he ordered the erection of an arbor for further comfort; arrangements were made for supplies of meat, poultry, eggs, butter, and vegetables; a baker was found, and a blacksmith discovered for sundry repair work.

⁵ Robert Mease, of Alexandria, later Mayor of that town.

16. Horses returnd from carrying Colo. Loyd. Mr. Barclay, Mr. Goldsbury,⁵ Mr. Hardwick, Mr. Jno. Lewis and Mr. W[arne]r Washington Junr. dined here.
17. Mr. Jno. Lewis and W. Washington dind here. We drank Tea with My Lord.
18. Mr. Barclay, Mr. Woodrow and Mr. Wood⁶ dined

¹ The combination of names Barclay and Cadwallader (August 14) suggests the possibility of these individuals being members of the well-known families of those names in Pennsylvania. Berkeley Springs was a favorite resort with Pennsylvanians as well as Virginians; but it was not an easy place to reach for either.

Plowed in, and the end of the Field next to Abednego
Adams' Harrowed in the following manner, to wit. five
Ridges, or Lands of eight feet each, harrowed, five others
not harrowed; then 5 Harrowed, and five not, so for a good
way. This was done to see which method was best, that is
whether the Wheat woud thrive better in the one way than
the other and whether the Land was not preservd more by
Harrowing than lying in Furrows.

[†] Abednego Adams Farm was below and adjoining the Posey land, or Mount
Vernon's 'Ferry Farm.' (*Toner.*)

29. Dined at Belvoir (with J. P. Custis) and returnd in the afternoon.

¹ John Semple was an intelligent Scot who in 1765 succeeded John Ballendine in the operation of the Occoquan Mills. He came to see Washington on this occasion, as again several times during the succeeding months, to interest him in his 'Proposals for clearing the Potomac,' based on the contemporary Scottish school of capitalistic political economy. His plan was that a company should be organized to improve the river by subscription of 'a stock,' profits on which might be assured by the privilege to collect tolls. (See the documents in *American Historical Review*, April, 1923, xxviii, 497.) This was novel doctrine in Virginia in 1769, but it seems to have convinced Washington: at all events, he introduced a bill into the Assembly at the ensuing session to carry out Semple's proposals. The visits of Ballendine and John Mason to Mount Vernon, and Washington's own visit at Georgetown at this time, were doubtless on this business. The bill of 1770 failed, but in 1772 Washington renewed his efforts and secured its enactment, whereupon Ballendine was sent to England to solicit subscriptions to the company. Although nothing came of the first plans, they were the beginning of the 'Patowmack Company' to which Washington was to devote his energies on his return to Mount Vernon in 1783.

30. Went a hunting, and having found a Deer by Piney Cover it run to the head of Accatinck before we could stop the Dogs. Mr. Peake dined here.

14. Dined at the Speaker's and went to Bed by 8 O'clock.

15. Dined at the Treasurer's and went to a meeting of the Association at which till 11 O'clock, then wt. to Bed.²

¹ In King William County.

² The difficulty in planning an Association that would meet the approval of the majority is rather obvious from Washington's notes. The old Association was not generally adhered to, and, while the need of a new one that would hold was evident, enthusiasm waned wherever the restrictions pressed heavily. A new agreement was finally reached and published June 22d. Washington wrote to George William Fairfax respecting it, June 27th: 'A new Association is formed much upon the old plan, but more relaxed, to which the merchants then in town acceded. Committees in each County are to be chosen to attend to the importations and see if our agreements cannot be more strictly adhered to.' Several copies of this 'Association,' with an added agreement in Washington's handwriting, are in the Washington Papers, Library of Congress. They bear different manuscript signatures of various inhabitants of Fairfax County. See note to entry for June 22d, *post*.

⁴ June 20. 'By Play Tickets £1.0.0.' (*Ledger A.*)

⁵ In his accounts, Washington charges this play ticket expense (£2) on June 23d.

⁶ The new Non-Importation Association was published June 22d. It bore the printed names of those Burgesses and merchants who formulated and agreed to it. Copies were given to prominent gentlemen in each county to be circulated for signatures in agreement. The Association and names of the Williamsburg signers were printed in small type at the top of large sheets, leaving ample space for many signatures below the printing. Washington added the following agreement in his own handwriting to each of the sheets he circulated through Fairfax County: 'The Subscribers Inhabitants of the County of Fairfax in the Colony of Virginia having duly considered the above Agreement & Association & being well convinced of the Utility & real necessity of the Measures therein recommended to the Publick Attention (at this alarming and critical juncture) do sincerely and cordially accede thereto; and do hereby voluntarily and faithfully each and every person for himself upon his word and honour agree and promise that he will strictly and firmly adhere to and abide by every Article & Resolution therein containd according to the true Intent & meaning thereof. —' Six of these agreements bearing signatures of various Fairfax County inhabitants have

survived and are in the Washington Papers in the Library of Congress. A badly mutilated copy signed by other Virginians is among the papers of Thomas Jefferson in the same Library.

¹ 'By Mrs. Campbell's Acct. in full £16.13.4.' (*Ledger A.*) The Burgesses adjourned June 28th, but, as no more important business remained to be finished after June 23d, Washington came away. He characterized the session as one in which little public business was transacted, the time being taken up, mainly, with private bills.

13. Mr. Christian and all his Scholars except Peggy Massey⁴ went away. I rid to the Harvest field at M[uddy] hole.

¹ Miss Elizabeth French, daughter of Daniel French.

² Elizabeth Bronaugh? or her sister, who married Martin Cockburn. (*Toner*.)

³ This was Mary Cary, widow since 1767 of Edward Ambler, of Jamestown Island, and a younger sister of Mrs. George William Fairfax. Washington first met her at 'Belvoir' in 1748, when he described her to his 'dear friend Robin,' which letter is among the miscellany in the diary of 1748 and is printed in Ford, *Writings of Washington*, 1, 7. In consequence of this testimony to her agreeability, she has been labeled in American history as 'Washington's first sweetheart.' The tradition recorded by Bishop Meade (*Old Churches*, 1, 108), on the authority of a romantic Ambler family document, of Washington's salutation of her as he rode through Williamsburg at the head of his victorious army after Yorktown and of her fainting, overcome by youthful memories, is, unfortunately, contradicted by the evidence of her tombstone at Jamestown that she had died in the spring preceding the surrender.

⁴ Daughter of the Reverend Lee Massey.

14. Rid to my Harvest People at the Mill in the forenoon, and in the aftern. likewise, with Mrs. W., Peggy Massey and P[atcy.]

Remarks and Occurans.

2. Prosecuting my Wheat Harvest which I began on Saturday last in the Neck.

¹ To obtain signatures to the Association.

5. Stately, A Hound Bitch was lind by Jowler.
6. She was again lined by the same Dog.
I killed and sold my English Bull to the Boston's Crew at 20/ pr. Ct.; his 4 Quarters weighed 711 lbs. Nett.
10. About 10 Oclock finished Cutting and Securing my Wheat in the Neck, and about Eleven began the field at Muddy hole.
13. Finished cutting and Securing my Wheat at Muddy hole.
14. Began my Harvest at the Mill but did not quite finish the Field on the other side by the New Mill.
17. Finished my Harvest at the Mill about 10 or 11 Oclock, and began to cut the Wheat at Doeg Run Abt. 12 Oclock.
20. Compleated my Wheat Harvest altogether, and exceeding bad I am apprehensive it will turn out, owing I am of opinion to the frequent Rains in the Month of June. The Heads containd but few grains, the Grain but little flower, being for the most part perishd and Mill dewed. The frequent Rains had, by beating down the straw been the occasion of much loss in the Field both by shattering and unclean cutting; and to compleat all, I was too late in beginning my Harvest by 3 or 4 days, as it ought, where a Harvest is to continue 3 Weeks, to be begun always before it is ripe, as the loss in the shrinkage if Green Wheat is not equal to that of its shattering and various other accidents when it is over-ripe and the straw falling.
23. Began to Cut my Meadw. at the Mill.

31st. finished Do.

Also laid the 2d Floor of my Mill.

[AUGUST]

Where & how my time is Spent.

1. Dined at my Mother's. Went over to Fredericksburg afterwards and returned in the Evening back again.
2. Met the Officers of the first Virga. Troops at Capt'n. Weeden's, where we dined and did not finish till abt. Sun set.¹ Mrs. Washington and Patcy dined at Colo. Lewis's where we lodged.
3. Dined at my Brother Charles's. Spent the Evening there, and lodged at Colo. Lewis's.
4. Dined at the Barbicue with a great deal of other Company, and stayed there till Sunset.

¹ The meeting was held for the purpose of settling the details of obtaining possession of the lands granted to the officers of the First Virginia Regiment, through Governor Dinwiddie's proclamation for their services in the French and Indian War. They appointed Washington their agent and attorney, and it was largely due to his energy and efforts that these deserving men finally obtained their land. The Revolutionary War was close at hand before the matter was entirely settled. As late as 1798, Washington was asked about it. On April 25th of that year he wrote to Edward Graham: 'The burthen of obtaining the Grants for 200,000 acres of land under Gov. Dinwiddie's Proclamation of 1754 and indeed the greater part of the expence attending this business from the first move that was made therein until the issuing of the Patents, were thrown upon me nor has the latter been reimbursed to this day. It was with great difficulty after Peace was established in the year 1763, that I could obtain a recognition of the above proclamation and then instead of assigning a district, and permitting every Claimant to locate his own quantum therein, we were compelled to take the *whole* quantity in twenty surveys, or rather not allowed to extend that number. This it was that occasioned so many names to be together in the same Patent and has caused the difficulties which have since occurred to the Patentees, to obtain their respective quantities. The same happened to myself; but rather than be at the trouble and expense of dividing with others I bought and exchanged until I got entire tracts to myself. After the Patents were granted and the Land thereby secured, I concerned myself no further with any part thereof excepting my own.' While in Fredericksburg at this time, Washington purchased a tent and a marquee from Captain Weeden for £6.

5. Went to Church (in Fredg.) and dind with Colo. Lewis.
6. Dined with Mr. James Mercer.¹
7. Dined at Colo. Lewis's; Colo. Dangerfield and Lady, and Miss Boucher comg. there to see us.

15. Rid to the Mill, by the Ferry and returnd to Dinner. Miss Betty Dalton came here.
16. Rid to the Mill and to the Ditchers.

¹ Attorney, of Fredericksburg, brother of Colonel George Mercer and son of Colonel John Mercer.

² These invoices and letter were to Robert Cary & Co., London. To each invoice was appended a list of additional articles to be sent only in case the Parliament Acts, imposing taxes to raise revenue in America, were totally repealed before the goods were shipped; a fair indication of the state of mind in the Colonies, that could not believe Parliament meant to insist on such injustice. Washington informed Cary in his letter that he wished the non-importation agreement 'ten times as strict.'

17. At home all day.
18. Rid to the Mill, Ditchers, Doeg run, and Muddy hole.
19. Went to Pohick Church. Calld in our way at Belvoir to take leave of Sir Thos. Returnd to Dinner.

25. Mr. Fairfax, Doctr. Rumney, Mr. Magowan, and Jacky Custis, all went away after Breakfast. I rid into the Neck and to Muddy hole.
26. At home all day — alone.
27. Went by my Mill and Doeg Run to Colchester, there to settle a dispute betwn. Doctr. Ross and Company and Mr. Semple.²

¹ Toner thinks, William D. Beall, of Prince George County, Maryland.

² In the capacity of arbitrator or referee.

28. At Colchester all day — upon the same business.
29. Still at Colchester upon this affair. Colo. Lewis, my Sister and Brothr. Chas., passd this in their way to Mount Vernon.
30. Still at Colchester upon the business before mentioned.
31. At the same place and on the same business.

AUG[US]T

Remarks and Occurrances.

1. Began to Sow Wheat at Muddy hole — the Ground Grassy and in bad order.

Began to Sow Ditto at Doeg Run Quarter, where the Ground was exceeding foul, Grassy, and hard.

8. Began to Sow Wheat in the Neck, in that cut upon the Creek above Carneys Gut. The Ground here was tolerably clean and in Good Order, the Grass and Weeds being Choped over.

10 and 11th. I rid over all my Corn Ground, as well that in the Neck as those at Muddy hole and Doeg Run, and was surprizd to see how much it had fired; especially in Land that was any thing Stiff and poor. It was observable also. that in most of these places there appeared no shoots upon the Stalks, and upon the whole the prospect exceedingly Shocking. It is further to be observd, that the Corn, in flat stiff places was fired even where it had not been lately work'd, but more so where it was. Why Corn in so short a drought shoud fire so badly is difficult to Acct. for, unless it is owing to the great and frequent Rains which

fell all the first part of the year, and at the same time that it made the Corn Luxuriant and exceeding tender, baked the Ground hard and prevented the frequent and constant working of it that it ought to have had.

Nothing appears more clearly from the experience of this year than that a wet June is very injurious to both Corn and Wheat. The former is run too much into Stalk by it, made tender and unable to stand the droughts which follow after, and besides this is generally overcome with grass and Weeds; the Latter (that is Wheat) by being injurd in the blossom produces poor perished grain and but little of it, the head being subject to the spot and other defects.

My Corn this year has not been so well cultivated as it ought, wch. partly has been owing to two causes: first, the exceeding wet weather all the Month of June prevented my Plows from working constantly where the Land was level; and next, my force of Horses was rather inadequate to the Task and I think more than 35 or 40 Acres of Corn Land (where it is any thing stiff) ought not to be allotted to a plow and two middling good Horses. Finishd Sowg. the Cut upon the Creek above Carney's Gut. Finished the Remainder of that Cut on the other side the Gut.

17. Finished the Cut at Doeg Run abt. John Gist's Houses.

25. I examind my Corn fields and perceivd that the late Rains had made a great alteration for the better. Many Stalks were putting out entire new Shoots with young and tender Silk; but as the Tassels of most all the Corn (especially in that field in the Neck) was entirely dry, the question is whether the corn for want of the Farina will ever fill. This is a matter worthy of attention and shoud be observd accordingly.

29. The Rain that Fell last Night made the Ground too Wet for Plowing.

[SEPTEMBER]

Where & how my time is Spent.

- 1st. Returnd from the Arbitration at Colchester. In the Evening my Brothr. Sam and his wife and children came hither from Fredericksburg in their way to Frederick.
2. At home all day with the Company before mentioned. Mr. Adam's Miller came here and went to see my Mill.
3. Went in the Evening a fishing with my Brothers Saml. and Charles.
4. Rid to my Mill and back to Dinner.
5. At Home all day playing cards.
6. Rid to the Mill with Colo. Lewis, &ca. Returnd to Dinner.

19. Rid to the Mill and Ditchers, and came home to Dinner.
20. Rid to the Mill and Ditchers again, and went by Posey's. Doctr. Rumney came.

¹ Robert Nash, Alexandria schoolmaster. (*Toner.*)

² William Peachy, probably of Richmond County. (*Toner.*)

³ Mrs. Washington accompanied him. 'By Mrs. Washington — expended in Alexa. £1.17.' (*Ledger A.*)

21. Rid to the Mill and Ditchers. Doctr. Rumney went away.
22. Rid to my Mill in the forenoon and Afternoon. James McCarmack ¹ came here last Night and returned to day.
23. At Home all day. Mr. Campbell and Captn. Sanford ² dind here.
24. At home all day alone.
25. Rid to the Mill and Ditchers in the forenoon.
26. Rid by Posey's and to the Mill and Ditchers again.
27. Rid to the Mill and Ditchers in the Afternoon. Doctr. Rumney came here.
28. Rid to the Mill and Ditchers. Doctr. Rumney here Sick.
29. At Home all day. Doctr. Rumney still here Sick.
30. At home all day. Mr. W[arner] Washington came in the Evening. Doctr. Rumney still here.

SEPT[EMBE]R

Remarks and Occurs.

4th. got on the 2d Floor (or rather the last Floor, the Walls being at their Height) of my Mill.

¹ Lived on the Bullskin, next to Washington's land in Berkeley County. (Toner.)

² Captain Lawrence Sanford, a sea-captain.

4th. The Hound Bitch Stately brought 7 Puppies, viz, 2 dogs and 5 Bitches, 1 of the former dead; remaing. 1 dog and 5 Bitches.

13. Sett 3 Negroe Men, to wit, Harry, George and Frank, to work upon my Mill Race.

14. Two more men came to work on it from the Neck — to wit, Neptune and George.

14. Morris at Doeg Run began to sow his third Cut of Wheat.

20. Finishd Sowing Wheat in the Neck. Also at Muddy hole. This day also Dominicus Gubner, a Dutch Smith, set into work at the Rate of £32 pr. Ann., he to be found when at work here, and to have the Plantn. on which John Crook livd (to settle his Family at) and work in any thing he pleases, Rent free.¹

22. Receivd from Edwd. Snickers the Mill stones² he was to get for [me] which were thinner by two Inches. than what were bespoke.

OCTOBER

Where & how my time is Spent.

1. Rid to my Mill and the Ditchers with Mr. Warnr. Washington. Colo. Fairfax dind here; the Doctr. (Rumney) still here. Mr. Carr³ came in the Eveng.

¹ This agreement, dated September 20, 1770, in Washington's handwriting, and signed by both Gubner and himself, is in the Washington Papers in the Library of Congress.

² Washington paid Snickers £20 for these stones November 30, this year, when he passed Snickers' place on his return from his journey to the Ohio.

³ Of Maryland?

2. At home all day. John Savage,¹ formerly a Lieutt. in the Virga. Service, and one Wm. Carnes came here to enter their claim to a share in the 200,000 Acres of Land. Wr. Washington and Doctr. Rumney here.
3. At home all day. Mr. Washington, Mr. Carr, Savage, and Carnes went away after Breakfast. The Doctr. still here.
4. In the afternoon Doctr. Rumney went away and Doctr. Craik came.
5. Set out in Company with Doctr. Craik for the Settlement on Redstone,² etca. Dind at Mr. Bryan Fairfax's and lodged at Leesburg.³
6. Bated at Old Codley's.⁴ Dind and lodgd at my Brother Sam's.
7. Dind at Rinkers and lodgd at Saml Pritchard's.⁵
8. Vale. Crawford joind us, and he and I went to Colo.

¹ 'Octr. 9 To Cash of Lt. Jno. Savage his quota of advance towards Surveying ye Soldiers Lands £6.' (*Ledger A.*)

² Redstone Creek empties into the Monongahela River about thirty-seven miles above Pittsburgh. This journey is characterized by Washington as his trip to the Ohio. It was undertaken to locate definitely the lands granted the Virginia officers for their services in the French and Indian War. Washington managed the business for his brother officers, and, though this journey was undertaken in their interest, his well-known weakness for acquiring good land was, undoubtedly, a large factor in the matter.

³ 'By Expences in a Journey to the Ohio — viz at Mass's Ordy. 3s. 6d. Leesburg 10s.' (*Ledger A.*)

⁴ Codley, or Caudley, kept a roadhouse at the top of Williams' Gap in the Blue Ridge Mountains, later known as Snickers' Gap and now as Bluemont. 'Expences at Caudley's 6s. at Pugh's 6s.' (*Ledger A.*)

⁵ Jasper Rinker, on the Winchester-Cumberland road. Pritchard's was on the Cacapon River, about forty-two miles from Samuel Washington's place. Washington's accounts show the expenses at Cacapehon were three shillings.

Cresap's¹ leaving the Doctr. at Pritchard's with my boy Billy,² who was taken sick.

9. Went from Colo. Cresap's to Romney,³ where in the afternoon the Doctr. and my Servant and Baggage arrivd.

10. Bought two Horses⁴ and sent one of my Servants (Giles) home with those I rid up. Proceeded on our journey and lodgd at one Wise (now Turner's) Mill.⁵

11. Set out about 11 O'clock and arrivd at one Gillam's⁶ on George Creek, 10½ Miles from the North Branch and same distt. from Ft. C.⁷

12. Started from Gillam's between Sun rising and Day Break, and arrivd at the Great crossing of Yaugha.⁸ about Sunset or before.

13. Left this place early in the Morning and arrivd at

¹ Colonel Thomas Cresap's, a few miles above the junction of the North and South Branches of the Potomac River, on the Maryland side; his place was known as 'Cresap's' and also as 'Old Town.' Colonel Thomas was one of the outstanding figures of American frontiersmen. He was a member of the old or original Ohio Company and was influential among the Indians. He is reported to have lived to be one hundred and five years old.

² 'Billy,' otherwise known as William Lee, had been purchased from the Lee family. He accompanied Washington throughout the Revolutionary War and is, probably, the best known of Washington's slaves.

³ County seat of Hampshire County.

⁴ One horse was a bay, purchased from a Mr. Parsons for £16 and the other a gray, purchased from a Mr. John(?) Nevil for £13.10.

⁵ On Patterson's Creek.

⁶ Joseph Gillam. George's Creek was ten and a half miles from the North Branch of the Potomac River. Washington's expense accounts note the purchase of four bearskins on October 11th for £1.

⁷ Fort Cumberland, at junction of Will's Creek and the North Branch of the Potomac, now the town of Cumberland, Maryland.

⁸ The Great Crossing of the Youghiogheny River. There is an expense entry in Washington's accounts of ten pence expended at Little Meadows on October 12th.

Captn. Crawford's (known by the name of Stewart's crossing)¹ abt. $\frac{1}{2}$ after four O'clock.

14. At Captn. Crawford's all day.

15. Rid to see the Land he got for me and my Brother's.²

16. At Captn. Crawford's till the Evening, then went to Mr. John Stephenson's.³

17. Arrivd at Fort,⁴ dining at one Widow Miers at Turtle Creek.⁵

18. Dined in the Fort at the Officers Club.

19. Dined at Colo. Croghan's⁶ abt. 4 Miles from Pittsburg, and returnd.

20. Set out for the Big Kanhawa with Dr. Craik, Captn. Crawford and others.⁷ Incampd abt. 14 Miles off.

¹ Stewart's Crossing on the Youghiogheny is now Connellsville, sixty-three miles from Pittsburgh. Captain William Crawford's cabin was on the left bank, just below what is now the town.

² Captain William Crawford was Washington's agent in the Ohio land business; both he and his brother Valentine traveled and examined the country and selected land areas for Washington.

³ Half-brother to Captain William Crawford. (*Toner.*)

⁴ Fort Pitt, now Pittsburgh, formerly the old French Fort Duquesne.

⁵ Miers, often spelled Myers. Turtle Creek, in Westmoreland County, Pennsylvania, empties into the Monongahela River, about twelve miles above Fort Pitt.

⁶ Colonel George Croghan, Indian Agent, settled near Harrisburg about 1746; became Indian Agent for Pennsylvania and a deputy under Sir William Johnson, who sent him to England to explain to the Ministry the affair of the French and Indian boundary controversy. In 1765 he was wounded and taken prisoner by the Illinois Indians to whom he had gone on a friendly mission. He, nevertheless, held the Indians back from the war-path and the next year settled about four miles above Fort Pitt, on the left bank of the Allegheny. His influence with the savages was great, and he held them friendly to the British interests until the outbreak of the Revolutionary War.

⁷ This was the real commencement of the Ohio journey. Under the October

21. Got abt. 32 Miles further and Incampd abt. 3 Miles below little Bever Ck.¹
22. Reachd the Mingo Town,² abt. 29 Miles by Computation.
23. Stayd at this place till One Clock in the Afternoon, and padled abt. 12 Miles down the River and Incampd.
24. We reachd the Mouth of a Creek calld Fox Grape vine Creek³ (10 Miles up which is a Town of Delawares calld Franks Town) abt. 3 Oclock in the Afternoon, distant from our last Camp abt. 26 Miles.
25. Incampd in the long reach⁴ abt. 30 Miles from our last lodge according to my Computation.
26. Incampd at the Mouth of a Creek about 4 Miles above the Mouth of Muskingham,⁵ distant abt. 32 Miles.
27. Incampd at the Mouth of great Hockhocking,⁶ distant from our last Incampment abt. 32 Miles.

20th entry in 'Remarks and Occurs,' in October, Washington tells who the others were.

The Big or Great Kanawha flows through Virginia and the southern part of West Virginia in a northwesterly direction and empties into the Ohio River at Point Pleasant.

¹ In Pennsylvania; flows into the Ohio from the North.

² Mingo Town in Ohio, three miles below Steubenville.

³ Flows in from Ohio on the north. Washington calls this 'Fox Grape Vine Creek' and also 'Sculp' or 'Buffalo Creek.'

⁴ The Long Reach was a straight course in the usually crooked Ohio River, of from eighteen to twenty miles, which forms the eastern boundary of Monroe County, Ohio.

⁵ The Muskingum River flows south through the eastern half of Ohio and empties into the Ohio River at what is now Marietta.

⁶ Sometimes called the 'Great Hockhocking' or 'Big Hockhocking'; flows south through Ohio and empties into the Ohio River almost at the boundary line of Athens and Meigs Counties, Ohio.

28. Meeting with Kiashuta¹ and other Indian Hunters we proceeded only 10 Miles to day, and Incampd below the Mouth of a Ck. on the West the name wch. I know not.

29. Went round what is calld the Great Bent² and Campd two Miles below it, distant from our last Incampment abt. 29 Miles.

30. Incampd Early just by the old Shawna Town,³ distant from our last no more than 15 Miles.

31. Went out a Hunting and met the Canoe at the Mouth of the Kanhawa,⁴ distant only 5 Miles, makg. the whole distance from Fort Pitt accordg. to my Acct. 266 Miles.

[OCTOBER]

Remarks and Occurs.

5th. Began a journey to the Ohio in Company with Doctr. Craik, his Servant, and two of mine with a lead Horse with Baggage. Dind at Towlston and lodgd at Leesburg distant from Mount Vernon abt. 45 Miles. Here my Portmanteau horse faild in his Stomach.

6. Fed our Horses on the Top of the Ridge at one Codleys and arrivd at my Brother Samls. on Worthington's Marsh⁵ a little after they had dind, the distance being about 30. Miles; from hence I dispatchd a Messenger to

¹ Kiashuta, an Indian who had accompanied Washington part of the way from Logs Town to Fort Le Bœuf in 1753.

² The Great Bend of the Ohio River where it borders Meigs County.

³ The Old Shawnee Town was about five miles above Point Pleasant.

⁴ Washington landed on the West Virginia side of the Ohio and circled around to the mouth of the Kanawha.

⁵ In the Shenandoah Valley. Robert Worthington was one of the early settlers in the Valley. Samuel Washington's place, 'Harewood,' was next to Worthington's.

Colo. Stephens apprising him of my arrival and Intended journey.

7. My Portmanteau Horse being unable to proceed, I left him at my Brother's and got one of his and proceeded by Jolliffs¹ and Jasper Rinkers to Saml. Pritchard's on Cacapehon;² distant according to Acct. 39 Miles; but by my Computation 42, thus reckond 15 to Jolliff's; 14 to Rinkers; and 13 to Pritchard's. At Rinkers which appears to be a cleanly House my boy was taken Sick but continued on to Pritchard's. Pritchard's is also a pretty good House, their being fine Pasturage, good fences, and Beds tolerably clean.

8. My Servant being unable to travel, I left him at Pritchard's with Doctr. Craik, and proceedd. my self with Vale. Crawford to Colo. Cresap's, in ord. to learn from him (being just arrivd from England) the particulars of the Grant said to be lately sold to Walpole³ and others, for a certain Tract of Country on the Ohio. The distance from Pritchard's to Cresap's according to Computation is 26 Miles, thus reckond; to the Fort at Henry Enochs⁴ 8 Miles (road exceedg. bad) 12 to Cox's⁵ at the Mouth of little Cacapehon, and 6 afterwards.

¹ William Jolliff. (*Toner*.)

² West Virginia rivers, called Great and Little Cacapehon. They flow north-west along the western side of Capon, or North Mountain, and empty into the Potomac.

³ The Walpole Grant had its beginnings about 1763 and was a kindred scheme to that of the Ohio Company. It did not approach success until 1770, when Thomas Walpole, Benjamin Franklin, John Sargent, and Samuel Wharton applied for a grant of land, on behalf of the company, which was to be used as a settlement tract and for trading with the Indians. A grant was made in 1772, but the Revolutionary War upset the calculations. The 200,000 acres granted to the Virginia officers and soldiers for their French and Indian War services, the placing of which was now occupying Washington's attention, seem to have been allowed out of the area petitioned for by Walpole and the others.

⁴ Henry Enoch's stockaded cabin was on the Cacapehon, eight miles from Cresap's.

⁵ Cox's fort at mouth of the Little Capon.

9. Went up to Rumney in order to buy work Horses, and meet Doctr. Craik and my Baggage; arrivd there abt. 12, distance 16 Miles. In the Afternoon Doctr. Craik and my Servt. (much amended) and the Baggage, arrivd from Pritchard's; said to be 28 Miles.

10. Having purchasd two Horses, and recoverd another which had been gone from me near 3 Years, I dispatchd my boy Giles with my two Riding Horses home, and proceeded on my journey; arriving at one Wise's (now Turner's) Mill about 22 Miles, it being Reckond Seven to the place where Cox's Fort formerly stood; 10 to one, Parker's¹ and five afterwards. The Road from the South Branch² to Patterson's Ck. is Hilly down the Ck. on which is good Land, Sloppy to Parker's, and from Parker's to Turner's Hilly again.

11. The Morning being wet and heavy we did not set of till 11 Oclock and arrivd that Night at one, Killam's³ on a branch of George Ck. distant 10½ Measurd Miles from the North Branch of Potomack, where we crossd at the lower end of my Decd. Brother, Auge. Bottom, known by the name of Pendergrasses.⁴ This Crossing is two Miles from the aforesaid Mill and the Road bad as it likewise is to Killam's, the Country being very Hilly and Stony.

From Killam's to Fort Cumberland is the same distance that it is to the Crossing above mentiond, and the Road from thence to Jolliff's by the old Town⁵ much better.

¹ Near the head of Patterson's Creek which flows into the Potomac about twelve miles below Cumberland.

² Of the Potomac River.

³ Joseph Killam or Gillam.

⁴ Pendergrasses Settlement or Bottom, in Frederick County, was acquired by Augustine Washington, half-brother to George.

⁵ Old Town, on the Potomac, nearly opposite the mouth of the South Branch, was where Colonel Thomas Cresap lived.

12. We left Killam's early in the Morning, breakfasted at the little meadows¹ 10 Miles of, and lodgd at the great Crossings² 20 Miles further, which we found a tolerable good days work.

The Country we travelld over to day was very Mountainous and stony, with but very little good Land, and that lying in Spots.

13. Set out about Sunrise, breakfasted at the Great Meadows³ 13 miles of, and reachd Captn. Crawford's about 5 Oclock.

The Lands we travelld over to day till we had crossd the Laurel Hill⁴ (except in small spots) was very mountainous and indifferent, but when we came down the Hill to the Plantation of Mr. Thos. Gist,⁵ the Ld. appeard charming; that which lay level being as rich and black as any thing coud possibly be; the more Hilly kind, tho of a different complexion must be good, as well from the Crops it produces, as from the beautiful white Oaks that grows thereon, the white Oak in generl. indicates poor Land, yet this does not appear to be of that cold kind. The Land from Gists to Crawford's is very broken, tho not Mountainous; in Spots exceeding Rich, and in general free from Stone. Crawfords is very fine Land; lying on Yaughyaughgane⁶ at a place commonly called Stewart's Crossing.

¹ Little Meadows was on the old Braddock road, about twenty-five miles east of the Great Meadows and separated from it by the Youghioghenny River and a ridge of mountains.

² The Great Crossing of the Youghioghenny was on the old Braddock road, on the main road to Fort Pitt.

³ Great Meadows is on the eastern slope of Laurel Mountain, which is one of the most western ridges of the Alleghanies. It is the scene of Washington's fight and surrender to the French in 1754, at his hastily built Fort Necessity.

⁴ Laurel Hill. See preceding note.

⁵ Son of Christopher Gist.

⁶ Youghioghenny (Yaughyaughgane) River rises in West Virginia, flows northwest through Maryland into Pennsylvania and joins the Monongahela about

Sunday 14th. At Captn. Crawford's all day. Went to see a Coal Mine¹ not far from his house on the Banks of the River; the Coal seemd to be of the very best kind, burning freely and abundance of it.

Monday 15th. Went to view some Land which Captn. Crawford had taken up for me near the Yaughyaughgane distant about 12 miles. This Tract which contains about 1600 Acres Includes some as fine Land as ever I saw, a great deal of Rich Meadow, and in general, is leveller than the Country about it. This Tract is well waterd, and has a valuable Mill Seat² (except that the Stream is rather too slight, and it is said not constant more than 7 or 8 months in the Year; but on acct. of the Fall, and other conveniences no place can exceed it).

In going to this Land I passd through two other Tracts which Captn. Crawford had taken up for my Brothers Saml. and John; that belonging to the former, was not so rich as some I had seen; but very valuable on acct. of its levelness and little Stone, the Soil and Timber being good; that of the latter had some Bottom Land upon sml. runs that was very good (tho narrow) the Hills very rich, but the Land in genl. broken. I intended to have visited the Land which Crawford had procurd for Lund Washington this day also, but time falling short, I was obligd to Postpone it making it in the Night before I got back to Crawfords, where I found Colo. Stephen.

The Lands which I passed over to day were generally Hilly, and the growth chiefly white Oak, but very good notwithstanding; and what is extraordinary, and contrary

fifteen miles above Pittsburgh. The name is an Indian word supposed to mean 'River that flows in the opposite direction.'

¹ Washington was thus one of the few Americans who first noticed the great Pennsylvania coal-fields. The vein was bituminous and the center of this coal-mining area is now Connellsville.

² Washington built a mill on this site five years later.

to the property of all other Lands I ever saw before, the Hills are the richest Land; the Soil upon the Sides and Summits of them, being as black as Coal and the Growth, Walnut, Cherry, Spice Bushes, etca.; the flats are not so rich; and a good deal more mixd with Stone.

Tuesday 16. At Captn. Crawford's till the Evening, when I went to Mr. John Stephenson (on my way to Pittsburg) and lodgd. This day was visited by one Mr. Ennis who had travelld down the little Kanhawa (almost) from the head to the Mouth, on which he says the Lands are broken, the bottoms neither very wide nor rich, but covd. with Beach; at the Mouth the Lands are good, and continue so up the River; and about Weeling¹ and Fishing Ck. is, according to his acct. a body of fine Land. I also saw a Son of Captn. John Hardens² who said he had been from the Mouth of little Kanhawa to the big, but his discription of the Lands seemd to be so vague and indeterminate, that it was much doubted whether he ever was there or not. He says however that at the Mouth of the Big Kanhawa there may be abt. 20 or 25,000 Acres of Land had in a Body that is good, that you are not above five or 6 Miles to the Hills, and that the Falls of the Kanhawa³ are not above 10 Miles up it.

Wednesday 17. Doctr. Craik and myself with Captn. Crawford and others arrivd at Fort Pitt, distant from the Crossing 43½ Measurd Miles. In Riding this distance we pass over a great deal of exceeding fine Land (chiefly White Oak) especially from Sweisley Creek⁴ to Turtle Creek,⁵ but

¹ Wheeling Creek, West Virginia. The city of Wheeling is now located at the mouth of this creek.

² Of Frederick County, Virginia. (*Toner.*)

³ In Fayette County, West Virginia, about thirty miles above Charleston.

⁴ Sewicky (Sweisly) Creek flows through Westmoreland County, Pennsylvania, in a westerly direction and empties into the Youghiogeny River.

⁵ Turtle Creek, in Westmoreland County, Pennsylvania, joins the Monongahela about twelve miles above Pittsburgh.

the whole broken; resembling (as I think all the Lands in this country does) the Loudoun Lands for Hills.

We lodgd in what is calld the Town, distant abt. 300 yards from the Fort at one Mr. Semples¹ who keeps a very good House of Publick Entertainment; these Houses which are built of Logs, and rangd into Streets are on the Monongahela, and I suppose may be abt. 20 in Number, and inhabited by Indian Traders, etca.

The Fort² is built in the point between the River Alligany and Monongahela, but not so near the pitch of it as Fort Duquesne stood. It is 5 sided and regular, two of which (next the Land) are of Brick, the others Stockade. A Mote incompasses it. The Garrison consists of two Companies of Royal Irish Commanded by one Captn. Edmonson.³

Thursday 18th. Dind in the Fort with Colo. Croghan and the Officers of the Garrison; Supped there also, meeting with great civility from the Gentlemen, and engaged to dine with Colo. Croghan the next day at his Seat abt. 4 Miles up the Alligany.

Friday 19th. Recd. a Message from Colo. Croghan that the White Mingo and other Chiefs of the 6 Nations had something to say to me, and desiring that I woud be at his House abt. 11 (where they were to meet). I went up and receivd a Speech with a String of Wampum⁴ from the White Mingo to the following effect:

¹ Samuel Semple, or Sample, an innkeeper in Pittsburgh.

² Fort Pitt.

³ Captain Charles Edmonstone, of the 18th or Royal Irish Regiment of Foot.

⁴ Wampum, the Indian ceremonial emblem, was a comparatively rare shell of some beauty, which was pierced, longitudinally, and strung upon deerskin thongs. These strings were woven into bands or belts, and the size of the belt was generally proportioned to what the Indians considered the significance of the occasion where it was used. The Indian method of sealing and recording treaties, or councils, was by presenting a wampum belt. Wampum was, sometimes, used for personal adornment. As used in the councils, or treaty-making,

That as I was a Person who some of them remember to have seen when I was sent on an Embassy to the French, and most of them had heard of; they were come to bid me welcome to this Country, and to desire that the People of Virginia woud consider them as friends and Brothers linked together in one chain; that I wd. inform the Governor, that it was their wish to live in peace and harmy. with the white People, and that tho their had been some unhappy differences between them and the People upon our Frontiers, it was all made up, and they hopd forgotten; and concluded with saying, that, their Brothers of Virginia did not come among them and Trade as the Inhabitants of the other Provinces did; from whence they were affraid that we did not look upon them with so friendly an Eye as they cou'd wish.

To this I answerd (after thanking them for their friendly welcome) that all the Injuries and affronts that had passd on either side was now totally forgotten, and that I was sure nothing was more wishd and desird by the People of Virginia than to live in the strictest friendship with them; that the Virginians were a People not so much engagd in Trade as the Pensylvanians, etca. wch. was the Reason of their not being so frequently among them; but that it was possible they might for the time to come have stricter connections with them, and that I woud acquaint the Govr. with their desires.

After dining at Colo. Croghan's we returnd to Pittsburg, Colo. Croghan with us, who intended to accompany us

the belts were presented to the opposite party, and in all future discussions of the subject these belts were produced when, in some curious way, the sight of each belt recalled to the Indian speech-chronicler the speech made at the time that belt was presented. It is stated that this chronicler, who was styled 'the Keeper of the Belts' could repeat the speech almost *verbatim*, even though some years had elapsed since it had first been delivered. The Keeper of the Belts was usually an old Indian and he kept in training under him a younger man, who was to take his place, and him he drilled in remembering the speeches, that the record of them might not be lost.

part of the Way down the River, having engagd an Indian calld the Pheasant, and one Joseph Nicholson ¹ an Interpreter to attend us the whole Voyage; also a young Indn. Warrior.

Saturday 20. We Imbarkd in a large Canoe with sufficient store of Provision and Necessaries, and the following Persons (besides Doctr. Craik and myself), to wit: Captn. Crawford, Josh Nicholson, Robt. Bell, William Harrison, Chs. Morgan and Danl. Reardon a boy of Captn. Crawford's, and the Indians who were in a Canoe by themselves.

From Fort Pitt we sent our Horses and boys back to Captn. Crawford's w' orders to meet us there again the 14th day of November.

Colo. Croghan, Lieutt. Hamilton ² and one Mr. Magee ³ set out with us. At two we dind at Mr. Magee's and Incampd 10 Miles below, and 4 above the Logs Town.⁴ We passd several large Island[s] ⁵ which appeard to [be] very good, as the bottoms also did on each side of the River, alternately; the Hills on one side being opposite to the bottoms on the other, which seem generally to be abt. 3 and 4 hundred yards wide, and so vice versa.

Sunday 21. Left our Incampment abt. 6 Oclock and breakfasted at the Logs Town, where we parted with Colo. Croghan, etca. abt. 9 Oclock. At 11 we came to the Mouth of big Bever Creek,⁶ opposite to which is a good Situation

¹ Washington paid Nicholson for his services on this trip £5.8, and the Pheasant and unnamed warrior £10.13. The party took with them £10.19.2 of stores which were purchased from the commissary at Fort Pitt.

² Lieutenant Robert Hamilton of the 18th or Royal Irish Regiment of Foot.

³ Alexander McKee, deputy Indian Agent for Pennsylvania.

⁴ Eighteen miles below Pittsburgh on the north bank of the Ohio.

⁵ Known later as Hamilton's Island, which was one mile long, and Irwin's Island, seven miles long; Dead Man's Island, which then was covered at high water, may have been one of those Washington mentions.

⁶ Big Beaver joins the Ohio about thirty miles below Pittsburgh, in about the center of Beaver County, Pennsylvania.

for a House, and above it, on the same side (that is the West) there appears to be a body of fine Land. About 5 Miles lower down on the East side comes in Racoon Ck.¹ At the Mouth of which, and up it appears to be a body of good Land also. All the Land between this Creek and the Monongahela and for 15 Miles back, is claimd by Colo. Croghan under a purchase from the Indians (and which Sale he says, is confirmd by his Majesty). On this Creek where the Branches thereof interlock with the Waters of Shirtees² Creek, there is, according to Colo. Croghan's acct. a body of fine Rich level Land; this Tract he wants to sell, and offers at £5 Ster'g. pr. hundd., with an exemption of Quit rents for 20 years; after which, to be subject to the payment of 4/2 Ster'g pr. Hundd.; provided he can sell it in 10,000 Acre Lots. Note the unsettled State of this Country renders any purchase dangerous.

From Racoon Creek to little Bever Creek appears to me to be little short of 10 Miles,³ and about 3 Miles below this we Incampd;⁴ after hiding a Barrl. of Bisquet in an Island (in Sight) to lighten our Canoe.

Monday 22d. As it began to Snow about Midnight, and continued pretty steadily at it, it was about 1/2 after Seven before we left our Incampment. At the distance of about 8 Miles, we came to the Mouth of Yellow Creek⁵ (to the west) apposite to, or rather below which, appears to be a long bottom of very good Land, and the Assent to the Hill apparently gradual. There is another pretty large bottom of very good Land about two or 3 Miles above this. About

¹ Racoon Creek flows into the Ohio from an almost due southerly direction.

² Chartier's Creek rises in Washington County and flows northeast through Alleghany County, entering the Ohio River at McKeesport.

³ Old pilot guides make this distance eight miles.

⁴ This would have carried Washington nearly if not quite over the State line into Ohio.

⁵ Yellow Creek, Columbiana County, Ohio.

11 or 12 Miles from this, and just above what is called the long Island ¹ (which tho so distinguished is not very remarkable for length, breadth or goodness) comes in on the east side the River, a small Creek or Run, the name of which I could not learn;² and a Mile or two below the Island, on the West Side, comes in big Stony Creek (not larger in appearance than the other); on neither of which does there seem to be any large bottoms, or body's of good Land. About 7 Miles from the last Mentiond Creek, 28 from our last Incampment, and about 75 from Pittsburg, we came to the Mingo Town; Situate on the West Side the River a little above the Cross Creeks.³

This place contains abt. Twenty Cabbins, and 70 Inhabitants of the Six Nations.

Had we set of early, and kept pritty constantly at it, we might have reachd lower than this place to day; as the Water in many places run pretty swift, in general more so than yesterday.

The River from Fort Pitt to the Logs Town has some ugly Rifts, and Shoals, which we found somewhat difficult to pass, whether from our inexperience of the Channel, or not, I cannot undertake to say. From the Logs Town to the Mouth of little Bever Creek is much the same kind of Water; that is, rapid in some places, gliding gently in others, and quite still in many. The Water from little Bever Creek to the Mingo Town, in general, is swifter than we found it the preceding day, and without any shallows; there being some one part or other always deep, which is a natural consequence, as the River in all the distance from Fort Pitt to this Town has not widend any at all nor doth the Bottoms appear to be any larger.

¹ Later called Brown's Island.

² Not named up to the year 1808.

³ Cross Creeks, so called from streams emptying into the Ohio on either side, directly opposite to each other. There were many such, but these particular Cross Creeks were in the neighborhood of Steubenville, Ohio, and are called Indian and Virginia Cross Creeks in Cramer's *Navigator*, 1808.

The Hills which come close to the River opposite to each bottom are steep; and on the side in view, in many places, Rocky and cragged; but said to abound in good land on the Tops. These are not a range of Hills; but broken and cut in two as if there were frequent water courses running through (which however we did not perceive to be the case, consequently they must be small if any). The River along down abounds in Wild Geese, and several kinds of Ducks but in no great quantity. We killed five wild Turkeys to day.

Upon our arrival at the Mingo Town we received the disagreeable news of two Traders being killed at a Town called the Grape Vine Town, 38 miles below this; which caused us to hesitate whether we should proceed or not, and wait for further Intelligence.

Tuesday 23. Several imperfect accts. coming in, agreeing that only one Person was killed, and the Indians not supposing it to be done by their People, we resolved to pursue our passage, till we could get some more distinct Acct. of this Transaction. Accordingly about 2 O'clock we set out with the two Indians which was to accompany us, in our Canoe, and in about 4 Miles came to the Mouth of a Creek called Seulf Creek,¹ on the East side; at the Mouth of which is a bottom of very good Land, as I am told there likewise is up it.

The Cross Creeks (as they are called) are not large, that on the West side however is biggest. At the Mingo Town we found, and left, 60 odd Warriors of the six Nations going to the Cherokee Country to proceed to war against the Cuttaba's. About 10 Miles below the Town we came to two other cross Creeks that on the West side largest, but not so big; and called by Nicholson, French Creek.² About

¹ Sewell Creek, in Fayette County, Pennsylvania, which flows across the West Virginia panhandle and joins the Ohio.

² French Creek enters the Ohio some distance above Marietta.

3 Miles or a little better below this, at the lower point of some Islands which stand contiguous to each other, we were told by the Indians with us that three men from Virginia (by Virginians they mean all the People settled upon Red Stone, etca.) had markd the Land from hence all the way to Red Stone;¹ that there was a body of exceeding fine Land lying about this place and up opposite to the Mingo Town, as also down to the Mouth of Fishing Creek.² At this Place we Incampd.

Wednesday 24th. We left our Incampment before Sunrise, and abt. Six Miles below it, we came to the Mouth of a pretty smart Creek comg. in to the Eastward calld by the Indians Split Island Creek,³ from its running in against an Island On this Ck. there is the appearance of good land a distance up it. Six miles below this again, we came to an other Creek on the West side, calld by Nicholson, Weeling,⁴ and abt. a Mile lower down appears to be an other small Water coming in on the East side;⁵ which I remark, because of the Scarcity of them and to shew how badly furnished this Country is with Mill Seats.⁶ Two or three

¹ Red Stone Creek, a tributary to the Monongahela River, in Fayette County, Pennsylvania. The old Ohio Company erected a storehouse near the mouth of the creek, and Colonel James Burd built a fort there in 1758 which was indifferently called Red Stone Fort and Burd's Fort. The town of Brownsville now occupies this site.

² Fishing Creek, in Wetzel County, West Virginia, joins the Ohio River at New Martinsville.

³ Split Island now called Twin Island.

⁴ Wheeling Indian Creek; the city of Wheeling is now at the mouth of Wheeling Creek on the east or West Virginia side. Wheeling Creek and Wheeling Indian Creek are other cross-creeks which Washington did not note.

⁵ Scalp Creek, the frontier pronunciation of which was 'Sculp.' It is so spelled on the early maps.

⁶ Washington's course down the Ohio can be accurately followed by the excellent maps of the river published by the United States Geological Survey; the many little creeks and water-courses he mentions can frequently be identified by these maps, though most of them now bear different names from those Washington gives. It is curious that the Indians with him did not seem to know of the now famous mounds of the Mound-Builders which were but a short distance

Miles below this again, is another Run on the West side; up which is a near way by Land to the Mingo Town; and about 4 Miles lower, comes in another on the East, at which place is a path leading to the settlement at Red Stone. Abt. a Mile and half below this again, comes in the Pipe Creek¹ so calld by the Indians from a Stone which is found here out of which they make Pipes; opposite to this (that is on the East side) is a bottom of exceeding Rich Land; but as it seems to lye low, I am apprehensive that it is subject to be overflowd. This Bottom ends where the effects of a hurricane appears by the destruction and havock among the Trees.

Two or three Miles below the Pipe Creek is a pretty large Creek on the West side, calld by Nicholson, Fox Grape Vine, by others Captema Creek,² on which, 5 Miles up it, is the Town calld the Grape Vine Town; and at the Mouth of it, is the place where it was said the Traders livd, and the one was killd. To this place we came abt. 3 Oclock in the afternoon, and finding no body there, we agreed to Camp; that Nicholson and one of the Indians might go up to the Town, and enquire into the truth of the report concerning the Murder.

Thursday 25th. About Seven Oclock Nicholson and the Indian returnd; they found nobody at the Town but two old Indian Women (the Men being a Hunting) from these they learnt that the Trader was not killd, but drown'd in attempting to Ford the Ohio; and that only one boy, belonging to the Trader (fathr. to him) being gone for Horses to take home their Skins.

from the river at this point; but, in all probability, the unusual formation did not attract the savages' notice.

¹ Pipe Creek enters the Ohio in Belmont County, just below Moundsville, West Virginia.

² Captina Creek also joins the Ohio in Belmont County. Both Pipe and Captina Creeks are respectable-sized streams.

About half an hour after 7 we set out from our Incampment around which, and up the Creek is a body of fine Land. In our Passage down to this, we see innumerable quantities of Turkeys, and many Deer watering, and browsing on the Shore side, some of which we killd. Neither yesterday nor the day before did we pass any Rifts or very rapid water, the River gliding gently along; nor did we perceive any alteration in the general face of the Country, except that the bottoms seemd to be getting a little longer and wider, as the Bends of the River grew larger.

About 5 Miles from the Vine Creek comes in a very large Creek to the Eastward calld by the Indians Cut Creek,¹ from a Town, or Tribe of Indians which they say was cut of entirely in a very bloody Battle between them and the Six Nations. This Creek empties just at the lower end of an Island,² and is 70 or 80 yards wide, and I fancy is the Creek commonly calld by the People of Red Stone, etca., Weeling. It extends according to the Indians acct. a great way, and Interlocks with the Branches of Split Island Creek; abounding in very fine bottoms, and exceeding good Land. Just below this on the West side, comes in a sml. Run and about 5 Miles below it on the West side also another midling large Creek emptys, calld by the Indians broken Timber Creek; so named from the Timber that is destroyd on it by a Hurricane; on the head of this was a Town of the Delawares, which is now left. Two Miles lower down, on the same side, is another Creek smaller than the last and bearing (according to the Indians) the same name; opposite to these two Creeks (on the East side) appears to be a large bottom of good Land. About 2 Miles below the last mentiond Creek, on the East side, and at

¹ This may be what is now called Fish Creek, in Marshall County, West Virginia.

² Fish Creek, Marshall County, enters the Ohio at an island, now called Fish Creek Island.

the end of the bottom aforementioned, comes in a sml. Creek or large Run.¹ Seven Miles from this comes in Muddy Creek ² on the East side the River, a pretty large Creek and heads up against, and with, some of the waters of Monongahela (according to the Indians acct.) and contains some bottoms of very good Land; but in general the Hills are steep, and Country broken about it. At the Mouth of this Creek is the largest Flat I have seen upon the River; the Bottom extending 2 or 3 Miles up the River above it, and a Mile below, tho it does not seem to be of the Richest kind, and yet is exceeding good upon the whole, if it be not too low and Subject to Freshes.

About half way in the long reach we Incampd, opposite to the beginning of a large bottom on the East side of the River. At this place we through out some Lines at Night and found a Cat fish of the size of our largest River Cats hookd to it in the Morning, tho it was of the smallest kind here. We found no Rifts in this days passage, but pretty swift water in some places, and still in others. We found the bottoms increasd in size, both as to length and breadth, and the River more choked up with Fallen Trees, and the bottom of the River next the Shores rather more Muddy but in general stony as it has been all the way down.

Friday 26th. Left our Incampment at half an hour after 6 Oclock, and passd a small run on the West side about 4 Miles lower. At the lower end of the long reach, and for some distance up it, on the East side, is a large bottom, but low, and coverd with beach next the River shore, which is no Indication of good Land. The long reach is a strait course of the river for abt. 18 or 20 Miles which appears the more extraordinary as the Ohio in general, is remarkably

¹ Proctor's Run.

² Possibly what was later called Fishing Creek.

crooked. There are several Islands in this reach,¹ some containing an 100 or more Acres of Land; but all I apprehend liable to be overflowed.

At the end of this reach we found one, Martin, and Lindsay two Traders; and from them learnt, that the Person drown'd was one Philips attempting in Compa. with Rogers, another Indn. Trader, to Swim the River with their Horses at an improper place; Rogers himself narrowly escaping. Five Miles lower down, comes in a large Creek from the Eastward, right against an Island of good land,² at least a Mile or two in length. At the mouth of this Creek ³ (the name of wch. I could not learn except that it was call'd by some Bulls Creek from one Bull that hunted on it) is a bottom of good Land, tho rather too much mix'd with Beach; opposite to this Island the Indians shoud us a Buffalo Path,⁴ the Track of which we see.

Five or Six Miles below the last mention'd Creek we came to the three Island ⁵ (before wch) we observ'd a small run on each side coming in. Below these Islands is a large body of flat Land, with a water course running through it on the East Side, and the Hills back, neither so high, nor steep in appearance as they are up the River. On the other hand, the bottoms do not appear so rich, tho much longer and wider, the bottom last mentioned is upon a strait reach of the River, I suppose 6 or 8 Miles in length; at the lower end of which, on the East side, comes in a pretty large Run from the size of the Mouth. About this,

⁴ On the Ohio shore.

⁵ These were called Broadback, Eureka, and Willow Islands on the United States Geological Survey map and are just before the bend in the Ohio around which is the Muskingum, at the mouth of which Marietta was located. In the old pilot guides of the Ohio, these three islands are called the Three Brothers. Newport, Ohio, is now opposite the first Brother.

above, below, and back, there seems to be a very large Body of flat Land with some little risings in it.

About 12 Miles below the three Islands we Incampd just above the Mouth of a Creek ¹ which appears pretty large at the Mouth and just above an Island. All the Lands from a little below the Creek which I have distinguished by the name of Bull Creek, appears to be level, with some small Hillocks intermixd, as far as we could see into the Country. We met with no Rifts to day, but some pretty strong water, upon the whole tolerable gentle. The sides of the River was a good deal incommoded with old Trees, wch. impeded our passage a little.

This day provd clear and pleasant, the only day since the 18th that it did not Rain or Snow, or threaten the one or other very hard.

Saturday 27. Left our Incampment a Quarter before Seven, and after passing the Creek near wch. we lay, and another much the same size and on the same side (West); also an Island ² abt. 2 Miles in length (but not wide), we came to the Mouth of Muskingham, distant from our Incampment abt. 4 Miles. This River is abt. 150 yards wide at the Mouth; a gentle currant and clear stream runs out of it, and is navigable a great way into the Country for Canoes.

From Muskingham to the little Kanhawa is about 13 Miles. This is about as wide at the Mouth as the Muskingham, but the water much deeper; it runs up towards the Inhabitants of Monongahela, and according to the Indians acct. Forks about 40 or 50 Miles up it; and the Ridge between the two Prongs leads directly to the Settlement.³ To this Fork, and above, the Water is navigable for Ca-

noes. On the upper side of this River there appears to be a bottom of exceeding rich Land and the Country from hence quite up to the 3 Islands, level and in appearance fine; the River (Ohio) running round it in the nature of a horse shoe, forms a Neck of flat Land wch. added to that run'g up the 2d. long reach (aforementioned) cannot contain less than 50,000 Acres in view.

About 6 or 7 Miles below the Mouth of the Canhawa we came to a small creek on the west side, which the Indns. calld little Hockhocking; but before we did this, we passd another sml. Creek on the same side near the Mouth of the River, and a cluster of Islands afterwards.¹ The lands for two or three Miles below the Mouth of the Canhawa on both sides the Ohio, appear broken and indifferent; but opposite to the little Hockhocking there is a bottom of exceeding good Land, through wch. there runs a small water course. I suppose there may be of this bottom and flat Land together, two or three thousand Acres; the lower end of this bottom is opposite to a smal Island wch. I dare say little of it is to be seen when the River is high. About 8 Miles below little Hockhocking we Incampd opposite to the Mouth of the great Hockhocking,² which tho so calld is not a large Water; tho the Indians say Canoes can go up it 40 or 50 Miles.

Since we left the little Kanhawa the Lands neither appear so level nor good. The Bends of the River and Bottoms are longer indeed but not so rich, as in the upper part of the River.

Sunday 28th. Left our Incampment about 7 Oclock.

¹ The largest of these became Blennerhasset's Island.

² The Great or Big Hockhocking enters the Ohio in Fairfield County, Ohio, about twenty-five miles below Marietta; the Little Hockhocking is eight miles above the Great. Washington's camp appears to have been on the point of land just above what is now Lee's Creek, on the other side of which is Belleville, West Virginia.

Two Miles below, a sml. run comes in on the East side ¹ thro a piece of Land that has a very good appearance, the Bottom beginning above our Incampment, and continuing in appearance wide for 4 Miles down, to a place where there comes in a sml. Run, and to the Hills, and to where we found Kiashuta and his Hunting Party Incampd.

Here we were under a necessity of paying our Compliments, As this person was one of the Six Nation Chiefs, and the head of them upon this River. In the Person of Kiashuta I found an old acquaintance, he being one of the Indians that went with me to the French in 1753. He expressed a satisfaction in seeing me, and treated us with great kindness; giving us a Quarter of very fine Buffalo. He insisted upon our spending that Night with him, and in order to retard us as little as possible movd his Camp down the River about 3 Miles just below the Mouth of a Creek, the name of which I could not learn ² (it not being large); at this place we all Incampd. After much Councelling the overnight, they all came to my fire the next Morning, with great formality; when Kiashuta rehearsing what had passed between me and the Sachems at Colo. Croghan's, thankd me for saying that Peace and friendship was the wish of the People of Virginia (with them) and for recommending it to the Traders to deal with them upon a fair and equitable footing; and then again expressed their desire of having a Trade open with Virginia, and that the Governor thereof might not only be made acquainted therewith, but of their friendly disposition towards the white People; this I promised to do.

Monday 29th. The tedious ceremony which the Indians

observe in their Councellings and speeches, detain'd us till 9 O'clock. Opposite to the Creek just below wch. we In-camp'd, is a pretty long bottom,¹ and I believe tolerable wide; but abt. 8 or 9 Miles below the aforemend. Creek and just below a pavement of Rocks on the West side, comes in a Creek ² with fallen Timber at the Mouth, on which the Indians say there is wide bottoms, and good Land. The River bottom's above for some distance is very good, and continues for near half a Mile below the Creek; the pavement of Rocks are only to be seen at low Water. Abt. a mile or a little better below the Mouth of the creek is another pavement of Rocks on the East side, in a kind of Sedgey Ground. On this Creek many Buffaloes use[d to be], according to the Indians acct.³ Six Miles below this comes in a small Creek ⁴ on the west side at the end of a small naked Island, and just above another pavement of Rocks, this creek comes thro a Bottom of fine Land, and opposite to it (on the East side of the River) appears to be a large bottom of very fine Land also. At this place begins what they call the great Bent. 5 Miles below this again on the East side comes in (abt. 200 yds. above a little stream or Gut) another Creek; which is just below an Island, on the upper point of which are some dead standing trees, and a parcel of white bodied Sycamores. In the Mouth of this Creek lyes a Sycamore blown down by the wind; from hence an East line may be run 3 or 4 Miles; thence a North Line till it strikes the River, which I apprehend woud Include about 3 or 4000 Acres of exceeding valuable Land. At the Mouth of this Ck. which is 3 or 4 Miles above two

Islands (at the lower end of the last ¹ is a rapid, and the Point of the Bend) is the Warriors Path to the Cherokee Country; for two Miles and an half below this the River Runs a No. Et. Course, and finishes what they call the Great Bent. Two Miles and an half below this again we Incampd.

Tuesday 30. We set out at 50 Minutes passd Seven; the Weather being windy and cloudy (after a Night of Rain). In about 2 Miles we came to the head of a bottom (in the shape of a horse Shoe) which I judge to be about 6 Miles rd; the beginning of the bottom appeard to be very good Land, but the lower part (from the Growth) did not seem so friendly. An East course from the lower end woud strike the River again above, about the beging. of the bottom.

The upper part of the bottom we Incampd in was an exceeding good one, but the lower part rather thin Land and coverd with Beach; in it is some clear Meadow Land and a Pond or Lake. This bottom begins just below the Rapid at the point of the Great Bent, from whence a N. N.Wt. Course woud answer to run a parrallel to the next turn of the River.

The River from this place narrows very considerably, and for 5 or 6 Miles or more, is scarcely more than 150 or 200 yards over.

The Water yesterday, except the Rapid at the Great Bent, and some swift places about the Islands was quite Dead, and as easily passd one way as the other; the Land in general appeard level and good. About 10 Miles below our Incampment, and a little lower down than the bottom described to lye in the shape of a horse Shoe, comes in a small Creek on the West side, and opposite to this on the

¹ Letart Island, and Letart Rapid, which are now located in Mason County, West Virginia.

East, begins a body of flat Land which the Indians tells us runs quite across the Fork to the Falls in the Kanhawa,¹ and must at least be 3 days walk across; if so the Flat Land containd therein must be very considerable. A Mile or two below this we Landed,² and after getting a little distance from the River we came (without any rising) to a pretty lively kind of Land grown up with Hicky. and oaks of different kinds, intermixd with Walnut, etca. here and there. We also found many shallow Ponds, the sides of which abounding in grass, invited innumerable quantities of Wild fowl among which I saw a Couple of Birds in size between a Swan and a Goose; and in colour somewhat between the two; being darker than the young Swan and of a more suttty Colour: the cry of these was as unusual as the Bird it self, as I never heard any noise resembling it before.³ About 5 Miles below this we Incampd in a bottom of Good Land which holds tolerably flat and rich some distance out.

Wednesday 31st. I sent the Canoe along down to the junction of the two Rivers abt. 5 Miles, that is the Kanhawa with the Ohio, and set out upon a hunting Party to view the Land. We steerd nearly East for about 8 or 9 Miles, then bore Southwardly, and Westwardly, till we came to our Camp at the confluence of the Rivers, the Land from the Rivers appeard but indifferent and very broken; Whether these ridges might not be those that divide the Waters of the Ohio from the Kanhawa is not certain, but I believe they are, if so the Lands may yet be

¹ The Falls of the Kanawha are about one hundred miles from its mouth.

² Washington landed on the West Virginia shore, somewhere near Leading and Ten-Mile Creeks.

³ Possibly this was the Great Blue Heron whose cry is a croaking, bellowing roar totally unlike any other bird voice. Washington's description is hardly sufficient to settle the matter definitely; the bird might have been either the Blue Heron or the American Bittern; but the size and color rather indicate the Heron.

good; if not, that which lyes of the River bottoms is good for little.

November 1st. A little before eight Oclock we set of with our Canoe up the River, to discover what kind of Lands lay upon the Kanhawa.¹ The Land on both sides this River just at the Mouth is very fine; but on the East side when you get towards the Hills (which I judge to be about 6 or 700 yards from the River) it appears to be wet, and better adapted for Meadow than tillage; this bottom continues up the East side for about 2 Miles, and by going up the Ohio, a good Tract might be got of bottom Land Including the old Shawna Town, which is about 3 Miles up the Ohio just above the Mouth of a Ck. where the aforementioned bottom ends on the East side the Kanhawa, which extends up it at least 50 Miles by the Indns. acct., and of great width (to be ascertaind, as we come down) in many places very rich; in others somewhat wet and pondy; fit for Meadow, but upon the whole exceeding valuable, as the Land after you get out of the Rich bottom is very good for Grain, tho not rich. We judgd we went up this River about 10 Miles to day. On the East side appear to be some good bottoms but small, neither long nor wide, and the Hills back of them rather steep and poor.

Novr. 2d. We proceeded up the River with the Canoe about 4 Miles more, and then incampd and went a Hunting; killd 5 Buffaloes and wounded some others, three deer, etca. This Country abounds in Buffalo and Wild game of all kinds as also in all kinds of wild fowl, there being in the Bottoms a great many small grassy Ponds or Lakes which are full of Swans, Geese, and Ducks of different kinds.

Some of Our People went up the River 4 or 5 Miles

¹ The Great Kanawha is sometimes called New River.

higher and found the same kind of bottom on the West side, and we were told by the Indians that it continued to the Falls, which they judgd to be 50 or 60 Miles higher up. This Bottom next the Water (in most places) is very rich; as you approach to the Hills you come (in many) to a thin white Oak Land, and poor; the Hills as far as we could judge were from half a Mile to a Mile from the River; poor and steep in the parts we see, with Pine growing on them; whether they are generally so, or not, we cannot tell but I fear they are.

Saturday 3. We set of down the River on our return homewards, and Incampd at the Mouth; at the Beginning of the Bottom above the junction of the Rivers, and at the Mouth of a branch on the East side, I markd two Maples, an Elm, and Hoopwood Tree as a Cornr. of the Soldiers Ld.¹ (if we can get it) intending to take all the bottom from hence to the Rapids in the Great Bent into one Survey. I also markd at the Mouth of another Gut lower down on the West side (at the lower end of the long bottom) an Ash and hoopwood for the Beginning of another of the Soldiers Survey, to extend up so as to Include all the Bottom (in a body) on the West side.

In coming from our last Incampment up the Kanhawa I endeavourd to take the courses and distances of the River by a Pocket Compass, and guessing; which I make thus, N by W 2 Miles; NNW $1\frac{1}{2}$ Do., NW $\frac{1}{2}$ Do. to the Mouth of a pretty smart Creek to the Eastward; No.Wt. 2 Do. to another Creek of the same size on the same side; West $\frac{1}{2}$ a Mile; WNW $\frac{1}{2}$ a Mile; NWt. 1 Do. WNW 2 Do; W by N 2 Do.; NW $1\frac{1}{2}$ Do.; WNW $\frac{1}{2}$ Do. to the Mouth.

¹ That is the area to be covered in by the proclamation of Governor Dinwiddie in 1754 which promised land to those who would enlist for the French and Indian War. The land promised was specifically designated and the quantity involved was specifically fixed at 200,000 acres.

Sunday 4. The Ohio from the Mouth of the Kanhawa runs thus: North 2 Miles; NNW $1\frac{1}{4}$, to the Mouth of a Creek and old Shawna Town; N b W $1\frac{1}{2}$ Miles; NEt. 1 Do., NE by Et. $1\frac{1}{2}$; NNEt. 4 Do., ENE $\frac{3}{4}$ of a Mile to the Mouth of a Ck. on the West side, and to the Hills wch. the Indians say is always a fire,¹ to which the Bottom from the Mouth of the Kanhawa continues and then ends. After passing these Hills (which may run on the River near a Mile), there appears to be another pretty good Bottom on the East side. At this place we met a Canoe going to the Illinoies with Sheep, and at this place also, that is, at the end of the Bottom from the Kanhawa, just as we came to the Hills, we met with a Sycamore abt. 60 yards from the River of a most extraordinary size, it measuring (3 feet from the Gd.) 45 feet round, lacking two Inches, and not 50 yards from it was another 31.4 round (3 feet from the Gd. also).²

The 2d. Bottom hinted at the other side (that is the one lying above the Bottom that reaches from the Kanhawa) is that taken notice of, the 30th Ulto. to lye in the shape of a Horse shoe, and must from its situation and quantity of level Ground be very valuable, if the Land is but tolerably good.

After passing this bottom and abt. a Mile of Hills, we enterd into the 3d Bottom and Incampd. This bottom reaches within about half a Mile of the Rapid at the point of the Great Bent.

Monday 5th. I set of the Canoe with our Baggage and walkd across the Neck on foot with Captn. Crawford, distant according to our walking about 8 Miles, as we kept

a strait course under the Foot of the Hills, which run about So. Et. and was two hours and an half walking of it.

This is a good Neck of Land the Soil being generally good; and in places very rich. Their is a large proportion of Meadow Ground, and the Land as high, dry, and Level as one could wish. The growth in most places is beech intermixd with walnut, etca., but more especially with Poplar (of which there are numbers very large). The Land towards the upper end is black oak, and very good; upon the whole a valuable Tract might be had here, and I judge the quantity to be about 4000 Acres.

After passing this Bottom and the Rapid, as also some Hills wch. jut pretty close to the River, we came to that Bottom before remarkd, the 29th, ulto; which being well describd, there needs no further remark except that the Bottom within view appears to be exceeding rich; but as I was not out upon it, I cannot tell how it is back from the River. A little above this Bottom we Incampd, the afternoon being rainy, and night wet.

Tuesday 6th. We left our Incampment a little after daylight, and in about 5 Miles we came to Kiashutas Hunting Camp which was now removd to the Mouth of that Creek, noted Octr. 29, for having fallen Timber at the Mouth of it, in a bottom of good land; between the Bottom last describd, and this bottom, there is nothing but Hills on the East side; except a little flat of a 100 Acres or so, between. This Bottom thro which the Creek comes may be about 4 or 5 Miles in length and tolerably wide; grown up pretty much with Beach, tho the Soil is good.

By the Kindness and Idle ceremony of the Indians, I was detaind at Kiashutas Camp all the remaing. part of this day; and having a good deal of conversation with him on the Subject of Land, He informd me, that it was further from the Mouth of the Great Kanhawa to the Fall of that

River than it was between the two Kanhawas; that the Bottom on the West side (which begins near the Mouth of the Kanhawa) continues all the way to the Falls without the Interposition of Hills, and widens as it goes, especially from a pretty large Creek that comes in abt. 10 or 15 Miles higher up than where we were; that in the Fork there is a body of good Land, and at some pretty considerable distance above this, the River forks again at an Island, and there begins the Reed or Cain to grow; that the Bottoms on the East side of the River are also very good, but broken with Hills, and that the River is easily passd with Canoes to the Falls wch. cannot be less than 100 Miles, but further, it is not possible to go with them, and that there is but one ridge from thence to the Settlements upon the River above, that it is possible for a Man to travel; the Country between being so much broken with steep Hills and precipices.

He further informd (which seemd to be corroborated by all of¹

with whom I conversd) that the [land]
back of the Short broken Hills th

uneven, and not rich, except the [land]

split Island Creek, some

nity of observing from
, which are very high

the course of the Creek which Meanders through a bottom
of fine land especially at the Forks where there appears to
be a large body of it. The vail (through which this Creek
runs) as far as we could see up it, appears to be wide, and
the Soil of the Hills which confines it good, tho very steep

in some places. On this Creek, which heads up a little to the Southward of Redstone Settlement, there is, according to the Indians Acct., and all the accts. I could get, a great deal of fine land. The Body of flat at the Forks is but a very little way from the River in a direct line and may contain, I guess, a thousand Acres or more; below the mouth of this Creek there is a bottom of pretty good Land but not large, and about 5 Miles above, at the Mouth of a small run which comes in at the lower point of an Island (and which by mistake I call'd, Octr. 23d, Fishing Creek) there is a bottom of as fine land as can possibly be, but not large, containing not more than two or 300 Acres. At the head of this Bottom and a little below the 2d cross Creeks, we incamp'd distance from our last 13 or fourteen Miles.

Here it was for the 2d time the old Indian with me spoke of a fine piece of Land and beautiful place for a House, and in order to give me a more lively Idea of it, chalk'd out the situation upon his Deer skin. It lyes upon Bull Creek, at least 30 Miles from the Mouth, but not more than 5 from the Mouth of Muddy Creek, in an ESE direction. The spot he recommends for a House lyes very high, commanding a prospect of a great deal of level Land below on the Creek, the ground about it very rich and a fine spring in the middle of it, about which many Buffaloes use and have made great Roads. Bull Creek according to his acct. runs parallel with the long reach in the Ohio, not above 6 or 7 miles from it; having fine bottoms which widen as it extends in to the Country, and towards the head of it is large bodies of level rich Land.

Saturday 17. By this Morning the River had fallen (in the whole) 2 or 3 and twenty feet, and was still lowering. Abt. 8 Oclock we set out, and passing the lower cross Creeks we came to a pretty long, and tolerable wide and good bottom on the East side the River; then comes in the

Hills; just above which, is Buffalo Creek¹ (a Creek I neither see nor remarkd in going down) upon which, and above it, between yt. and the cross Creeks near the Mingo Town (distant 3 or 4 Miles) is a Bottom of exceeding fine Land, but not very large, unless it extends up the Creek.

About 3 Oclock we came to the Town without seeing our Horses the Indian (which was sent express for them) having passd through only the morning before (being detaind by the Creeks which were too high to Ford; without going high up them). Here we resolvd to wait their arrival which was expected tomorrow, and here then will end our Water Voyage along a River, the general course of which from Bever Creek to the Kanhawa is about S Wt. (as near as I coud determine); but in its winding thro a narrow vale, extreemely serpentine; forming on both sides the River alternately, Necks of very good (some exceeding fine) Bottoms; lying for the Most part in the shape of a half Moon, and of various sizes.

There is very little difference in the genl. width of the River from Fort Pitt to the Kanhawa; but in the depth I believe the odds is considerably in favour of the lower parts; as we found no shallows below the Mingo Town, except in one or two places where the River was broad; and there, I do not know but there might have been a deep Channel in some part of it. Every here and there are Islands some larger, and some smaller, which operating in the nature of Locks, or stops, occasion pretty still water above, but for the most part strong and rapid water along side of them; however there is none of these so swift but that a Vessel may be Rowd or set up with Poles. When the River is in its Natural State, large canoes that will carry 5 or 6000 weight and more, may be workd against stream by 4 hands 20 or 25 Miles a day; and down, a good deal

more. The Indians who are very dexterous (even there Women) in the management of Canoes, have there Hunting Camps and Cabins all along the River for the convenience of transporting their skins by Water to Market. In the Fall, so soon as Hunting Season comes on, they set out with their Familys for this purpose; and in Hunting will move there Camps from place to place till by the Spring they get 2 or 300 or more Miles from there Towns; Then Bever catch it in there way up which frequently brings them into the Month of May, when the women are employd in Plantg. The Men at Market, and in Idleness, till the Fall again; when they pursue the same course again. During the Summer Months they live a poor and perishing life.

The Indians who live upon the Ohio (the upper parts of it at least) are composed of Shawnas, Delawares, and some of the Mingos, who getting but little part of the consideration that was given for the Lands Eastward of the Ohio, view the Settlement of the People upon this River with an uneasy and jealous Eye, and do not scruple to say that they must be compensated for their Right if the People settle thereon, notwithstanding the Cession of the Six Nation's thereto. On the other hand, the People from Virginia and elsewhere, are exploring and Marking all the Lands that are valuable not only on Redstone and other waters of Monongahela but along down the Ohio as low as the little Kanhawa; and by next Summer I suppose will get to the great Kanhawa, at least; how difficult it may be to contend with these People afterwards is easy to be judgd of from every day's experience of Lands actually settled, supposing these to be made; than which nothing is more probable if the Indians permit them, from the disposition of the People at present. A few Settlements in the midst of some of the large Bottoms, woud render it impractable to get any large qty. of Land Together; as the Hills all the

way down the River (as low as I went) come pretty close and are steep and broken, incapable of Settlements tho some of them are rich and only fit to support the Bottoms with Timber and Wood.

The Land back of the Bottoms, as far as I have been able to judge, either from my own observations or from information, is nearly the same, that is exceeding uneven and Hilly; and I do presume that there is no body's of Flat rich Land to be found till one gets far enough from the River to head the little runs and drains that comes through the Hills; and to the Sources (or near it) of the Creeks and there Branches. This it seems is the case of the Lands upon Monongahela and Youghe. and I fancy holds good upon this River till you get into the Flat Lands (or near them) below the Falls.

The Bottom Land differs a good deal in quality, that highest up the River in general is richest; tho the Bottoms are neither so wide or long, as those below. Walnut, H Locust Cherry, and some other Woods, that grow Snarly, and neither Tall nor large, but coverd with Grape Vines (with the Fruit of which this Country at this Instant abounds) are the growth of the richest Bottoms; but on the other hand these Bottoms appear to me to be the lowest and most subject to Floods. Sugar Tree and Ash, mixd with Walnut, etca. compose the growth of the next richest low grounds, and Beach, Poplar, Oaks, etca. the last. The Soil of this is also good but inferior to either of the other kinds, and beach Bottoms are excepted against on acct. of the difficulty of clearing them, there Roots spreading over a large Surface of Ground and being hard to kill.

Sunday, 18th. Agreed with two Delaware Indians to carry up our Canoe to Fort Pitt for the doing of which I was to pay 6 Dollars and give them a Quart Tinn Can.

Monday 19th. The Delawares set of with the Canoe, and our Horses not arriving, the day appeared exceeding long and tedious. Upon conversing with Nicholson, I found he had been two or three times to Fort Chartres ¹ at the Illinois, and got from him the following Acct. of the Lands between this and that; and upon the Shawna River; ² on which he had been a Hunting.

The Lands down the Ohio grow more and more level as you approach the Falls, ³ and about 150 Miles below them, the Country appears quite Flat, and exceeding rich. On the Shawna River (which comes into the Ohio 400 Miles below the Falls and about 1100 from Pittsburg) up which he had hunted 300 and more Miles the Lands are exceeding Level, rich, and fine, but a good deal intermixd with Cain or Reed, which might render them difficult to clear; that game of all kinds was to be found here in the greatest abundance, especially Buffalo. That from Fort Chartres to Pittsburg by Land, is computed 800 Miles; and in travelling thro the Country from that place he found the Soil very rich, the Ground exceeding level to O Post ⁴ (a French Settlement) and from Opost to the Lower Shawna Town ⁵ on Scioto equally flat, that he passd through large Planes 30 Miles in length without a Tree except little Islands of Wood, that in these Planes thousands, and 10,000sds. of Buffalo may be seen feeding; that the distance from Fort Chartres to Opost is about 240 Miles and

the Country not very well Waterd; from Opost to the lower Shawna Town about 300 more abounding in good Springs and Rivulets; that the remainder of the way to Fort Pitt is Hilly, and the Hills larger as you approach the Fort, tho the Ld. in general is also good.

³ Hutchins' map gives no such place as Big Buffalo Lick at this point. Licking Creek, now called Licking River, enters the Ohio opposite where Cincinnati now stands. The distances from Fort Pitt to the Mouth of the Great Kanhawa are set down agreeable to my own Computation, but from thence to the Mouth of River Ohio are strictly according to Hutchinges acct. which Acct. I take to be erroneous ⁶ inasmuch as it appears that the Miles in the upper parts of the River are very long, and those towards the Canhawa short, which I attribute to his setting of in a falling fresh[et] and running slower as they proceeded on.

The Letters E and W signifie wch. side of the River the respective Waters come in on, that is, whether on the East or West side.

Novr. 20th. About One Oclock our Horses arrivd, having been prevented getting to Fort Pitt by the freshes. At Two we set out and got about 10 Miles. The Indians travelling along with us.

Tuesday 21st. Reach'd Fort Pitt in the Afternoon, dis-

¹ Wabash River.

² A cave in the limestone cliffs on the Illinois side of the Ohio. It is about one hundred and twenty feet deep, and is twenty feet above low water. A quarter of a century later it acquired some local reputation as a rendezvous of outlaws.

³ The Shawano is now the Cumberland River.

⁴ The Cherokee is now the Tennessee River.

⁵ Old Fort Massac, on the Illinois bank of the Ohio.

⁶ Washington's impression was correct as to Hutchins' distances, as the Cherokee or Tennessee River, by the pilot guides, is but 911 miles from Pittsburgh, while Hutchins makes it 1107 miles. Washington's own mileage calculation was surprisingly accurate; e.g. Captina (Captening) Creek, which is about midway of Washington's journey, he called 113 miles from Fort Pitt; the exact distance is 112 miles.

tant from our last Incampment about 25 Miles and as near as I can guess 35 from the Mingo Town.

The Land between the Mingo Town and Pittsburg is of different kinds for 4 or 5 Miles after leaving the first mentiond place we passd over Steep Hilly ground, hurt with stone, coverd with white Oak; and a thin shallow soil. This was succeeded by a lively White Oak Land, less broken; and this again by rich Land the growth of which was chiefly white and red Oak, mixd; which lasted with some Intervals of indifferent ridges all the way to Pittsburg.

It was very observable that as we left the River, the Land grew better, which is a confirmation of the Accts. I had before receivd, that the good Bodies of Land lay upon the heads of the Runs and Creeks; but in all my Travels through this Country, I have seen no large body of Level Land. On the Branches of Racoon Creek there appears to be good Meadow Ground and on Shirtees Creek (over both which we passd) the Land Looks well. The Country between the Mingo Town and Fort Pitt appears to be well supplied with Springs.

Thursday 22. Stayd at Pittsburg all day. Invited the Officers and some other Gentlemen to dinner with me at Samples;¹ among which was one Doctr. Connelly² (Nephew to Colo. Croghan) a very sensible Intelligent Man who had travell'd over a good deal of this Western Country both by Land and Water and confirms Nicholson's Acct. of the good Land on the Shawana River up which he had been near 400 Miles.

This Country (I mean the Shawana River) according to Doctr. Connelly's Acct. must be exceeding desirable on

¹ This dinner cost Washington £26.1.10.

² Dr. John Connolly, who afterwards gave considerable trouble to the people in the neighborhood of the Falls of the Ohio. He was a loyalist, and Lord Dunmore authorized him to raise a corps to be called 'The Loyal Foresters.' He was captured and held a prisoner of war during most of the Revolution.

many Accts. The Climate is exceeding fine, the Soil remarkably good; the Lands well Waterd with good streams, and full level enough for any kind of Cultivation. Besides these advantages from Nature, it has others not less Important to a new settlement, particularly Game which is so plenty as not only to render the Transportation of Provisions there (bread only excepted) altogether unnecessary, but to enrich the Adventurers with the Peltry for which there is a constant and good Market.

Doctr. Connelly is so much delighted with the Lands, and Climate on this River; that he seems to wish for nothing more than to induce 100 families to go there to live that he might be among them. A New and most desirable Government might be established here to be bounded (according to his Acct.) by the Ohio Northward and Westward. The Ridge that divides the Waters of the Tenessee or Cherokee River Southward and Westward and a Line to be Run from the Falls of Ohio, or above so as to cross the Shawana River above the Fork of it.

Doctor Connelly gives much the same Acct. of the Land between Fort Chartres in the Illinois Country, and Post St. Vincent (O Post) that Nicholson does, except in the Article of Water, wch. the Doctr. says is bad, and in the Summer scarce, there being little else than stagnate Water to be met with.

Friday 23d. After settling with the Indians¹ and People that attended me down the River and defray the Sundry Expenses accruing at Pittsburg, I set of on my return home and after dining at the Widow Mierss. on Turtle Creek reachd Mr. John Stephenson² (two or three hours in the Night).

¹ 'Paid the Indians £10.13 — Indn. Interpreter £5.8.' (*Ledger A.*)

² Here Washington traded some of his horses (presumably two) and gave Stephenson £2.6.3. on the exchange.

Saturday 24th. When we came to Stewards Crossing at Crawfords, the River was too high to Ford and his Canoe gone a Drift, however after waiting there 2 or three hours a Canoe was got in which we passd and Swam our Horses. The remainder of this day I spent at Captn. Crawfords,¹ it either Raining or Snowing hard all day.

Sunday 25th. I Set out early in order to see Lund Washington's Land, but the Ground and trees being coverd with Snow, I was able to form but an indistinct opinion of it, tho upon the whole it appeard to be a good Tract of Land and as Level as common indeed more so, from this I went to Mr. Thos. Gists, and Dind, and then proceeded on to the Great crossing at Hoglands,² where I arrivd about Eight Oclock.

Monday 26th. Reachd Killiams on George's Creek where we met several Families going over the Mountains to live, some witht. having any places provided. The Snow upon the Alligany Mountains was near knee deep.

Tuesday 27th. We got to Colo. Cresaps at the Old Town after calling at Fort Cumberland and breakfasting with one Mr. Innis³ at the New Store opposite. — 25 Miles

Wednesday 28th. The Old Town Gut was so high as to Wet us in crossing it, and when we came to Cox's the River was Impassable; we were obligd therefore to cross in a Canoe and swim our Horses. At Henry Enochs at the Forks of Cacapehon we dind, and lodgd at Rinkers, the distances thus computed; from the Old Town to Cox's 8

¹ Washington paid Captain William Crawford £25 for his services in accompanying him upon this journey.

² Toner thinks, John Hogeland.

³ James Innes, at the New Store of the Ohio Company.

Miles; from thence to Cacapehon 12, and 18 afterwards, in all 38 Miles, the last 18 I do not think long ones.

Thursday 29th. Set out early and reachd my Brothers by one oclock (about 22 or 3 Miles). Doctr. Craik having Business by Winchester went that way to meet at Snicker's to morrow by 10 Oclock.

Friday 30th. According to Appointment the Doctr. and I met, and after Breakfasting at Snickers proceeded on to Wests where we arrivd at or about Sunset.
